# "Take Five"

Noticing with relief that Four Leaf Clover is dying and will soon be laid to rest beside Near You and Heartaches, we unstoppered our ears and recovered from our palsy long enough to take in a few of the latest discs that are being

If the record ban hadn't come at just that wrong moment, we too were preparing to hit all the jukeboxes with our latest sure-fire hit, French-Gypsy Cafe with Candlelight and Mimi, with a zither background. Placing your interests above ours, however, we want to rake over a few of the landslide of new releases. To wit:

London label: Two good records that were almost swamped underneath the dozens of mediocre ones-Rhumbolero with Nick Cammaratta and his American-type orchestra, a transcription of Latin rhythms that really has it, and There Ought To Be a Society (for poor unfortunate lovers) as recorded by Joy Nichols and an orchestra. Joy will be a girl to watch, especially if she continues to get good material to slap on wax. In the also-ran department is Gracie Fields' maudlin sentimental Now Is the Hour, complete with romantic English-type natives and swaying palm fronds. She evidently called in the first twenty men in brown suits she saw on the street to sing with her, for along about the third chorus there is a distinct hiccup somewhere in back of the

Our Parisian friends have also put in their oar, taking American tunes that were popular last September and translating them into French to catch the snob appeal. Their I'll Dance at Your Wedding is every bit as bad as the original tune. This and other French pressings can be obtained in the big city at Liberty Music Shops, where they have every imported recording. Maurice Chevalier does a remarkable little thing called Vingt Ans in English with an orchestral background. His style seems to mellow as he grows older, and this bit of advice to young men has a charm all its own.

As for American releases, there isn't much, If Vic Damone's voice was any weaker he'd be dead, but in spite of all the steals on his original Theresa, his transcription of that girlie tune is still the best, if you like girlie tunes. Speaking of the smog boys, someone asked us yesterday if Torme sang under a basket. We honestly don't know.

Elliot Lawrence is trying to capture the Irish market with his new platter of Johnny O'Shay, sort of a zoot-type Mother Macree. It has a lot of bounce that could be better adapted to something else.

Rose ("Chee Chee") Murphy has gone the way of all entertainment flesh, committing the one unpardonable sin of making a second record that doesn't measure up to her first. Annabel Lee has the "Chee Chee," but the style doesn't shape up as well as it did before, somehow. Her piano, however, is given more space and is as good as ever. If she's wise she'll drop the patter and be content with her mastery of the keyboard.

The Andrews Sisters manage to hash up Crosby's new release, Apalachicola F-L-A with their own particular genius for sounding like nothing so much as three women caught in a pit with a snake. Crosby is getting gay in his old age, and spaces his straight stuff with little witticisms that should end the Old Lady's Home set all a-twitter.

Finally, Arthur Godfrey has put out about six new pressings. We can think of nothing whatever good to say about them.

Not being up on the "real gone" boys, we'll skip that chapter for this issue. Their material is remarkable only in that it all sounds alike. Re-bop is something half the country loves, half hates with a bloody passion, and nobody understands, even those who play it. A musician we know vaguely told us that he has worked up a popular bop routine, where he hollers "mooley blooney-bop-boinng" while his associate on the string base runs over his instrument in track shoes, humming Mammy.

Strictly the best thing that has hit the air since the year one is the Canada Lee Show on WNEW Saturday nights from 8:00 to 8:30. Just how he does it we are at a loss to say, but the man makes your flesh crawl with his background while beating you over the head with music's best. If he didn't play a single record the program would still be well worth listening to, which is the highest praise anyone can give a disc-jockey. Just listen and see for yourself, Canada

## Club Briets

Rosenblum was elected president of the Philosophy, Psychology, and Religion Club at the organization's first spring meeting held on February 2, 1948. Carl Nelson and Ruth Splaver were voted into the jobs of vice-president and secretary, respectively. Phil Spencer heads the publicity committee.

On March 1, the club will sponor a talk by Dr. Ivey, woman psychiatrist from Morristown. The talk will be held in the library social room and will start at 7:30.

The Foresters will present "Out of the Frying Pan" as their annual spring production this year. Tryouts for parts in this hilarious comedy by Francis Swann were held on Wednesday and today. Final selections will be made tomorrow, and rehearsals will begin on Monday. The play will be presented April 24 at Chatham High

Mr. Leo Baldwin was guest speaker at the first meeting of the Sociology Club held on February 2, 1948. His topic was "The Sociological Aspect of Conscientious Objectors." After the lecture, the meeting adjourned to Dr. Fulcomer's home for refreshments and an informal discussion of Mr. Baldwin's topic.

Officers of the club this year are Herman Hensgen, president; Terry Smith, secretary-treasurer; and Bob Gunsel, program chairman.

The singing of German songs highlighted the program of a recent German Club meeting held in the Lounge. At this time plans were also made for a trip to New York to see a German movie and to enjoy some Hofbrau atmos-

A student affiliate of the American Chemical Association has recently been formed on campus. The organization affords its members the opportunity of making valuable contacts with leaders in the field of chemistry, of getting first-hand information about the newest advances in the chemical field, and of having their names placed in the files of the national placement bureau.

Officers of the organization are Tom Stonier, chairman; Al de Meurisse, co-chairman; Herb Lieb, recording secretary; and John Apovian, corresponding secretary. Dr. Jordy advises the organization.

Clutching the torch we snatched from old man Remaly's faltering grasp we stagger onward, ever onward in search of the brillig. Should we, too, flounder in the drifts we shall drink the brandy, throw the St. Bernard to the wolves, and to Hell with the world . . . hic.

There seems to be a certain affinity between our feet and our mouths whenever we spout off on world events, but we feel like letting our hair down. So here goes . . .

The question of Universal Military Training seems to have been shelved for the present (this being election year), so perhaps all this is not too timely. The Congressional winds are choosing sides for the big blow, however, and we feel it is not too early for the voters to give the matter some thought. Ignoring the moral issues raised by many church leaders let us consider the problem from a more practical aspect. The inductees would be subjected to a six-month training period which would be valuable chiefly as a character and health builder. It would be inadequate training for a modern war. The cost of such a program for the Army, Navy, and Air Force would be at least \$400 million to get it started, and close to \$3 billion a year to operate. (Source of figures on request.) There is a limit to what can be spent in defense measures, and such a program would greatly decrease the already inadequate amount Congress is allotting the three services. Without such a program there would be more money—and time—to strengthen the Army and Navy's joint air-arm.

The other night we were reading our kiddies a bedtime story. It interested us so much we decided to pass it along. Seems like a guy named Harry lived in a fine house in the middle of a forest. He had one big neighbor, a great brown bear, who owned property to the east, west, and north of Harry's. This bear didn't like Harry and Harry didn't like the bear, so each would sit on his own property and snarl at the other. Harry spoke softly and carried a big stick (shades of Teddy R.), and it was this big stick that caused all the trouble. Some of Harry's family thought that if Harry showed that he trusted the bear, the bear wouldn't dislike him anymore. Well, Harry didn't believe that smorgasbord for a minute, but he got so tired of hearing them nag that he broke his stick and gave half to the bear. "Now we are all happy," said Harry's children as they smugly sipped their orange crush and smiled benevolent golden-rulish smiles at their old man. Well, quicker than you could say Bikini Atoll they were Nothing Atoll. The big brown bear had clobbered them all to Hell!!!

Moral: It's there, bub-look for it!!!
