ACORN Brings Bloodmobile To Campus Dec. 12

A Red Cross Mobile Blood Bank will visit the Drew Campus on December 12 to collect blood for our wounded men in Korea. The visit, which is sponsored by the Madison-Chatham Chapter of the Red Cross, is being directed by the ACORN and Dr. Robert Schultz, Chairman of the Madison-Chatham Chapter.

The Blood-mobile will set up facilities in the Mead Hall Chapel from 1:00 to 7:00 P.M. An effort is being made by the ACORN to get all members of the Drew Community to donate. Brothers College students and faculty, Seminary students and faculty, the administration, and the clerical and maintenance staffs of the University are all being solicited.

All persons in good health between the ages of 18 and 60 are permitted to give blood. Persons with a medical history of malaria, jaundice, and various other diseases will not be accepted. Students under 21 must get written permission from their parents.

All persons who have not yet returned the registration slips sent to them last week are asked to return them as soon as possible. All blanks should be returned by November 21, so that times may be assigned and parental permission slips distributed. Blanks may be returned to the ACORN box in the College Mail Room, the main desk in the library, or the switchboard in Mead Hall.

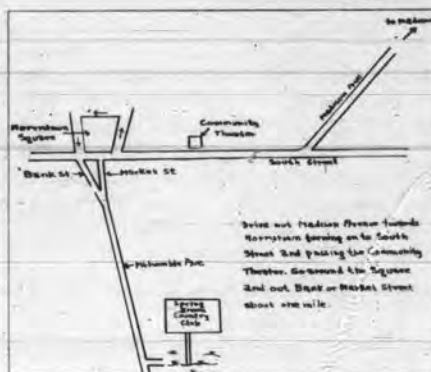

Red Cross officials have emphasized the painlessness of the donation.

Foilmens Make Debut

Individual members of the Drew Foil team will vie for honors next Thursday at Snyder High School in Jersey City when the New Jersey Amateur Fencing League will hold its meet for novice fencers. The meet, held for all fencers with a year's experience, will be attended by Bill Demas and Cliff Edwards with the possibility of a third man.

The third man who might make the trip will be a newcomer to the squad this year since Bill and Cliff are the only remnants from last year's group.

Formal at Spring Brook Highlights Fall Weekend

DIRECTIONS TO REACH SPRING BROOK COUNTRY CLUB By B. J. Wenzel

The fall social program will come to a culmination tonight with the beginning of the Fall Weekend. The semi-formal dance at the Spring Brook Country Club will be followed by the informal tomorrow night at the University Refectory. Art "Sharp" Shapiro, Chairman of the Brothers College Social Committee, has been the main force behind the planning, busily conferring with his assistants so that everyone will remember this weekend as the gala event of the year.

Dean Morris has given the girls 2:30 permission tonight so that they will have time left after the Prom, which will last from 9 PM until 1 AM. Al Clothier's Five Piece Suburban Orchestra will provide the music for dancing. Mr. and Mrs. Jerome Cranmer and Dr. and Mrs. F. Heisse Johnson will be chaperones.

The dance tomorrow night is scheduled to run from 8 PM until midnight, with the usual one o'clock permission for the women. Al Clothier's Orchestra will again supply the musical background, but the size of the group will be increased to nine pieces because the dining hall is so large. Besides dancing, there will also be a formal entertainment program. Julian Brown and Al Ericksen are the directors of these proceedings. Nancy Huntington is in charge of refreshments, while Alice Clayton heads the decoration committee. Holding the dance in the refectory is an innovation this year. This has been done in order to reduce the costs of the weekend by saving rental fees. This action has become necessary because the budget of the social committee has been cut.

The posters in the halls advertising the affair have been made under the direction of Betty Jane Wenzel who is in charge of both the publicity and the bids. Bill Howells and Pat DeGiorgio have lent their services, acting as dance band chairman and hall chairman, respectively. They have also worked under "Sharp" as general assistants.

In order to accommodate the men on campus, Bill Howells and Hank Heffner have been offering a tuxedo rental service at low rates.

Mrs. Morgan Leads Dancers

Under the leadership of Mrs. Arvena Morgan, the Dance Club has been reorganized, and now meets every Friday night in the College Lounge. The Club, which had been inactive for the past few years, is again offering weekly instruction in social dancing, followed by an informal dance.

Mrs. Morgan is assisted by Don Terry, who has charge of the record player. All students are invited to attend the instruction, or the dancing period.

Despite the high activity of the Club, the participants are relatively few in number, and those interested in the group have expressed the desire to see a larger group taking advantage of this opportunity.

Tower Announces Contest

The TOWER has announced a contest for the cover design for the next issue. A committee headed by Mrs. Korn will make the selection. Those wishing to submit drawings should contact E. B. Allaire for technical details. The deadline is February 15, 1952.

Editor's Corner

I imagine that it seems strange for the Business Manager of the ACORN to be writing an editorial which might be read by our readers. Actually it isn't.

I was recently asked to present a proposed budget to Mr. Noel Bensinger, University Treasurer. Minutes after I entered his office I found myself facing a tough problem: if the ACORN was to be published on the average of every two weeks during the school year we would run into a deficit of about \$300. This sent a scare into the members of the Editorial Board, if I may use such a title for the group which met to discuss this problem.

The problem was simple but the answer difficult. It boiled down to one of two things: either we reduce the number of issues or the size of some issues of the paper. We felt that the latter would be best. Accordingly this issue has been printed this size.

One will ask: "What are you going to do to try to raise more money?" The answer is threefold: increase subscriptions and advertising and request a larger share of the Student Activities Fee. We are doing all three. A letter was sent to each member of the Faculty and Administration who receive the paper and to all Alumni Class Secretaries; more ad blanks are being prepared for a larger campaign; and I will appear before the Student Council at its next meeting.

You now see our problem and how we propose to overcome it. We hope that all of you will bear with us and try to adjust yourselves as we have and wait patiently for the day when the ACORN will return to normal.

Vol. XXV November 9, 1951 No. 5

Have You Heard The One About..

By CONVERSE WEST

"To illustrate this point, I am reminded of a story...." "You students don't know what it is to work. Why, when I went to college I had to get up at 3 AM, milk the cows, hike 18 miles to the campus...and then study until midnight." Sound familiar to you? Of course.

This year seems to be filled with superlatives of every kind. There are more tests, more edicts from the administration, more and louder noises in Asbury Hall, a bigger and better deficit, and more Professors telling corny jokes in class. We do not go to class to be entertained. Movies are cheaper. This does not mean that a Professor should never throw a joke into a dull lecture. It does mean that there are some individuals in the faculty who consider themselves to be in a class with Milton Berle, Bob Hope, and other so-called comedians. If a joke-studded lecture brings gales of laughter, it doesn't always mean that the Prof is a wit. Jokes in class are rarely funny. Only one or two men in the school can put a joke across effectively, and they are usually students.

Sometimes a Professor will be so intent upon getting his joke across that his entire lecture will lose its significance. It is becoming so bad that some students are beginning to think of lecture material as a "commercial" that comes at the beginning and end of class, and in true radio form, never exceeds 60 seconds. We don't want deadly, boring, straight-laced lectures, but we would like to see our Profs write their jokes with a little more care. Students are only interested in hearing jokes repeated if the story teller has unusual talent in this type of entertainment. Believe me, few of the Profs here have that ability. And if they're thinking of developing such talent, might I suggest they try it out on the Rotary Club first, for the formative period is one of the most painful for the raconteur's audience.

While we're on the subject of extraneous lecture material, most faculty members have no idea how little interest we students have in their past history. Some students have a sadistic interest in just what events led up to the development of their fiendish personalities, but most of us would prefer to sit there and write out our lecture notes concisely in our notebooks. The time which is ordinarily spent telling jokes in class would be very much appreciated in the form of a week off at the end of the term.

The Moderne And The Marriage Myth

The choosing of a mate I'm told,
Is beyond our mortal ken.
The choice is made by Gods that be
In Glory, yea Heaven.

Beyond the bonds of starry space,
Beyond infinity;
Sits the God of Love and Passion,
Choosing mates for you and me.

And so it seems that marriages
Are all in Heaven made.
Each endowed by Heaven's grace
With Love that will not fade.

And it could be that this is true,
I really do not know.
So I will travel 'long life's road,
Observing as I go.

But some I've seen already,
And though sad it is to tell;
If these be samples of Heaven's work,
My God -- Send me to Hell!

R. M.

Student Council Agenda

The agenda for the Student Council meeting which will be held next Tuesday evening, November 11 will be:

Appointment of delegates to the Eastern Colleges Science Conference to be held on April 3, 4, 5, 1952 at Pennsylvania College for women.

Committee reports from the ECAC and Educational Policy Committees.

Possibility of placing a coke machine in the Brothers College building.

Report on the ACORN budget.

Report of student-faculty committee concerning Freshman week.

President Whitcomb to give a progress report on the instituting of an honor system in Brothers College.

Announcement of dates for election of Student Council representatives, freshman officers, and ACORN editor.

Report of student-faculty committee concerning Freshman week.

President Whitcomb to give a progress report on the instituting of an honor system in Brothers College.

Announcement of dates for election of Student Council representatives, freshman officers, and ACORN editor.

To all those who don't already know it, our first game of the 1951-1952 Basketball season is scheduled for December 1 at Newark College of Engineering. The first home game will be played here in Madison on December 5 against Bloomfield College.

If one takes the time to look over the squad which the coach is working with this year there are many important things which can be brought into the limelight. I feel that the first spot in any list of amazing facts is the terrific amount of spirit which is being exhibited by all of the fellows connected with the team. This is something which I didn't notice too much last year, but it certainly will be a major factor throughout the entire season.

With the absence of a J.V. Squad the coach has found himself with a varsity squad of seventeen men. Of these seventeen, eight are Freshmen while the others have had some previous experience with one of the squads while here at Drew.

This abundance of Freshman talent has enabled the coach to feel that he can use two separate teams throughout the season. One of these will, of course, be a rather set starting lineup, while the other will be made up of four Freshmen and one Veteran. In this manner the coach hopes to be able to give the younger fellows the workout which can keep them in shape.

With cold weather invading Drew Forest many of our thoughts have turned to indoor sports and I would like to bring your attention to some notices which have been placed in various places on campus. Frank Ritzer has hit upon the idea of having an intramural ping-pong tournament between the fellows in the college and has placed sign-up lists around for the various groups of fellows to sign.

Competition will be held in the Social Room of the Library, where tables will be placed in the near future, at times which will be designated by Frank later on. As things now stand the teams will be from Asbury, Sam Bowne - Sycamore Cottage, Off-Campus and Commuters with two or even three teams coming from a couple of the groups.

W.A.A. to Present Ballet

Intramural Basketball Starts Next Monday

Frank Ritzer, former B. C. athlete and Director of College Intramural Athletics, has announced that the Intramural Basketball League will open on November 12. The first series of games will be between the Freshman and Sophomores and the Juniors vs Seniors with the first game starting at 4:20.

During the course of the season which will extend into March, each team will play an equal number of games with the other classes. In addition, due to the absence of a Junior Varsity team, there will be Intramural games played prior to the regular varsity games.

The teams are built along class lines and are composed of any non-Varsity class members.

Tower States Deadlines

The TOWER staff has decided to institute a system of three deadlines for selecting material for publication. A portion of the items to be published this year will be chosen from each period equally. The periods end December 13, January 31, and March 31.

This decision was necessary because it will spread the work uniformly throughout the year, and it is hoped that it will be an incentive for the students to submit their material early and to participate in the discussions from the beginning of the year. Past experience has shown that many students have profited from active participation in the discussions, with a resulting increase in writing ability. A number of students started writing after attending a few of the meetings. This year, the TOWER plans to increase its size so as to include approximately twice the amount of material contained in last year's issue.

Day Of Rest

"Paséme Ud. las tomas calores, par favor." Such was the conversation as several Drew students, with Dr. Richner, lunched in a Spanish Restaurant in New York last Wednesday.

The occasion was Field Trip Day, at which time several other excursions were scheduled. Led by Dr. Jordy, Chemistry students visited the Maltine Co. in Morris Plains, while Dr. Zuck and his Botany enthusiasts examined the N. J. Pine Barrens.

In the Physics department, Dr. Harrington planned a trip to the New York Hall of Science and the Hayden Planetarium. Dr. Schultz, and his group of Economics students, appropriately toured the Federal Reserve Bank and the Chase National Bank and Money Museum.

Budding psychologists guided by Dr. McClintock sat in on counselling conferences when they visited the New Jersey Training School for mentally deficient girls in Totowa, N.J.

Morality Topic Of Faculty Discussion

One of the highlights of Religious Emphasis Week was the faculty panel discussion on "Morality at Brothers College" held in the Pilling Room of the Library on Thursday, November 1.

Each of the six members of the panel gave a five minute introductory address, followed by a half hour discussion period, which rounded out the hour and a half meeting. Most of the panel members began their discourses with a statement as to whether morals in the United States, generally, have been improving or degenerating in the last few years. The majority of the panel felt that morals in the U. S. have reached a very low state.

When the students got their chance to "have at" the Professors in a question period, two subjects monopolized the discussion. The first, which was prompted by Mr. Gentile's statement that charging students for meals they couldn't possibly eat was an unethical practice, concerned the dining hall's policy of charging students for all meals during the term, rather than just those which were eaten by the students. The panel defended the dining hall for its policy of charging for all meals, because there is no way to estimate the exact attendance at any meal.

The second question discussed at length was brought up by a student who claimed he had been tested at least once on every class day since October 1, with but one exception. Those members of the faculty who had anything to say on this subject condemned Drew's testing methods.

"WHERE FRIENDS MEET"

143 Main Street (Opposite High School)

AS I SEE IT

By AL ERICKSEN

"I passed by your house yesterday."

"Thanks awfully."

These windy days...Nat Whitcomb couldn't suppress that diabolical grin of his the other day while in town. -- "I see you are not a gentlemen" - hissed a comely young miss to Nat as the wind swept her skirts over her head. "No," replied gallant Nat, "and I see you aren't either."

HISTORY MAJOR: Why didn't I make 100 on my history exam?

BRUNHOUSE: You remember the question: "Why did the pioneers go into the wilderness?"

HISTORY MAJOR: Yes.

BRUNHOUSE: Well, your answer, while very interesting, was incorrect.

Overheard in Zoology Lab -

Romig: How do animals breed?

Jennings: Troo der noses, natchelly.

"Hell, yes," said the devil as he picked up the phone.

Marriage is like a bath - by the time you get used to it, it's not so hot.

MOTHER: Well, how did you get along in school today?

JOHN: All right, but that new teacher is always asking us some fool question! Asked everybody in the class to tell where they were born!

MOTHER: You certainly know the answer to that question - The Woman's Hospital.

JOHN: Betcha life I know! But I didn't want the whole class to think I was a sissy. I said the Yankee Stadium.

You haven't had a real hangover until you can't stand the noise made by Bromo-Seltzer.

Mary had a little car,

She drives it very brisk.

For Mary doesn't care, you know,

She only has her *.

Hedgewick: Terribly sorry you buried your wife yesterday.

Wattlewood: Had to, dead, you know.

Then there was a girl who went with two sailors and didn't know which one she liked best, so she put out to sea!

He who horses around too much someday may find himself a groom.

To all those who don't already know it, our first game of the 1951-1952 Basketball season is scheduled for December 1 at Newark College of Engineering. The first home game will be played here in Madison on December 5 against Bloomfield College.

The Semi-Annual Water Ballet, sponsored by the W.A.A., will be presented this coming Thursday evening in the swimming pool of the Sam Bowne Gymnasium. The show will be directed by Ethel Eisenscher and her assistant, Barbara Burger.

The show, combining the swimming talents of eleven co-eds, will follow the theme of "The U.S.S. Drew" and present a view of the entire world as seen from the deck of the ship. The dialogue for the evening has been written by Wendell Tripp and Ann Mary Cerruti and will be delivered by Ed Allaire and Julian Brown.

The co-eds showing off their swimming talents on Thursday will be Marjorie Baker, Jane Bowker, Barbara Burger, Barbara Edgerton, Ethel Eisenscher, Ruth Elliot, Betty Mathil, Ann Ring, Marion Silverman, Elsie Jo Smith, and Betty Jane Wenzel.

Art and Publicity have been handled by Nancy Wennemer and Ann Smith respectively. Helping Nancy have been Marjorie Baker, Ruth Brown, Lou Lights, Beverly Simonson, and B. J. Wenzel.

The remainder of the staff of the show are: lighting, Alkis Sophianopoulos and Warren Campbell; sound effects, Ann Cerruti; and properties, Joan Gordon and Barbara Burger.

Day Of Rest

"Paséme Ud. las tomares calores, par favor." Such was the conversation as several Drew students, with Dr. Richner, lunched in a Spanish Restaurant in New York last Wednesday.

The occasion was Field Trip Day, at which time several other excursions were scheduled. Led by Dr. Jordy, Chemistry students visited the Maltine Co. in Morris Plains, while Dr. Zuck and his Botany enthusiasts examined the N. J. Pine Barrens.

In the Physics department, Dr. Harrington planned a trip to the New York Hall of Science and the Hayden Planetarium. Dr. Schultz, and his group of Economics students, appropriately toured the Federal Reserve Bank and the Chase National Bank and Money Museum.

Budding psychologists guided by Dr. McClintock sat in on counselling conferences when they visited the New Jersey Training School for mentally deficient girls in Totowa, N.J.

Morality Topic Of Faculty Discussion

One of the highlights of Religious Emphasis Week was the faculty panel discussion on "Morality at Brothers College" held in the Pilling Room of the Library on Thursday, November 1.

Each of the six members of the panel gave a five minute introductory address, followed by a half hour discussion period, which rounded out the hour and a half meeting. Most of the panel members began their discourses with a statement as to whether morals in the United States, generally, have been improving or degenerating in the last few years. The majority of the panel felt that morals in the U. S. have reached a very low state.

When the students got their chance to "have at" the Professors in a question period, two subjects monopolized the discussion. The first, which was prompted by Mr. Gentile's statement that charging students for meals they couldn't possibly eat was an unethical practice, concerned the dining hall's policy of charging students for all meals during the term, rather than just those which were eaten by the students. The panel defended the dining hall for its policy of charging for all meals, because there is no way to estimate the exact attendance at any meal.

The second question discussed at length was brought up by a student who claimed he had been tested at least once on every class day since October 1, with but one exception. Those members of the faculty who had anything to say on this subject condemned Drew's testing methods.

AS I SEE IT

By AL ERICKSEN

"I passed by your house yesterday."

"Thanks awfully."

These windy days....Nat Whitcomb couldn't suppress that diabolical grin of his the other day while in town. -- "I see you are not a gentlemen" - hissed a comely young miss to Nat as the wind swept her skirts over her head. "No," replied gallant Nat, "and I see you aren't either."

HISTORY MAJOR: Why didn't I make 100 on my history exam?

BRUNHOUSE: You remember the question: "Why did the pioneers go into the wilderness?"

HISTORY MAJOR: Yes.

BRUNHOUSE: Well, your answer, while very interesting, was incorrect.

Overheard in Zoology Lab -

Romig: How do animals breed?

Jennings: Troo der noses, natchelly.

"Hell, yes," said the devil as he picked up the phone.

Marriage is like a bath - by the time you get used to it, it's not so hot.

MOTHER: Well, how did you get along in school today?

JOHN: All right, but that new teacher is always asking us some fool question! Asked everybody in the class to tell where they were born!

MOTHER: You certainly know the answer to that question - The Woman's Hospital.

JOHN: Betcha life I know! But I didn't want the whole class to think I was a sissy. I said the Yankee Stadium.

You haven't had a real hangover until you can't stand the noise made by Bromo-Seltzer.

Mary had a little car,
She drives it very brisk.

For Mary doesn't care, you know,
She only has her *.

Hedgewick: Terribly sorry you buried your wife yesterday.

Watzwood: Had to, dead, you know.

Then there was a girl who went with two sailors and didn't know which one she liked best, so she put out to sea!

He who horses around too much someday may find himself a groom.
