DR. ROBERT F. OXNAM
Eighth University President

Board Of Trustees Announces R. F. Oxnam Eighth President

Dr. Robert Fisher Oxnam was elected eighth president at a meeting of the Board of Trustees on November 22; Donald R. Baldwin president of the Board, recently announced. Dr. Oxnam has been president of Pratt Institute in Brooklyn since 1957.

He may be able to assume his administrative duties during the second semester. Mr. John Pepin, Vice President and Treasurer explains that it depends upon when Dr. Oxnam can be relieved from his duties at Pratt Institute.

Pepin adds that he will be consulting with Dr. Oxnam about major administrative decisions and policies from now on. The formal inauguration of Dr. Oxnam will probably not take place until next Fall.

The election of Dr. Oxnam as the eighth president of Drew by the Board of Trustees took place November 22 and was announced the next day. This culminated a six month search by the Trustees for a successor to Fred G. Holloway elected Bishop at the Northeastern Jurisdictional Conference in June.

23 Considered

The trustees in their search considered 23 men for the position. Of that number three, including Dr. Oxnam, were actually interviewed. All were persons doing successful work where they were, and it took considerable persuasion before they would even agree to be interviewed, Pepin explains.

Before his election, Dr. Oxnam made two trips to Drew to see the campus and to meet with the deans, administrative officers, and faculty representatives. Since his election, he has visited the campus again to show his family their new home.

Mr. Peplin, who showed the Oxnam family around the campus, reports that they are looking forward to living on the campus. While Dr. Oxnam has been serving as president of Pratt, they have been living in an apartment in Brooklyn, and are not reluctant to leave that for the comparative spaciousness of Drew Forest.

UCLA GRAD

Born in Boston forty-five years ago, Dr. Oxnam graduated from DePauw in 1937, and then went to UCLA where he earned his M.A. and M.S. in Public Affairs. In California he married Dalys E. Houts in 1939.

They have three children; Robert 18, student at Williams; Phillip, 15, a pupil at Polytechnic Preparatory; and Mary Elizabeth, 10, a pupil at Packer Collegiate Institute. When they move to the Drew Campus, Phillip and Mary will attend the public schools in Madison, Mr. Pepin reports.

Army Captain

During World War II, Dr. Oxnam served as an infantry officer in Europe advancing to Captain before his discharge in 1946. Then he returned to UCLA where he completed his Ph.D. in 1948 and taught at the university.

EXPERIENCED ADMINISTRATOR

From California Dr. Oxnam went to Syracuse University where he was Assistant Dean of Liberal Arts plus being Assistant Professor of Political Science and the Assistant to Chancellor William P. Tolley, Drew Seminary, '25, who had served as the first dean of the College of Liberal Arts at Drew. Dr. Oxnam stayed at Syracuse until 1953.

Then he went to Boston University to be Vice President for Administrative Affairs and Associate Professor of Government. He was at Boston for four years

(Continued on page 3)

Hick To Give Grad Lecture

Drew University's Graduate School will sponsor a lecture Thursday evening, December 8, at 8:00 in the Great Hall (second floor) of Samuel Bowne. Professor John Hick of Princeton Theological Seminary will speak on the subject "Christology and Theological Meaning."

The talk will concern an analysis of the meaning and function of titles describing Christ as they function in theological language.

Born in Scarborough, England, Professor Hick was graduated from Edinburgh University with an M.A. in 1948, and received his Ph.D. from Oxford in 1950.

Dr. Hick is the author of *Faith and Knowledge*, published in 1957 by Cornell University Press. He has served as assistant professor of Philosophy at Cornell and at present is Stuart Professor of Christian Philosophy at Princeton.

Sally Prettyman is instructor for the group.

The aquatic misses who will perform in the Christmas ballet include Marian Anderson, Phyllis Bailey, Susan Campbell, Carol Darling, Susan Faison, Lois Jackson, Jackie Jones, Kathie Mace, Betty Mitchell, Janet Mitchell, Diane Murphy, Cynthia Nylin, Trudy Parsons, Joyce Petzel, Jane Russel, Ruth Sinclair, Diane Suter, Ann Warner, and Gretchen Zimmerman.

Debaters Invited To N. Y. Rounds

Drew University will be one of the forty-five schools represented in the Eleventh Annual New York University Hall of Fame Debate Tournament on December 9 and 10. The tournament is being held at the University Heights campus of N.Y.U. in the Bronx.

Day, Enslee On 'Acorn' Board

Larry Day, junior member of the *Acorn* sports staff, becomes Sports Editor with this issue. He succeeds Doug Davis, retiring senior Sports Editor during 1960.

Day has been a sports reporter since his freshman year and since that time, has covered all men's sports, varsity and intramural.

Davis has worked on the sports staff during all four years at Drew, has served as manager to several varsity teams, and has served as *Acorn* Sports Editor for one year.

Also new to the staff is freshman George Enslee who succeeds Steve Ellingsen as Photographer. All semester Enslee has considerably aided retiring photographer Ellingsen, who has served in his capacity for one year. Don Scott, also a freshman, will work with Enslee.

There will be four rounds of debate on this year's intercollegiate topic, "Resolved: That the United States should adopt a program of compulsory health insurance for all its citizens." One debate round will be held on Friday night and the other three, on Saturday.

The highlight of the tournament will be the opening panel discussion on the question of compulsory health insurance, which will take place on Friday afternoon.

Jane Gruber and Logan Potts will represent the negative side. The affirmative team has not yet been chosen. The affirmative may be represented by two novice debaters in order to give advanced experience to more members of the society. This decision will be made after the results of the Novice Debate Tournament at Temple University have been received.

Dr. Ralph Johnson, coach of the debate team, will accompany the debaters to New York. "Logan Potts has been kind enough to permit the team to stay at his home for the tournament," said Dr. Johnson.

"We have been working regularly on our cases and speeches and hope to surpass last season's record," states Miss Gruber.

'Synkers' Plan To Give Bubble Dance

Gliding and graceful synchronized swimmers will display their aquatic skill Saturday night, December 10 at 7:30 P.M. when the Drew 'Synkers' present their Christmas program of water ballet in the pool of Baldwin Gymnasium.

"Christmas" has been chosen as the show's theme. The girls will perform original ballet numbers to musical arrangements of traditional Yule carols, accompanied by the narration of Roberta Gallagher. Shirley Kot is in charge of the music.

Group numbers to be featured include the Skaters Waltz, Wasail Song and Winter Wonderland. A special trio of Sally Prettyman, Sue Faison and Ruth Sinclair will present a ballet rendition of Away in a Manger. Concluding the program will be a group in formation to the strains of We Wish You a Merry Christmas.

Special lighting effects, a gaily decorated and colorfully lit Christmas tree, and glittering caps worn by the performers have been planned to add to the holiday atmosphere.

Practice sessions have been going on each Wednesday afternoon since mid-September, with additional rehearsals being held as the show date approaches. Miss

Registrar Tells Of Transcripts

Seniors desiring transcripts for graduate school admissions are advised that no transcripts can be ordered between January 16 and February 1, due to the heavy volume of work involved in recording final grades.

Those whose transcripts must meet a February 1 deadline should order them before January 16, in which case Mr. John E. Bevan, University Registrar, promises that they will be mailed on time. Otherwise, they should be held until after Wednesday, February 1.

Tatum Considers Military Service

by Peter Mosher

Today it is taken for granted without much questioning, that the American male will have to serve in the military sometime between the ages of 17 and 35. The rightness or wrongness of this service, or conscription, as it may be, is seldom considered, at least publicly. Yet, I am sure that there are many of us who are personally not so certain that this service is right, fair, or just.

Lyle Tatum has proposed ten reasons for opposing conscription

1. Conscription is a necessary tool for carrying on modern warfare, and has no purpose apart from preparation or actual war.
2. Conscription violates the right and responsibility of the individual to determine his own vocation.
3. Conscription is an important element in the growth and perpetuation of militarism in this country.
4. Conscription is an import-

Dinner Service Extension Tried

Mr. Richard C. Morgan, Director of the University Center, announced that the extended dinner service (5:10 to 6:40 p.m.) effective Monday, November 28, will be maintained experimentally during the next three weeks to determine its effect on reducing the length of the waiting line Monday through Thursday evenings.

"The new 90-minute schedule should provide plenty of time for all borders to enter the cafeteria without undue delay if they spread themselves reasonably over the interval," Morgan stated. Continuing, he advised that the University Center Services Committee feels that this is the simplest and most logical approach to the problem of long lines at dinner.

"Credit for implementation of this plan should be given to Mr. Shumaker who has to make the necessary arrangements within his staff for the earlier opening.

Students who are not planning to return to classes next semester should obtain permanent or temporary withdrawal forms from the Office of the Registrar this week.

which frequently affects their careers, education and marriage. This, of course, causes disruptive factors in the lives of young women, and sometimes in the lives of parents and others.

8. Conscription violates the religious beliefs of many citizens, irrespective of the language or exemptions of the particular law.

9. Conscription is undemocratic because it subjugates all rights and principles of the citizen to the war-making power of the state.

10. By tending to force upon all men a period of similar training and experience, conscription intensifies the trend to conformity of thought and action.

Assuming the above is valid, the question then may be raised, "But what choice do we have?" Until enough people begin to care enough to pressure for amendment to the present draft laws, we who are directly involved have the choice of 1-0 status, enabling us to serve in a non-military capacity.

Fozzbury Divulged As Security Threat

Professor Fozzbury of Drew University was indicted by a Senate Sub-committee on Un-American Activities yesterday, following investigation by the FBI. Fozzbury was charged with conspiracy to overthrow the United States by force after it was learned that in his course on the history of the World Communist Movement, he made the incriminating remark that "Communists are not all bad guys. Some of them show marked human tendencies."

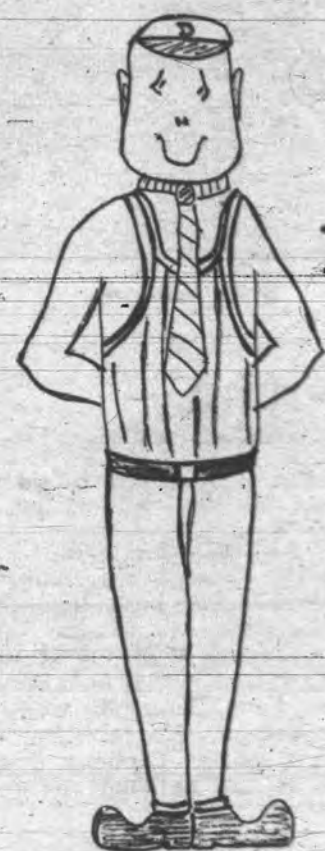

Following this announcement, the administration issued several statements to the press, disavowing any connection with Fozzbury. The Dean apologized to the United States for having harbored this villain, saying, "We must accede to the will of the government in order to protect ourselves from the Communist brain-washes."

The Dean of Women reported she had been suspicious of him ever since "one of my more intelligent girls" reported to her that she had seen a man answering Fozzbury's description "lurking" in the Drew Forest. The school psychiatrist revealed that on the basis of Fozzbury's refusal to count absences in his courses, he was obviously neurotic, manic-depressive, and probably homosexual. It follows that he must be an atheistic Communist.

The student body protested on

the grounds that Fozzbury is "a man who is searching for the truth." However, the Treasurer pointed out that "Truth is Money, and since the bad publicity will probably cost us money then this must be untrue." Nevertheless, the Young Democrats, the Young Republicans, and the Green Key each organized a committee, which committees, in turn, were coordinated by a committee created by the Student Council, whose job it was to form one committee of these three committees.

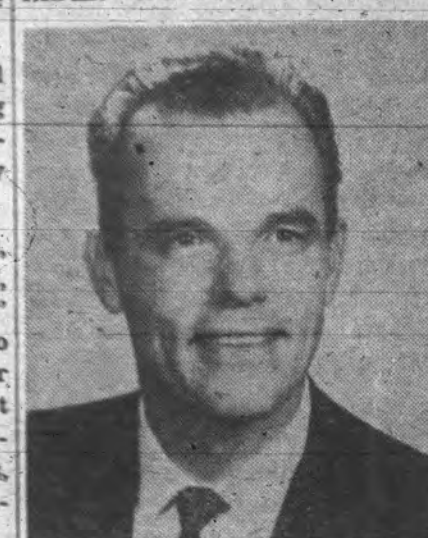

The purpose of this committee is as yet, undecided. It did, however, present a statement to the Dean, denouncing Fozzbury as a violator of human liberty. The Dean complimented the Faculty on doing such a fine job of teaching the students the real meaning of truth.

Pres. Oxnam Holds Informal Interview

"I heard much about Drew when I became Chancellor Tolley's assistant at Syracuse University," said Dr. Robert F. Oxnam, president-elect of the University, in an informal interview with Henry Oakes, CIRCUIT RIDER Editor-in-Chief, and Eleanor Selfridge, ACORN Editor-in-Chief. The meeting took place last Wednesday in New York.

Oceanography Topic Of Next Convocation

Dr. Charles Drake, oceanographer, will be guest speaker at the Monday December 12 Convocation in Bowne Lecture Hall at 11:00 A.M.

Dr. Drake was a member of the scientific personnel aboard the research vessel Vema, which returned to New York September 23, 1960, after two years of extensive research in both Arctic and Antarctic regions. The project which involved 30,000 scientists from sixty-six nations.

Supplementing his talk with slides and films, Dr. Drake hopes to cover the entire cruise in his lecture. During the eighteen months aboard the Vema, senior personnel were rotated at two to three month intervals. Each selected the area of greatest interest to himself for concentrated study and covered other areas less extensively. For example, a certain leg of the journey was concerned with studies of the water, while another dealt with seismic refraction. By discussing the entire cruise, Dr. Drake can cover most of the major fields of

research and also apply them to particular areas of the world.

Dr. Drake is being sent to us through the courtesy of Dr. Maurice Ewing, who is the director of the Columbia Lamont Geological Observatory.

Forum Hears Talk By Will Herberg

The Forum Society held its fourth meeting of the year on Wednesday, November 30th, at 8:30 in the Multi-purpose Room of the University Center. The meeting was opened by Juliet Ballard, Forum Society secretary, who introduced the speaker of the evening, Dr. Will Herberg.

Dr. Herberg is Professor of Judaic Studies and Social Philosophy in the Theological School and has written several books on religion and philosophy. His most well-known is *Protestant, Catholic, Jew*. His lecture, entitled "What Has Become of Socialism in the Present Day World," dealt with the decline of socialism in the world today.

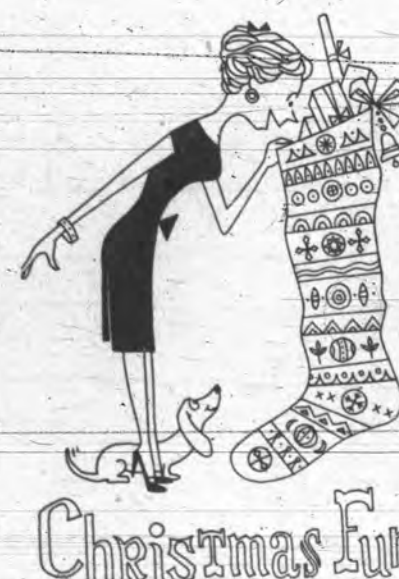

He opened his lecture by saying that socialism no longer has any true form of organization here in the United States. He stated that the initial goals socialism has stood for in the past have now changed completely. Present goals include ultimate goals and basic minimum goals. Every one of the basic minimum goals has now been realized in the United States. He emphasized the fact that the rise of communism in Russia has significantly lessened the effects of socialism in other parts of the world. Following the lecture, Dr. Herberg answered questions from the members of the audience.

According to Juliet Ballard, the club secretary, this program was one of the most successful all year with an attendance of over 100. The next meeting will be held on January 4th and the topic will be "The Unconscious Elements in Artistic Creativity" by Dr. Bergum of New York City.

excuse signed by the university nurse or by the Office of the Dean of the school in which the student is registered.

Under this program, it will be the responsibility of the student to learn the prescribed material in whatever manner he so chooses. In accepting this, the student will likewise recognize the fact that the professor is under no obligation to render outside aid for an un-excused absence. In other words, the student makes his own bed, but he must be prepared to lay in it.

Let us hope that the Administration and the faculty will wake up to the facts of academic life. May the curse of the cut be given up for the archaic evil it is in our academic lives! Amen!

PAUL COMISKEY
Sincerely,

Choir Lists Xmas Concert

The Drew College Choir will present its annual Christmas Concert for the student body on Sunday, December 11, at 8:00 p.m. in Bowne Lecture Hall under the direction of Mr. Lester Berenbroick.

The program will include nineteen selections from such countries as Wales, Ukraine, Germany, Spain, Tyrol, Austria, Mexico, Denmark, and the United States. Some of the numbers will be traditional, such as *Silent Night* and *Away in a Manger*, while others will be of a more unusual variety.

One of the selections to be given is a new version of an old English carol, rewritten by an American composer. Others are the regional folk songs from such representative countries as Denmark and Norway. Most of the carols have long historical backgrounds, but some are quite new. *The Little Drummer Boy* and *Mexican Christmas Procession* demonstrate the program's varied appeal.

On December 2, the program was presented to the American Association of University Women in Craig Chapel.

Council Delves Into Nuclear Pros - Cons

A newcomer to the Drew list of organizations, committees, and related agencies appeared on the scene last week with the first meeting of the Council on Nuclear Warfare on November 28. Showing promise of a planned series of meetings to follow, the group is a loosely knit association whose intention is the informed discussion of the implications of warfare in a nuclear era.

Under the leadership of David Faison, the group has no actual

Columns Plans Social Evening

by George Chiorazzo

Columns announces Coffee 'n' Confusion: a Columns social evening. Whether you're Beat, blue-blooded, or bourgeois you are invited to partake of the American nectar—coffee—(our secret ingredient is talk—evasive talk, that is to evade the coffee not Columns' overtures) at 7:30 (choose your own clock) this Wednesday evening.

A carnival of pretentious informality will be in full array at the Private Dining room in the great University Center. Editors will editorialize, readers will read, actors will act, and critics will criticize. Under all the gaiety a phalanx of Columnists will be searching for fellow-travelers to join in their subversive cause—writing violent or non-violent, poetry, short stories, essays, sketches or other forms, whether dealing with the arts, sciences, or nonsense.

The curious as well as the creative are invited to join in drinking a libation to Caxton. We urge all to bring material with them, whether it be on toilet paper, napkin, or old love letters (for that matter bring the 'bid love letters too.) Look for subliminal posters!

officers as it does not feel the need for formal structure. Faculty sponsorship appears in the person of Prof. James Miller and Chaplain James Paine.

At the original meeting, information was elicited concerning the present state of affairs of affairs in such projects as the proposed multi-megaton devices, advances in biological and bacteriological weapons, the increasing futility of civil defense measures in light of possible developments in the field of so-called "neutron bombs," and the prospects for disarmament and peaceful coexistence.

It is not the intention of the council to plead any particular approach to the problems posed by the nuclear arms race. Rather, it will encourage an open-ended discussion of major issues with an eye toward creative and imaginative alternatives to fulfill.

Peter Mosher called to the council's attention the interest of a group of local figures in the formation of a campus affiliate of the Student Peace Union. Faison stressed that the council would not associate itself with any organization, continuing to encourage the participation of pacifists and non-pacifists of every imaginable persuasion.

ANNOUNCING:

**AIR FORCE
OFFICER
TRAINING
SCHOOL
FOR COLLEGE
GRADUATES**

Three-month course leads to a commission as a Second Lieutenant. If you are graduating this June, you may be eligible for admission to the new Air Force Officer Training School. Successful completion of the three-month course wins you a commission, and a head-start on a bright, rewarding future in the Aerospace Age.

The School is open to men and women college graduates with certain technological and administrative skills. If you are selected for the School, you will receive Staff Sergeant pay while a trainee. Graduate officers may later apply for advanced training and graduate study at government expense. Male officers may also apply for flight training as pilots or navigators.

For the career-minded young officer, the Air Force way of life can be stimulating, exciting and full of meaning. He will be serving himself, his family and his nation. This is the Aerospace Age. It is a time when a career in Air Force blue has so much to offer the young man of woman who qualifies.

The Air Force is seeking only a select group of college graduates for admission into Officer Training School. However, we'd be happy to send detailed information to any senior who is interested. Just write: Officer Training School Information, Dept. 8C012, Box 7608, Washington 4, D.C.

There's a place for tomorrow's leaders on the

Drew Loses 71-65 Hislop Scores 18

Drew University lost to Pace College, 71-65, on Friday night. Speed and rebounding led the Pace quintet to an opening victory. Charlie Hislop scored 18 points for Drew.

Plagued by a lack of rebounding, bad passing, and streaks of sloppy play, the Ranger five dropped its second contest in as many games this season.

Drew sprang to an early lead, as Don Anderson sparked on jump shots, but at 16:08 of the first half, Drew lost the lead not to regain it until the second half. Rangers Dick Chaplin and Charlie Hislop helped under the defensive boards, however, Drew was continually being out-rebounded by a team that was two inches shorter. The Drew offensive suffered when Chaplin sprained an ankle on a defensive play. The score at the half: Pace 36, Drew 30.

The second half opened with the loss of the tap by Drew, and two points by Pace. Then Don Anderson and Charlie Hislop connected. Hislop tied the score 40-40 on a hook shot, and Anderson hit on a long jumper to make it 42 then again to regain the lead for the last time 44-43. Here

Pace applied an all court press and Drew lost the ball repeatedly making the score 48-44. In the final minutes, the performance of Al Swann was a bright light. Swann hit for nine points, and showed fine offensive ball handling and defensive play.

The team hit well from the floor at 35%, and 19 for 23 at the foul line.

Rangers Fail 68-55

by Doug Davis

The Rangers threw a scare into powerful Haverford Saturday afternoon when they forced the Fords to stage a last ditch rally in order to survive a strong Drew bid in the closing minutes, to win 68-55. Bob Spicer and Dick Stafford paced the Ranger attack with 12 points apiece, while Charlie Hislop was a terror off the boards, pulling down 20 rebounds.

Despite the loss, the picture was brightened for the Rangers by some of their finest basketball of the campaign featuring sharp shooting and a devastating full court press. The Fords jumped ahead right at the start and never trailed, but the Rangers stayed close behind throughout the first half, never permitting the lead to grow more than 6 points, several times tying the score. Drew worked the ball smoothly, taking only the good shots and it paid off in the scoring column. Spicer and Don Anderson swished in 3 field goals apiece during this stretch as Drew trailed 33-20 at halftime.

The Fords switched to a zone defense in the second period, which seemed to bother the Rangers as they allowed the home team to spurt to a 58-37 advantage. Then Stafford got hot with jump shots and Drew went into a full court press harrying their opponents and closing to within 7 points, 55-62, before Haverford added 3 quick baskets to clinch the victory.

J.V.'s Win 2nd Game

by Dick Sloat

Led by high scoring Al Cummings, the Drew Jayvee cagers romped to a 67-55 victory over the Pace Juniors Friday Night. Their second in as many outings.

Cummings, who scored 20 points and played rough, aggressive ball for the entire game, was ably assisted by center Mark Yerbough, who tallied 16 points for the Little Green, and rebounded well throughout the game.

The Junior Rangers sprang to a 20-7 margin early in the first half before Coach Williams decided to rest his first unit. The second unit relaxed a bit too much and, at halftime Drew was at the short end of a 28-25 score.

After the half, the teams played even ball for about 8 minutes, but then a series of six fast breaks featuring Al Cummings on the scoring end provided a ten point margin of victory for the Drew Juniors.

The Jayvee's next appearance will be this Friday night when they encounter Rutgers South Jersey in the preliminary game.

J.V.'s Beat Newark 55-52 Cummings, Williams Star

By LARRY DAY

Last Monday night the Drew J.V.'s opened their season on a victorious note by beating the J.V.'s from Newark State, 55-52. Al Cummings and Jerry Williams starred in the win with 22 points and 11 points respectively.

The Newark Staters got the edge on the Little Rangers in the first quarter, but the J.V.'s bounced back in the second quarter on the playmaking of Neil Kaplan, the shooting of Al and Jerry, and the rebounding of big Mark Yerbough. Mark ended the game with a total of nineteen rebounds.

The end of the first half saw the J.V.'s down 28-33, but by then they had taken command of the ball game. The second half was all Drew as the J.V.'s outscored the Newark team and kept the ball moving around very nicely. The second half score showed Drew 27, Newark 19.

Coach John Williams kept his promise of using his large team in shifts to run the opposition into the ground by playing eight of his twelve men. Mark Yerbough started at center and was relieved during the game by Pete Petty and Dough Dietrich. Bill Geer also saw action, alternating with starter Jerry McDevit at forward. The J.V.'s played a very fine game, highlighted by nice playmaking, plenty of moving the ball around, and scrappy play.

Team One 3-0; 3, 4, 5 Tied For Second

Coach Harry Simester's intramural league is now heading into the crucial point of the season now that the Thanksgiving vacation is over. Hard aggressive play combined with fine shooting ability has characterized the league as of late. Team I showing the combined scoring punch of Frank Graves and Andy Woodcombe has continued undefeated in early play. Hal Pederson heading for league scoring honors has hit for 20 or more consistently.

On November 28, team 2 out-classed team 5 in what was never a close game. Pederson hit for 23 points, as the final score was 49-44. Frank Graves led his team on the undefeated path with 16 points in a 55-40 victory over team 6. Davis hit for 14 in a losing cause.

As the teams went into December, Team 1 romped 46-34 over team 3. Hal Pederson scored 21 points in a losing cause as team 2 lost 49-36 to team 4.

Charlie Hislop goes for rebound against Newark State's Salley in Monday night's action.

Rangers Lose Squeezer To Newark

by Doug Davis

Newark State rallied in the closing moments to upset the Rangers 46-43 in their opening game Monday night at Baldwin gymnasium. The squires fought off a late Drew bid and were lucky to escape with a 3 point victory. Captain Dale Sorensen led the Ranger scorers with 9 points, 8 of them coming during the Green and Gold come-from-behind surge in the second half. Dave Poultney chipped in with fine work off the boards, pulling down 20 rebounds to aid the Ranger cause.

The teams battled on even terms in the early going with the Rangers led by Dick Chaplin, who wound up second high man for them with 8, when Newark State caught fire behind the point pumping of John Wilkes and pulled away to a 27-17 lead at halftime.

The Rangers came out fired-up to start the second half and immediately began to whittle the Squire's lead but couldn't close the gap appreciably until late in the period, they got 3 quick baskets from Sorensen. Charlie Hislop added a foul shot and after Dave Poultney sunk his two from the free throw line, the score was tied at 38 all, but the Squires came back and hung on desperately to win.

Congratulations to the large crowd of cheering Drew fans who attended last Monday night's basketball opener against Newark State. It was very pleasing to see and hear the stands sporting a number of fans for both the J.V. and Varsity games. Keep up the good turn out.

On Friday night, Dec. 9, the Varsity and J.V. will travel to Rutgers South Jersey for two tough games, but the Rangers will be seeking wins.

On Saturday the tenth the Varsity plays host to a highly rated team from Rensselaer University. The game should be hard fought and very entertaining, see you there.

Coach Tappin comments on the value of having a J.V. team. Says he, "They will not only gain experience as J.V.'s, but also the confidence needed in a winning team by their having a winning season." Proof of the confidence angle was had after last Monday's win.
