PLANS PROBLED WITHOUT SENATE

'73 names Quirk, Mead, Troll

Story p. 3

Linda Haworth as Lysistrata looms over fellow Curtain Line Players in a recent rehearsal for the opening of "Lysistrata" tonight. The Aristophanes play will be offered six times, continuing Saturday and then Wednesday thru Saturday next week. Tirckets for all performances are free and available at the information desk in advance. Director Tom Wright, in his first effort with the Players, promises "a bawdy anti-war comedy." (Story p.10).

Senate: no group endorsement

a march and rally; and the march on Washington.

The student senate, in a special moratorium session Tuesday. March on Washington as an def- message through to Nixon to groups last Friday to determine passed a resolution supporting inite part of its program for any and all non-violent expres- November 13-15. One member sions of personal conviction in relation to the war," but specia activities here for those who fically declined to endorse "any particular point of view or any . march." particular group."

Tentative plans for the moratorium actions call for campus activity on Thursday, November 13, community action on Friday November 14, and a splitting of activity on November 15, with two groups planning to join the nationwide march on Washington and one group planning campus activities for those who cannot go to D.C.

The three groups which plan active participation include the Vietnam Moratorium Committee, direction', partially due to an which is the extension of the group undefined electorate. which coordinated October active ities, the New Moratorium Committee, which broke from the VMC because it felt stronger action was needed, and the Ad Hoc Committee to End The War In Vietnam, which has joined with

Joe Mayher and Richard Saslaw, who were chairmen of the Moratorium Committee in October, resigned their positions and that group (the VMC) elected Richard Shepard as the leader for the November activities.

According to Shepard and John that the NMC is "absolutely nonthem allied, are going ahead with Winslow, who has also been ac- violent." plans for the November Vietnam tive with the group, they hope Saslaw, who joined the NMC marily concerning whether the War moratorium November 13, 14 to bring district Congressman while retaining membership in and 15. included are discussions, Peter Frelinghuysen (Rep.) to speak at Drew November 15.

The student senate engaged in two hours of debate Tuesday, prisenate should endorse any spe-

Vice-President George DeGirolamo, who had organized a meetwere a success if we got the ing of the various moratorium their plans and report to the senate on them, put on the senate

He submitted for that commitconsidered for Friday, Novem- tee Mayher, Saslaw, Glenn Phillips, Shepard, seminarians Peter Alexander and Bill Balderson, close their shops for one hour in Tom Quirk, Jahnke, and Isaza,

The resolution was never vot-There was consideration of pice ed on, although it was debated, largely in conjunction with the resolution which called for endorsement of personal actions, not group action or groups.

The latter resolution, which passed 15-0-5, was submitted by Cathy Schuyler, and co-signed by Dave Bell, Dave Little, Mike Jacques, and Ralph Burd-

Its complete text read: "Resolve that the student senate endorses any and all non-violent expressions of personal conviction in relation to the war in Vietnam on the 13, 14, and 15th of November 1969, It is understood that this endorsement is not a sanction of any particular point of view nor is it a sanction and reaffirmation by the student senate of its faith in the right of ALL members of the University Community to peaceful freedom of expression."

There was some debate over whether the senate should make any statement at all. Cecilio Barnett, Vice-President DeGirolamo (who had yielded the chair so that he might take part in debate), and foel DiMatteo asserted that they felt the senate was being inconsistent.

"If we aren't going to endorse a War Protest committee, Idon't at all," stated DeGirolamo, "There is no point to another watered_down resolution."

Dave Little replied that "there has been no reason given why the

serate should endorse any specific group or action, But I think it's entirely proper that we endorse the principle of freedom of expression."

DeGirolamo questioned whether the resolution as it was passed did not endorse any non-violent action at all. "Just because it's non - violent doesn't mean it's good," he contended. He added that he felt the resolution was poorly constructed.

Dave Bell noted that he felt it was proper to endorse non-violent activities for the moratorium. "but to leave it entirely up to individuals what they feel they should do."

Tom Quirk, introducing debate on the War Protest Committee resolution suggested that the senate could have some control over moratorium activities if they made it a senate committee.

"Whatever happens, it will reflect on Drew." he charged. "and think the senate should have some say over that "

Dave Little replied that he agreed, but added "that is exactly why the senate should not become involved. We cannot control everything that happens, and we should not try to put the uncontrollable under senate ausnices !

Bob Burns noted during the debate that "I don't think the want senate sponsorship, A war protest committee doesn't need the senate. And it doesn't need the faculty and administration.

The senate also defeated, 9-13asked faculty members not to give tests or absence penalties for November 13 and 14.

Speaking against it, Bell commented, "I think the faculty should be allowed to exercise their individual consciences as

A similar resolution for the October moratorium, passed 6-2-2 by the senate, was vetoed by President Smartt.

Negative signs

A sometimes-unnoticed problem which has been hanging over student government this year is appointments. President Bob Smartt has found, as did Presidents Gates, McMullen, Runyon, and others before them, that there are considerably more committee openings than there are qualified people to fill them.

This helps explain presumably, why seats on ECAC and the Judicial Board have been left vacant for two months. It does not fully explain however, the way in which they were filled. As it happened people nominated Tuesday were competent. But particularly regarding the Judicial Board appointments, they seemed to have been thrown out almost off-handedly. It is not required that the President consult with the Judicial Board, or the Chairman, before making appointments. Nor is it required that applications and interviews be utilized. But the Board is important enough that it should justify the extra time necessary for at least minimal concession to these procedures.

Traditionally, if Drew is to have much progress during an academic year, definite beginnings must appear by the early fall. When Mr. Smartt takes two months to make what eventually seem to be getit-over-with appointments (again, not reflecting on the appointees themselves), it is not an encouraging indication. *

Proper separation

As was noted by David Little and Bob Burns respectively, at Tuesday's senate meeting, there was no logical reason for the senate and the moratorium to join forces. Mr. Little noted that senators were not elected to attempt to represent their constituents on national political issues, and Mr. Burns noted that the moratorium could get along quite well--better, in fact--without having any attachment or obligation to the student senate. The senate seemed to recognize this as well, and, surprisingly, it not only managed to keep itself out of the moratorium, but also to affirm, in a fashion, its correct and more limited role as the student senate of the college of liberal arts, Drew University.

It is hard to imagine why any moratorium groups would really want to be in any way responsible to the senate, which a senate war protest committee would have been. And on the other side, as Mr. Little pointed out, ultimately the senate would not have controlled what went on anyhow, so there was little rationale for sanctioning a committee to pretend that it could.

The moratorium groups are ideologically partisan political groups just as the Young Republicans, Ad Hoc Committee to End the War, or. Youth for McCarthy are and were. They are all groups of individuals with specific interests in the purposes of the specific group, and their existence should not be tied to an ostensibly more widely representative body like the senate.

It was even unfortunate that the senate passed the resolution it did. Seemingly conceived as an alternative, a compromise between saying nothing and creating a war protest committee, it became unnecessary when it was evident that the war protest committee would not be approved.

Ah, Nixon ...

Last Tuesday the Student Senate defeated a resolution recommending to the administration and faculty that no punitive actions be taken on the November moratorium days, the 13th and 14th, i.e. no cuts be counted and no tests be given. It seems that the Senate did not want to commit itself to a stand, but by defeating the motion it did so; for the above, a most interesting and or ten minutes the big one, (whose rells-will repent and relent and its meeting today, the faculty will now have the sense of this particular "representative" of the student body.

But the larger question now remains: does it matter what the faculty decides, or, does it even matter that there is a November moratorium? The president of the U.S. seemed to answer the second query in his enlightening speech Monday night. The networks dealt prime time to this man, who promptly dealt prime crap to the public. After that momentous speech, the question seems to be not when will the U.S. get out of Vietnam, but will the U.S. get out of Vietnam? After all, Nixon claims he has a time table, butcan't reveal it; after all, according to Nixon, the U.S. has not been humiliated by the North Vietnamese in the 15 years time; after all, if what Nixon terms 'Vietcong aggression" is stepped up, then those troops withdrawn will be said, in a barely audible chorus, promptly sent right back into the death pit; after all, U.S. foreign "Hey you, come here!" "Shakpolicy, not worth the tissue paper it probably is scribed on, allows ing my head once or twice I defor "one major war and one bush war".

So, then, what will be the worth of the moratorium and March on off and return to Kant when I heard Washington? Will it really affect Nixon and his cronies, or will the this time much clearer and more big boss simply write off the demonstrations as more of that "effete demanding, "What's the matter, snob" stuff? Many people are beginning to wonder. Believe it or you deaf-come here! " By now not, this war has become Nixon's war and he must end it. And the there were ten or twelve souirdemonstrations must continue; the marches must move on; the pro- rels, numerous chipmunks and tests must intensify in scope and in number. This country can and twenty or thirty birds all groupmust peacefully move toward peace or some day in the near future ed tightly together and looking it and the rest of the world will end in one huge mushroom; and, just very adament if not very evil. I think United States, we had a hell of a role in causing it-we dawdled approached the group cautiously around conducting wars while we should have been instituting peace; and a big grey stud, obviously we sent ammo and weapons to countries for the so-called aid, when their spokesman, stepped forth we should have sent more medical and living supplies.

with this paper and began to read. And the war goes on. And the "intellectual eunuchs" protest. And "Whereas, the noise etc."--(see Nixon runs a possibly verge-of-dying country. And the Student Senate above)." After reading it he hopargues over politics. But the war goes on; ending it now will save ped? scurried? up to me and American face-and maybe the world.

Cherry tree to arch above B.C. plaza

variety of cherry tree, the gift of Adjunct Professor of Botany Benjamin C. Blackburn is to be planted next week in the newly paved courtyard of Brothers Hall. The planting of the tree, a Yoshino Cherry, is tentatively scheduled for Tuesday.

In recent years the courtyard has been "pummeled to pieces," in the words of Dr. Blackburn. His original master plan for the Brothers Hall-Hall of Sciences complex called for repaying the area in flagstone, but the prohibitively high cost of that project , in the payement was designed to led Dr. Blackburn to choose the alternative of light grey maca-

Discussing his plan, Dr. Blackburn stated that it was important that the surface of the courtyard be more compact than the mud and crumbling cross walks pre- from 40 to 50 feet. It blossoms vailing there of late. "Yet we early in May with a soft pink bud

and relentless. The 6 x 8 opening afford the opportunity to use a suitable tree to make a light pattern of shade that will be especially valuable in hot weather."

At maturity, according to Dr. Blackburn, the high-branching Yoshino will reach a height of full flower. The new tree is complemented by two other Japanese cherry trees of the Kanzan variety already planted in the grass strip fronting the courtyard. The Kanzan blooms with a pink double

I am not accustomed to making pleas for causes. Maybe the situation never warranted it. But Tuesday, as I walked out of Room 107 of the U.C. after what seemed a never-ending Senate meeting with the firm belief that we are now the laughing stock of the whole campus, I felt that if we could have done away with the vicious tone of voice on the part of the Senators and other members of the Student Government, we would have concluded the Senate meeting just tired, not frustrated, annoyed, disillusioned and other adjectives that would aptly describe the varied emotions of the Senators.

Open Letter To The Student Senate:

of Liberal Arts of Drew University, Madison, New Jersey.

Conciliation plea

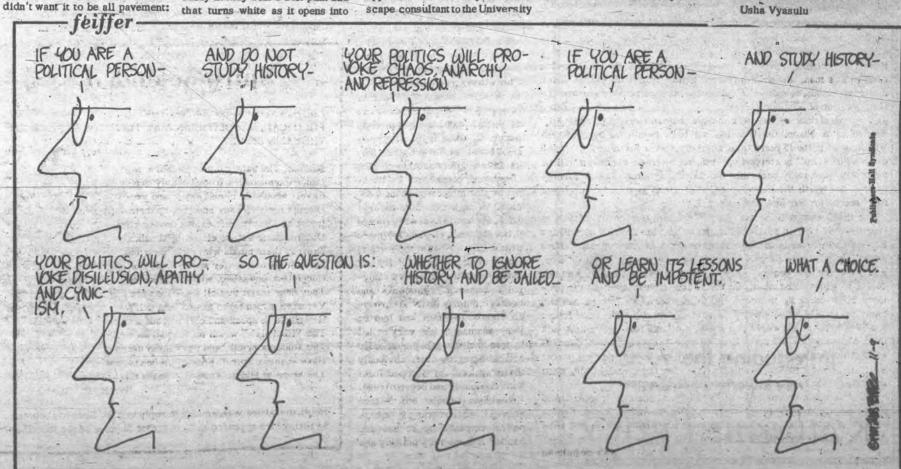

Brad Minor suggested in an article printed in the Acorn a week ago that perhaps the worst kind of assassination is a "character assassination". Maybe we should leave national politics to the big politicians and return to our secluded ivory tower in Madison, N.J. Character assassinations of President Nixon and Mr. Agnew, we can all partake in. seeing how the two gentlemen are far away from home. But when it comes down to something like the Student Senate, close to us because we are obligated to be members of it, we can cause more damage than good to our simple goals and aims:

Firstly, it is quite unnecessary to include unpoints of view, this can be taken as a reflection the language difficulty the spokesman is having. Perhaps here a dictionary or a crash course in English could help.

Secondly, there is no urgency on the part of some Senators to include side comments meant to be personal insults to the Chair. Washing dirty linen in public, delaying the procedure of the Senate, we can do without. Little Brook might help clear the air temporarily, but as long as deep differences exist, nothing can be a permanent solution.

I know this sounds like a sermon; it is not meant to be. It sounds like a vicious attack, and it is not meant to be that. On the other hand, I plead my fellow Senators and members of the Student Government to please do something about our dilemna or we'll shortly be assassinating ourselves out of

Usha Vyasulu

Thought you might like to hear You could concentrate on the work a bit about Jethro Tull, Sure, its of any of the individual instrumy opinion and I am perhaps abit ments in a given song and hear Tull is one dynamite group, So but remember -- was I giving you hype over John Mayall?

asked me who Jethro Tull is or what he plays. And how come we're having Jethro Tull at Drew? Well, the answer to the last question is because we are fortunate enough to have Jetheo Tull at Drew, and because we try to put on the very best shows possible. People who find fault with the concert for the simple reason that they have never heard of the group don't win my sympathy. I've never heard them on WABC either. But then again, I've discovered better stations to listen to. I don't want to put anybody down for not knowing the Tull's music. But this is a definite case for the old "don't knock it if you haven't tried it" routine.

It's like this. Jethro Tull is a. four - man group from England, They feature Ian Anderson, an extraordinary talent and one of the most exciting performers in the business. He plays flute and sings some very fine songs which he composes himself. His friends include a bass player, a guitar- is precisely what you are supist, and a drummer. They are posed to do when playing music. exceptionally good musicians, producing a sound which blends the best elements of rock, jazz, and blues into a complex yet smoothly flowing wave of music. (2) the songs themselves, Barr-

prejudiced, but concert at Drew a complete performance, but or no concert at Drew, Jethro when the four begin their intermovements and competitions, the take my comments as you will, performance becomes some of the most interesting stuff around. Yet with all its complexity, it never loses the listener; you A lot of Drew students have can get into it with no trouble at all. Good music is like that, no matter what type of music it may be. And Jethro Tull definitely plays good music.

They've had two albums. The first is called "This Was" and features a bit more of the blues portion of Tull than does the second, which is called "stand up." The big numbers in "This Was' are "My Sunday Feeling." which is basically jazz; "Cat's Souirrel," which is traditional blues thing that they do better than even Cream did; and "Dharma For One," which allows drummer Clive Bunker to demonstrate just how good a drummer he is, something he does throughout the album anyway.

lan Anderson plays some fine flute on the first album, and plays even better on the second. I really dig him when he doesn't know whether to blow into the flute or moan into it. He gets a bit carried way at times, which

The two factors which make the new album better than the old are (1) the new lead guitarist, one Martin Lancelot Barre, and

er is fast and original, and never takes over more than he should. Leader Anderson has said that "the song is the important factor not the solos in it. If you're gonna play solos, make them relate to the song and not be an excuse for saying 'I'm a virtuoso," The group follows this philosophy completely, with people working for the sake of the song and not for their own sak-

The songs are really nice songs. Anderson writes interesting music and some equally interesting lyrics. Even quieter and more gentle when heard amidst the hard and heavy sound. Songs like "A New Day Yesterday," "Look Into the Sun," and "We Used to Know" for example. They are strong enough for alnost any stylist to sing and not . lose any of their effect. When played by Anderson, Barre, Bunker, and bassist Glenn Cornick, they are truly unique and, like I said before, dynamite, This second album is one which Jethro Tull one of the country's super groups (they have already attained that status in England, where they dislodged the Stones from 2nd place behind the Beatles last year in the Melody Maker

Aren't we fortunate to have

Roy Innis to speak on the 'Community'

The second speaker in the Academic Forum series will be Roy Innis, National Director of CORE. Mr. Innis will speak in the gym at 4 p.m. Sunday, November 16.

Mr. Innis first became interested in the Congress of Racial Equality in late 1962. About the time of the March on Washington in 1963, Mr. Innis endorsed the movement toward black leadership in the New York CORE chap-

During this time the New York-Harlem chapter began to emphasize the concerns of the people of Harlem and decrease the emphasis on sit-ins and picketing for open housing.

In 1964, Mr. Innis served as educational chairman of Harlem CORE and moved toward the securing of higher quality education and community control of New York City schools. In October 1965, he was elected chairman of the Harlem CORE and served in this position until January

During this time, Innis spearheaded the national CORE effort in calling for black power and black self - determination. The stated that the order for the FM Harlem chapter called for a transmitter system for the sechange in policy from the past curity vehicles has been placed non-violent philosophy to the new and that installation should be self-defense concept. It can be said that Mr. Innis is

chiefly responsible for the shift merly worked at Seton Hall Unifrom the integrationist goals of versity and, according to Mr. CORE to a movement for control Pepin, "is very happy, to come to of the institution in areas in which a nice, quiet campus.

One Good Friend

Harold Gordon

ident Nixon has made what I consider to be a wise and courageous decision. Wise, because he has laid a foundation for peace while keeping his options open, because he has been completely honest with the American people, and because he has clearly demonstrated to both America and the world that he has made every possible diplomatic effort to negotiate a settlement and the enemy has still refused to reciprocate. Courageous, because he has rejected the path which was easy for the one which was right. The President, it may be said, has made the same type of decision which one of his predecessors was forced to make over a century ago.

It is fashionable in the conventional wisdom of those who oppose the war in Vietnam to compare the struggle between North and South to our own Civil War, Since no one intervened in our own Civil War, they argue, we should not intervene in anyone else's. Needless to say, Ido not regard that as a valid argument, However, the people on the left do not have a monopoly on historical parallels; I can think of one

During the Civil War, President Lincoln faced strong opposition from a large and vocal minority which became known as the "Copperheads," Like the opponents of the war today, they held widely different political views, running the gamut from outright Confederate sympathizers to those who felt that the best way to preserve the Union was to stop the fighting and negotiate a settlement. And, like the opponents of the war today, they were united solely by their opposition to the war. Their rhetoric has a familiar ring: "immoral war," "we can't win," "no right to intervene militarily," etc, Likewise their methods: inciting riots, resisting the draft, encouraging desertions, etc.

The war was never popular in the North, and such was the strength of the opposition to it that the Republicans lost heavily in the Congressional elections of 1862, and for a time it seemed impossible that President Lincoln could be re-elected in 1864. Thus Lincoln was faced with the choice between ending the war because it was politically expedient or continuing because he believed it was right. He is reported to have said about that time that!"It may be that when the time comes for me to lay down the reins of power I shall not have a

single supporter left but I'll still have one good friend inside of me." He persevered and history has justified him. Who today remembers the vicious attacks that were made on him? What has been the verdict of history on his critics? What indeed will be the verdict of history on the critics of our own day? I sincerely wonder.

Many of the Copperheads, like many of the opponents of the war today were sincerely motivated by a humanitarian idealism; some were in fact leading national figures. But like their modern counterparts they seemed somehow to lack confidence in America and faith in her ideals.

While it is true that both the supporters and the critics of our policy in Vietnam have altered their arguments over the past few years, one change has particularly disturbed me. While the opponents of our policy have consistently demanded that we withdraw, they at one time also demanded that free elections be held in South Vietnam. They have since dropped that demand and the President of the United States has taken it up and made it his one nonnegotiable point. The critics of our policy now call only for withdrawal and the sooner the better, regardless of whether or not we can assure that free elections will be held.

I am deeply distressed at the idea that there is a substantial portion of our population that feels that we do not have an obligation to the people of South Vietnam, that assuring the self-determination of a free people is not a legitimate reason for American military support, and that the reign of terror which would surely follow the hasty withdrawal of American troops should not concern us if our own security is not immediately at stake. This is a retrograde step in our history; it is an isolationism of the same nature as that which caused us to spurn a vital role in preserving the peace of the world and nearly cost us the final victory in the war which our negligence helped to bring about.

I do not wish to be unfair; I realize that everyone concerned has his own "one good friend" to live with as I have mine. But I feel that in taking the courageous stand that he did the President deserves the respect if not the support of all Americans and as I write this as the returns come in on election night I feel that he will be getting a large mea-

tudent Senate meeting -- UC 107-4:15 p.m. Open to all.

If that was a Peace rally ... Poor organization and a small group of immature agitators runed what could have been a very nice rally against the war. For a start, no one really knew where we were supposed to meet for the march to the Governor Morris. About 40 students and a few older people met at the Morristown train station and marched to the hotel. As we were marching, we were passed by busses filled ferent plans.

When we reached the hotel, the first thing we saw was a group of riot police, ominous, all dressed in black helmets, black jackets, black boots, and basic black accessories (club, riot gun, and Mace). They also appeared to be

in a black mood.

The group that I was with, mostly Drew students, went to the wrong door. The people at that door were county officials, all with personal invitations, and when they found out who we were, there were a few names called, and a few pushing matches,

Pinboy Wizard

The clatter of ten-pins hitting the floor echoed throughout the neardeserted bowling alley. Vinnie DeMarco held a sweaty palm over the AMF Air-Dri and waited for his specially made Brunswick ball to be returned from the pit. Vinnie wiped the perspiration from his brow with the sleeve of his red and gold bowling shirt, "Amboy Trucking" read the back of his shirt. Vinnie had bowled (and also worked) with "Lysistrata' was written in the Amboy Trucking for almost nineteen years, He was the anchor man of fifth century, B.C., but the Drew the team since 1953 when he led them to the Central Jersey Industrial production freely mixes modern League Championship. But that was long ago, And Vinnie missed the and ancient motifs in a style which old days, and began missing strikes and splits and spares, also, it was two AM when the manager of the alley forced the sliding bowler out of

of a series of ramps and plat- + "We don't stay open all night, ya bum!" yelled the alley manager.

"Get outta here, I gotta close up." Vinnie, startled by the screaming fat man before him, dropped his Brunswick on the floor. He quickly gathered itup, kissed it religious. Shechtman, instructor in, mu- ly, and left the alley. "Dammit!" Vinnie cursed softly, Enraged, he climbed into his Diamond-T semi which he parked in the back of the lot, and roared down Route 22, searching Searching for a place where he could try to regain his form before the "Amboy Trucking vs. Andresen's Auto Body" match on Thursday day after tomorrow. Searching for salvation, Searching for the ALL-NIGHT BOWLING ALLEY, A man of desperation was Vinnie DeMarco.

The moon gleamed off the "West Coast" mirrors which flanked the speeding tractor. DeMarco knew if there was an "all-night alley" it would be on 22. At about three o'clock he had travelled twenty-five miles, not finding an alley. Various thoughts ranthrough his mind as he tried to keep himself awake. He thought of his new rosin bag and lucky bowling shoes. He thought of the Nelson bowling bag his mother gave him for Christmas last year and the worn thumb guard his father had lived in. He thought of his wife and how lucky he was that she could keep a decent scorecard.

Vinnie continued his trek, his quest for "bowling resurrection," It was four-thirty in the morning as he started to enter Pennsylvania. By now, Vinnie had an inkling that he would not find the "all-night bowling alley." Another utopia of a pinspotter's mind, thought the philosophical DeMarco.

Vinnie decided to return home and he pulled his rig into a small street in Berwick, Pa. The street was a dead end and at the end of the street was a soot-covered brick building. The walls had been scarred by fire many years before, It was the old Berwick Lanes, A tear rolled down Vinnie's cheek as he viewed the terrible sight. It reminded him of the remains of the church he went to as a boy, it too gutted by

fire. The same feeling.

Vinnie wanted to back up the truck and leave the scene before he cried anymore. As he reached for the shift knob (which was in the form of a miniature chrome-plated bowling ball), a flash of light caught his attention. Something was coming out of the blackened sky, the light from it nearly blinding the weeping truckdriver. Was it a man? Yes it was, Vinnie's mind nearly exploded as he saw the face. It was Don Carter! DeMarco kept his wits about him and bowed down in prayer. Carter's image floated above the rig and said, "Ah, my son, such fervor and fanaticism shall be rewarded. Go home, sleep, and bowl. Your faith has cured you." Vinnie obeyed and Thursday night he bowled three perfect games.

Non-bowlers accuse the avid bowlers as "taking the sport religiously." As Vinnie DeMarco's case testifies, there is great reason to believe such a "religion" exists but some peoplediscount it. But did Joseph Smith ever have a vision of Don Carter? Highly doubtful.

Soccer team tops LaSalle, 4-1

Wolfgang Wessels, a UN student who starts at halfback for the undefeated Drew soccer squad, sends sends a kick upfield in a recent game. Wessels is the team's second leading goal producer with nine, and he is tied with John Waters for second place in point production. With games against Lycoming and Stevens remaining, the Rangers are in a good position to better the previous record for a Drew team, which came in the 1966 season. That team was 12-2.

Take the Drew reactivation of first string goalie soccer squad and put it in that John Cadwell, the rampaging position and the result is a shaky Drew soccer team topped two 4-2 victory over the Newark

It took a goal by John Waters late in the fourth quarter to put the Rangers on top for good. The Green and Gold out-hustled, outplayed, and outpsyched its opponent, but almost came out with only a tie. Instead, desire and two goals won the game.

The Rangers pulled out to a 2-0 lead at halftime on scores by Neil Arbuckle and Doug Trott, both of which came unassisted. After the Squires knotted up the score at 2-2 on goals in that unpredictable third quarter, which has been plaguing Drew all season, the top team in the Northern College MAC kept pressing until Waters booted in the winning score. Al Whittemore shortly scored the insurance clincher. Both of the last scores were assisted by Trott.
