BROTHERS COLLEGE, MADISON, N. J., THURSDAY, NOVEMBER 17, 1938

PRICE, TEN CENTS

#### Forum Decides, 10-7, Chamberlain Wrong

Larson Takes the Affirmative, Kellogg Upholds Negative, McClintock Critic

"Was Chamberlain Justified at Munich?" Last Thursday night the second meeting of the Brothers College Forum, in a discussion led by Russell Kellogg and Harold Larsen, decided by a seven to ten vote that Chamberlain was not justified.

Kellogg, upholding the negative side of the question, based his arguments on the fact that the recent settlement was only a temporary one, and will only lead to a far greater catastrophy. He maintained that there might not have been war had France and England stood firm against Germany's "anschluss." Mr. Larsen, in upholding the affirmative side of the question. maintained that there was no fundamental reason to condemn Germany for the Sudeten Germans were being held by Czechoslovakia against their 28% of the Students will, and they should have the right of self-determination in view of the many elements in the situation.

Professor James McClintock was the critic.

Dr. H. P. Sloan Presents Talks On Supernatural

Dr. Harold P. Sloan, editor of the New York Christian Advocate, inaugurated a new lecture foundation for the supernatural last week with three lectures under the general heading, "If God is not God, how can man be man?"

"The Natural Supernatural" was Dr. Sloan's opening topic in which he outlined the evidence he thought pointed to the existence of a supernatural. charges or assistantships. Nature and the supernatural, he explained, are not mutually exclusive concepts. Dr. Sloan emphasized that "If you deny the reality of the supernatural, you deny the very exist ence of human personality."

In a second lecture the same evening Dr. Sloan spoke on "Christ and the Supernatural." The following afternoon, Thursday, the editor's topic was "The Supernatural and Experience."

#### Acorn To Sponsor Campus **Poll As Regular Feature**

Something new in the line of student and faculty participation in ACORN affairs will commence when the first of a series of college-wide polls is taken next week.

On these bi-weekly ballots, the students will have a chance to express their opinions concerning women, movies, music, international affairs, sex, etc. The results will be tabulated and analyzed as a feature of every ACORN issue.

THE ACORN is in hope of complete cooperation from the student body in an undertaking that should prove of interest and importance. The first ballot will appear individuallyaddressed in the boxes in the mailroom early next week,

# **Employed on Campus**

Jobs Range From Janitor to Store Keeper, Librarian, Waiter, Bell-Ringer

One hundred sixteen, or 28 per cent of Drew University's 409 students are employed on the campus at positions which range all the way from chapel pianist to student janitor, a recent survey has revealed, Of these 116 men, 91 are Brothers College undergraduates and 25 are students in Drew Theological Seminary. In addition, 51 per cent of the seminary students have either student

The largest proportion of Drew's working students 41, are employed under the National Youth Administration. Next in order comes work in the university dining hall, which helps pay the bills of 28. The libraries, the bookstore, the registrar's office, and the gymnasium employ student help, while other men draw pay as campus mailmen, laboratory assistants, and chapel doormen.

### Hole-in-one Scored By Schultz First In The College's History

A certain game of golf was in prog- ing his number four iron with the grim ress at the Madison links on November 11 much like any other sport played by three professors. Not many happened before the seventh hole, but eyes and made a viscious swing. Six tries and traveled in several others, the Drew students like to believe that President Brown, Dr. Schultz, and ball. Named for Drew Men Painting of Building's Exterior Will Commence In Spring

According to Lawson

Rose Library Rooms

Professor O. Gerald Lawson, Head Librarian, said today, that progress in the construction of the new Rose Memorial Library is eminently satisfactory. Such interior finishing touches as the installment of shelring and pilasters are being made. Flooring is to be commenced shortly. The doors have been hung in the faculty research rooms, and the acoustical ceilings throughout the building are nearly completed. The painting of the exterior will not be done until spring, but books will be moved into the new building during Christmas vacation as planned.

Two of the rooms have been given names recently. The room designated as the "browsing room" will be known as the William S. Pilling Room, and the Rare Book Room will be named in memory of Frank Mason North who, when at Drew, made an extensive study of the valuable hymnology collection. The University's numerous old manuscripts and rare books will be kept in a fire-proof, burglar-proof vault.

The new fine arts room will have two soundproof booths for the reproduction of recordings. The walls of the entire room will be of cork, serving the double purpose of sound-proofing and supplying a base on which to hang works of art. Lights sunk in the ceiling will illuminate the walls and art displayed on them,

## Four Seniors Suggested For College Who's Who

Frank Bello, Vernon Carnahan, Ira Hecht, and Joseph Hough, Brothers College seniors, have been named by registrar F. Taylor Jones for places in Who's Who in American Colleges and Universities, it was announced recently. This annual, sponsored by the University of Alabama, lists 3,000 of the outstanding college students of the country.

Bello last year was editor-inchief of the Oak Leaves, college yearbook, and is now editor of THE ACORN. Carnahan has been outstanding in inter-class intercollegiate debating. Hecht is the coordinator of student activities, and has greatly benefited the university through his alert work for the Drew Press Service. Hough is the star Drew athlete - ace left-handed pitcher in the Spring, and last, winter high scorer for the Green and Gold on the basketball floor.

#### **Insurance-Donation Project Suggested by** Alumni Committee

Give Insurance Dividends-Back To College; Plan Successful In Many Universities

"Every alumnus a philanthropist" may soon become a literal fact if the insurance-endowment plan suggested by the Alumni Association material-

A Brothers College Alumni Endowment Committee has been appointed which announced today that an insurance company, through which to operate the plan, has been selected. Simply stated, every alumus will take out an ordinary \$1,000 life insurance policy, but instead of receiving dividends, the insurance company will hold the first \$100 in dividends of all the alumni enrolled each year in the project, handing over to the college the first-maturing aggregate sum after twenty years, and a like sum every year thereafter.

Robert G. Smith, '36, spokesman for the committee, said that the plan has worked out successfully in many big universities including Princeton, Williams, and M.I.T. It is expected that if only twenty new seniors enroll upon graduation each year, that the endowment fund will contain \$2,000 each year, after twenty years have passed.

In a letter sent to all alumni recently, the following statement was included: "This plan is a financial mechanism

only be understood on the basis of its which accumulates, efficiently man-

I say I'm affaid to recommend it for fear that some friend across the campus might read it and the seminary might lose one of its salesmen of that particular brand of spiritual spinach—the supernatural.

#### Riding The Circuit

Thursday, November 17, 1938

Thomas

I wonder if they're going to us snow balls to finish the tennis tournament with? The tourney has turned nto a marathon in which the players attempt to see who can last the longest without playing a match. This situation borders on the ridiculous. What sense is there in starting a tennis tournament when school opens in September and have the contestants stall around until freezing weather to finish?

With the Indian summer weather that has prevailed, there should have been no difficulty in playing the scheduled matches. The survivors apparently have been too lax or too disinterested to contact their opponents. The obvious solution, in the future, is to set a deadline for each round and Fencers Schedule forfeit all unplayed matches.

There is plenty of room in Drew for Season and Trip Mileage Long: out maneuver his opponent. minor intercollegiate sports. Participation for all is the aim of the intramural athletic program. Why not participation for more in varsity competition? Golf, for example, is a possible expense of playing golf is far from of which only 3 will be fenced at exhorbitant. Daffin "Swede" Backstrom, the school record, seventy-three out of tallest man who ever wore a Drew seventy-five. University basketball shirt, and Sam "Mitty" Campbell, the shortest man to

do the same, are roommates. Backstrom, standing six feet three part of last year. Ray averaged ten Miller advanced to the semi-finals and a half inches under a shower but five feet four inches. Despite the equally well with his right. In the second set "Doc" was leading great difference in stature, the two Sid 4-0, but the latter came back have much in common. Both are twenty-two years old, both are juniors, Miller, a local boy, will now face both major in history, both (fortu-"Esky", another Madisonite, with the nately) like the same radio programs, winner meeting Ken Lester, victor and both go to bed at the same time (only "Swede" sets the alarm at night having scored 134 points last year Eskesen reached his semi-final sta- and "Mitey" shuts it off in the morntus by downing Art Levitt 6-4, 6-4. | ing). Surely this pair is not suffering

for an all-time high in this school. As for the rest of the Varsity squad, there is only one Freshman, Bill Capron. That Backstrom and Campbell are

#### I.R.C. Club Completes Plans For This Year

Savadge and Steele Appointed To Attend National I. R. C. Meet At Swarthmore

1938 closing program, announced Jasper A. Steele, vice-president of the club and chairman of the program

The I.R.C., which has been one of the most active clubs on campus since its inception, has increased its membership each year until today a select group of twenty-five students are fullfledged members.

The program will include a number of innovations and cover a more widespread field than in former years.

Weekly meetings will be held at which current events will be discussed and interpreted.

Each Saturday one member will attend a meeting of the Foreign Policy Association of New York at the Astor Hotel. This association reviews the events abroad as concerned with the foreign policy of the United States.

Three delegates will represent Brothers College at a national conference of collegiate International Relations Clubs at Swarthmore College, (Pa.), December Jo and 16.

Mr. Steele and Wesley R. Savadge, club secretary, have already been appointed to attend. The latter is an experienced delegate to such conferences, having represented Morris Junior College at the University of Delaware in 1936, and Brothers College at the conference of Eastern Colleges at Columbia University last year.

Faculty members of Brothers College are scheduled to speak on international influences in their respective fields

Dr. A. Stanley Trickett, instructor of history and Biblical literature, is faculty adviser of the club.

#### Coppola, Smith Speak Before Biology Club

The Brothers College Biology Club held its first meeting of the year last Monday night. Armando Coppola presented an historical account of "Parthenogenesis", and Foster Smith discussed the subject of "Predatation in Nature.'

Mr. Coppola, in discussing parthenogenesis (the so-called "virgin birth") and Guyer who are prominent in this field, having successfully brought about the parthenogenesis of the lower forms of life. Recent experiments have proven successful even with human eggs.

"In the exact sense of the word, no animal is ever an enemy of another," said Smith, "since each predatory animal serves the purpose of keeping the group upon which it preys small smiles. enough to live upon its available food supply-thus, it is in reality doing the group a good turn."

#### President and Mrs. Brown See Army Whip Former Alma Mater

President and Mrs. Brown had as their guest last Friday, Nov. 11, President Archie Palmer of the University of Chattanooga. The two presidents were in attendance at the Army-Chattanooga football game on Saturday, at West Point. Following the Alumni Association of the University of Chattanooga in New York. President Brown was the President of the University of Chattanooga before coming to Drew.

21

". . . to love her was a liberal education." —Sir Richard Steele

SURPRISED WAS ADAM one morning a week ago to hear The International Relations Club the good name of Drew bruited about over the air waves . . . the has completed arrangements for its bruit-abouter was funnyman Phil Cook plugging the town of Madison and incidentally telling the good folk into whose lives he attempts to instill a little cheer that Brothers College is the shrine of culture . . . perhaps it was he, attempting to console non-grad listeners, who defined intelligence as the thing that enables man to get along without education ... perhaps it was he, appraising some grads, who defined education as the thing that enables man to get along without the use of intelligence....

> MASON-DIXON AND OLD OVERHOLT: from the south where stories, drinks and men come tall wafts a thought. Up here in the north we have a custom of keeping a bottle of hair tonic in our lockers to offset dry scalp and so forth . . . south of Mason-Dixon's little collaboration they have the same sort of a local custom . . . in their lockers they too keep a liquid preparation . . . they use it to offset a dry mouth . . . they massage their esophagus with it . . . it makes them mouth happy:

CAUTION

If you stick a stock of likker in your locker, Be quick to stick a lock upon your stock. Or some slicker who is quicker Will trick you of your likker, Though you snicker, you'll be sicker from the shock. Be apicker, though your room-mates mock and bicker, For, like brokers 'round a ticker, they will flock To your locker full of likker, And your stock will vanish quicker,

If you fail to lock your likker with a lock.

YOU WOULDN'T KNOW IT FROM ADAM: a Freshman writes to ADAM-as so many do-asking what his girl should bring to a Drew dance... how about a sense of humor and two strong brothers . . . another wants to know something of the love life of the average Drew student . . . write me again when Drew enrolls an average student . . . as to what is the best play on Broadway, I cannot tell you, A. B., but I know of a neat little number on Hudson Street . . . don't hide your lights under a bushel, fellow studes; the dimmest light has the most scandal power . . . and always keep trying because sooner or later the man who stops at nothing will reach it . . .

NOT A SPECK OF BOTHER: after seeing the frowsy, sleepy guys slink into Lankard's seven-fifty course, some people would suggest:

Little fly upon the wall Got the sweetest snap of all In the morning when he wake Got no eight o'clock to make.

RUSSIAN RHAPSODY: Lawrence Tibbett, who they say sings a bit, tells how in Hollywood one evening he was asked to sing. "I stood up and improvised for five minutes, singing in an imitation of Russian, of which language I know not even one word. discussed the work of Loeb, Morgan, I sobbed, I laughed, I waved my arms, making up music and words as I went along. Finally I stopped, exhausted by my emotions. They cheered and applauded like mad. An exotic actress. reputed to be a member of the Russian nobility, grasped my hand. 'Eet ees tremendous,' she cried, 'my favorite aria.' I nodded. My Russian pronunciation isn't very good though, I said. 'You are too modest,' she insisted, 'I understand every word.' I let it go at that."- Sometimes the same feeling creeps over ADAM when in class he sees learned nods and knowing becks and wreathed

HERE AND THERE: Faulknerites have their second clambake coming up this Saturday eve with a jam session in Baldwin Hall preceding the mayhem . . . now that the moon has already been eclipsed the farmers of Asbury House stand less chance of disappointment on their hay-ride. The guys had a straw vote and elected Wooley chaperone . . . little Wooley lamb . . . Comstock got a ticket t'other day . . . My girl Thursday told me about it over the phone, and I couldn't tell whether she said the ticket was for sparking or parking . . . Roach kicked around over the week-end to a couple of football games, Dottie Leary trailing along . . . Jimmy Steele and his epistles, he gets five in one day, and all the game they attended a meeting of scented . . . from whom were they scented . . . Besides being a jolly good fellow tricky Trickett is now a Royal Fellow of the Historical Society, L'td., London . . . Roses bloom as the Rose Library zooms . . . outside Roger House still cling two roses and a bud . . . where are the snows of yesteryear.

### Dr. Rowe, Duke Exchange Professor, Airs His Views On Philosophy, Etc.

PROFESSOR GILBERT ROWE

"I think that the intimacy of students and faculty, the effort that the faculty makes to enter sympathetically into the interests of the student body, and their help to the students in adjusting their extra-classroom activities to college life as a whole, would impress any stranger to the campus."

Thus spoke Professor Gilbert Theodore Rowe, of Duke University, who is exchanging teaching positions for this semester with Professor Benton of the Drew faculty. Professor Rowe, at Drew, holds the chair of Christian Doctrine at Duke.

An interesting picture was presented to the reporter during the interview-that of the professor seated in an armchair before a crackling fire. While answering questions, he had a fascinating habit of peering out of the corner of his eye toward the other person.

Professor Rowe began immediately to teach at Hendrix College upon his graduation from Trinity College, now Duke University. But he taught only

"Where Campus Paths Meet"

one year, becaming a minister in the Southern Methodist Church. After twenty-four years of active ministry, he entered the field of journalism, being Book Editor of the Methodist Quarterly Review. He again entered the teaching profession at Duke in 1928, where he has been ever since.

Speaking slowly, and weighing each word carefully, Professor Rowe outlined the four fields of Philosophy-Naturalism, Humanism, Personalism, and Absolute Idealism. He especially centered his attention on the personalistic school, of which Borden P. Bowne is the leading exponent, as the school of thought to which he adheres. "The highest known value is personality. The way to arrive at a knowledge of ultimate reality is through personality."

Speaking of his relation to Drew students, he emphasized the keen interest given to Philosophy. He accounted for this interest "by the fact that Philosophy is made vital through its connection with religion." He also went on to say, "Through Philosophy. they (the students) get a meaning of life, and, consequently, come into possession of the principles that they can live by, with assurance that their lives will be successful."

Our custom of a field trip day aroused his curiosity. "In fact, I'm just catching on-the system is fine." According to his statement, Duke has who has courses in Philosophy while a form of the field trip idea, although it is not systematized as here.

In answering a query as to his hobby, Professor Rowe declared that his chief diversion is wood-cutting and working on his yard. After pointing out the inconvenience of chopping wood up here, he smiled and noted that Professor Jordy had been kind enough to offer some of his trees for
