# Student helps nab

Jamie Lee Assistant News Editor

Over the past several weeks, women on campus have been receiving obscene phone calls. According to Director of Public Safety Tom Evans, the sporadic calls have been occurring for at least one month, beginning in September. Evans said one female student reported receiving such a call Oct. 14.

The student, who wishes to remain anonymous, said she notified Public Safety immediately after receiving the call.

She said when she received the first call she kept him talking for about 10 minutes "to get a feel for who this guy is," since four of her friends had received calls from the same man.

The caller asked for "Mistress Renee" and called himself "Slave John," she said.

The student said when she received a second call from the caller, she pretended to be "Mistress Renee's secretary" and told the caller that the mistress was not in. She asked if he could leave his number for her to call back, and the man willingly gave it to her. After the second call, the caller left a message, saying he was not joking around and that he really was looking for Mistress Renee.

The student said she was scared because the man sounded annoyed but excited, because he left a mes-

Evans later verified that the number belonged to the obscene caller by having his wife call the number and speak to him for a few minutes.

After his wife got off the phone, Evans said the caller-who had Caller I.D.—called him back to see who had called him. Evans explained who he was, where he worked, and told the man he knew he had been making obscene phone calls to students on campus.

The caller confessed to Evans that he had made the calls, said he was in therapy, and gave the therapist's name, number, and his own number, address, date of birth, and social security number.

Evans said asking the caller for his number was the student's individual decision.

Evans cracked the case with the help of his wife and a student.

"We can control our lives a little more than we think we can," Evans said. "If think that the student can handle that, I work with them and we give it a try ... but it's an individual decision."

"[The call] was not necessarily obscene, just psychotic, because he was talking about cleaning the house," the student said.

The student said she expected the phone call because the man was randomly dialing, and the last number he had called was very close to her number.

"Public Safety handled it well, very efficiently, once they could do something, and were reassuring before they thought they could do something," she said.

Evans said he has received at least three complaints about obscene phone calls, but there have probably been more calls to people who just shook them off or ignored them, rather than reporting them. He said the caller definitely lives off campus.

Evans said the matter has been turned over to the University's attorneys, who will be sending the caller a trespass order, which is a letter informing him that if he is ever found on campus, Public Safety can arrest him for trespass-

"He knows that we know who he is. We're working with our attorneys now to see what the final outcome will be," Evans said.

### Residence Life looks into obscene phone caller student billing complaints

Sue Troiano Staff Writer

Several students have complained that after checking out last semester, they were charged for damages they claim they were not responsible for. The students said their Resident Assistants inspected their rooms and the rooms were said to be "satisfactory." When the students received their bills this summer, however, there were damage charges the students were not expecting.

The check-in/check-out policy as defined in Daniel's Dictionary states: "Prior to a student's taking occupancy of a room, the R.A. will perform a careful inspection using an authorized check-in form. When a student later vacates the

room, it will be re-checked. Students are encouraged to participate in the check-out process because they will be charged if conditions are unacceptable or damage has occurred." Any damages beyond "the normal wear and tear"

when her parents received the bill during the summer it stated there was "dorm damage." Her father called the University and complained because "there was definitely no damage," Selmon said. The payment was subsequently

I have a feeling they [Residence Life] charge [those] who can pay and hope that people don't inquire.

- Lori Selmon Senior

of the room will be charged, as well as any missing University furniture, it states.

Senior Lori Selmon was charged \$40 last year for painting the walls in her room. She said that her check-out was satisfactory, but

erased from her bill. Selmon said she feels parents and students often do not check the bills, and therefore are not aware of what they are paying for and Drew can easily exploit that. "I have a feeling they charge [those] who can pay and hope that people don't inquire," Selmon said.

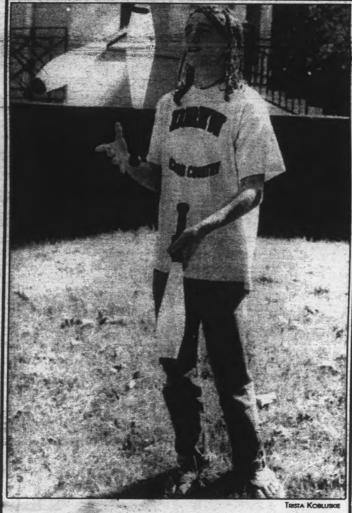

Senior Andy Brooslin had a similar experience when he received a bill with an additional \$75 charge included for two missing desk chairs. Brooslin and his roommate had a satisfactory checkout of their Riker double.

"No mention was made of anything missing or broken [during check-out]," Brooslin said. His father contacted the Office of Residence Life, but unfortunately they were experiencing a period of transition at the time, and no progress has been made. Brooslin recently submitted a written memorandum to Residence Life and has not gotten a response. He said he feels it is essential for students and parents to read through the bill carefully because anyone could be overcharged.

Associate Director of Residence Life Theresa Scott-Woods said Residence Life is in the midst of revamping the check-out and billing procedure. She said the office is aware of the problems and it has taken them longer to respond this year, because there have been three management changes since last year. Former Director of Residence Life John Ricci left last year; Scott-Woods joined the staff last January; and Housing, Conferences and Hospitality began operating July 1. H.C.H. is responsible for residence hall assignments and scheduling rooms for special events on campus.

"The majority of people who have had concerns were in the Suites," Scott-Woods said. She said that makes sense because there is no clear common area inventory rule regarding check-out. This is one of the changes Residence Life is attempting to make with the reforms. Scott-Woods also said Residence Life is trying to cut down on the time lag from room reports to billing because it is not fair for students to leave for the summer thinking "everything is

### SGA creates graduation task force

Rebecca Salay News Editor

The Student Government Association has established a committee to develop alternate proposals for the date of graduation, Student Government Association President Pete Wyckoff said. The committee, which Wyckoff called the SGA Graduation Date Ad-Hoc Committee, is made up of junior Deb Daniels and seniors Wyckoff, Adam True, Michael Press, Kelly Wieme, and Connie Zastrow.

The committee was formed in response to the administration's decision to hold graduation ceremonies on Monday, rather than on Saturday as has been the tradition at Drew. The date change was prompted after the University received complaints from many Jewish students and parents about graduation ceremonies being held Saturday afternoon, which is the Jewish Sabbath.

However, many students felt a Monday graduation would be an inconvenience, making it necessary for parents to miss one to two days of work in order to attend. Wyckoff said SGA sponsored two surveys on the problem—in a joint SGA/The Acorn poll, 80 percent of the respondents said they would

be inconvenienced by a Monday graduation and 85 percent favored changing the date back to Saturday; in an SGA phone survey, 71 percent of seniors said they wanted the date changed back to Saturday. Wyckoff said 83 percent of the seniors who said they wanted to change the date back to Saturday were willing to give up a day of Senior Week. "We see our-

### Florio for Governor

Last year, The Acom chose to endorse Bill Clinton for President largely because he promised fundamental changes in the direction of public policy. This year we are lending our support to Jim Florio in his bid for reelection as New Jersey's Governor precisely because he has changed much of the status quo during his first term.

Florio has drawn criticism for his policies and the way they have affected New Jersey, but most of that criticism is unwarranted. A look at Florio's record shows that New Jersey has benefited during his term.

In addition, Republican challenger Christie Todd Whitman has run a campaign whose lack of substance is compounded by its blatant pandering to New Jersey's voters. She is inexperienced, and her naivete becomes clear when she begins to discuss the issues.

Whitman has attacked Florio on the basis of his economic record. She is ignoring the fact that Florio-backed efforts have created over 50,000 new jobs, and over 300 companies have moved to New Jersey during his

Florio had the vision and the courage to implement a controversial tax package in 1989. The move was widely regarded as political suicide, but its benefits have become clear—New Jersey's bond rating has remained high, and the state's economy has been bolstered through measures like "New Jersey Works!" For his courage in not bowing to political pressure and in making tough decisions, Florio was awarded the 1993 Entrepreneur Magazine Leadership Award.

In contrast, Whitman's two-page economic plan is a farce based on the discredited trickle-down theory. Whitman's pledge to cut taxes by 30 percent over three years is ludicrous. She has admitted that such a move would require cuts in services but has never specified which ones. This pledge is a desperate attempt to win votes without providing any

Florioalso had the courage to staredown the National Rifle Association and institute a ban on assault weapons in New Jersey. He has stood firm in his resolve to keep these deadly weapons off our streets despite attempts by the N.R.A. and the Republican legislature to overturn the ban. For his refusal to bow to special interests on this issue, Florio was issued the prestigious John F. Kennedy Profile in Courage Award in 1993. Christie Whitman called the ban "lousy legislation."

Florio has a clear record on welfare reform which aims to end the cycle of welfare dependency. Florio's programs have expanded education and job training opportunities and allow single mothers to seek better jobs without losing their benefits.

In addition, Florio signed reforms which require "deadbeat dads" to take some responsibility for their children, even if the state has to resort to withdrawing child-support money from the father's paychecks. These payments since 1990.

The Governor has been steadfast in protecting a woman's right to choose. In response to the Bush administration's "gag rule," which prevented the discussion of abortion at federally-funded clinics, Florio included \$4.2 million in the state budget to compensate for the lost funds. As the Governor said at the time, "In New Jersey, we don't gag women

or their doctors." Whitman has professed a pro-choice ideology, but her record is inconsistent. She devoted time and money working for both Reagan and Bush, and her political action committee frequently backed anti-choice candidates in elections.

Governor Florio is a strong leader who has helped New Jersey. His experience and leadership, as well as his stances on the issues, are right for New Jersey. He has been battered by opposition during his term but has never backed down from an issue for the sake of political harmony. people) Governor Florio is a leader, and it is for these reasons that The Acom endorses him in his bid for reelection.

### READER'S FORUM

#### Recent Holocaust debate remains harbinger of anti-Semitism

Opinions" piece written by staff writer David Rosciszewski ("Jews Exclude Catholic Victims" Oct 8 1993). We may debate distinctions between "liberty" and "license," First Amendment "rights" and distortions of those "rights," but surely in a participatory democracy we are all committed to open discussion in a public forum. To your credit, you have provided that.

For me (as for other faculty members and students to whom I have spoken) this whole episode has been deeply wounding. But, then, how could it be otherwise? Ask members of any minority group—whatever color, race, religion, persuasion—how they feel when false and unfair accusations are hurled against them.

Predictably, they feel pained, offended, perhaps even alarmed. In my case, I admit to feeling startled and more I have never before seen an antisemitic eruption of this kind-or of any kind either in print or in public statement. As one who has been devoted in recent years to studying

the history, literature, and psychology of the Holocaust, I I would like to commend you for giving such ample may be especially sensitive and vulnerable on the topic of space over the past two weeks to letters concerning the antisemitism since it strikes such a grim chord from the past and raises such discouraging questions about the future. Indeed, when Dr. Franklin Littell—teacher, theologian, Methodist Minister, and co-founder of the Annual Scholar's Conference on the Holocaust-prepared a list of "early warning signs" for detecting a troubled or potentially troubl making nation, he placed high on his list of watch-out-for's

The Acorn October 22, 1993

the "publishing of slanderous charges." Without pressing the analogy beyond mere mention, I would nevertheless suggest that wherever we encounter them-nationally, locally, or on a college campus-slanderous charges should give us strict pause, make us wonder: "What's going on here? What are we to make of this?" Not only those slandered but EVERYONE in the Drew Community will-I believe-be served by pursuing these questions alarmed. In my case, I admit to feeling startled and more than a little unsettled. After all, in over thirty years at Drew, clear and constructive answers.

Jaqueline Berke Director, Center for Holocaust Study

#### reforms have resulted in a 44 percent rise in the collection of child support Remembrance of Holocaust should not be a question of power

It was with utter disbelief and dismay that I read and reread David Rosciezewski's article a few weeks ago ("Jews exclude Catholic victims"). I think the most pertinent and specific objections to it have been more eloquently expressed in some of your previous letters; I would ertheless like to add a few brief comments of my own. As I absorbed the article, I tried to understand what David thinks the Holocaust was and is really about. What is its significance for us today? What "meaning" can we possifolocaust in terms of two factors: self-pity and power. have been a noble endeavor, he talks about "self-pity," both in his disparagement of the J.S.O. and in the tone he uses to describe his own people (who also happen to be my

letter, I'd like to look beyond the obvious anti-Semitism in Surely there is room for everyone this statement and ask instead: is this what he understands profits? Is the "monument" across from Brother College surely they would hasten to pass on the real lessons of that obscene experience, the lessons we should be learning. These lessons, as I understand them, completely contradict

David's own philosophy. The Holocaust never would have happened had not 99% of the world believed, as he does, that one should "look out for your own, because no one else is going to give a damn about them." How ignorant and vain we are, to have learned nothing from this most horrific of

like to comment on is his attitude towards power. He writes: "There was once a time when the Catholic Church wielded as much power as that which Jews and homosexuals now bly take from it? As far as I can determine, David sees the posses." Aside from my impression that this statement could easily have been quoted from any of a number of Nazi Instead of really focusing on "mourning," which would officials (who also claimed that the most marginalized peoples in society were running it), I must object to the implied dualistic formula that power (in the sense of someis it that, once the Catholic Church loses power, the "Jews Toward the end of his article he writes, "Since the Jews and homosexuals" (and other non-mainstream groups) must have ridden the victimization bandwagon since the day the be in power? The Holocaust taught us that we ought to be war ended, why are Catholics not permitted to do so as well working toward a society where there are no powerful and in order to further their causes?" For the purpose of this there are no powerless; a society based on cooperation

My impulse is to suggest to David that he could easily we have learned from the Holocaust; i.e., who does or does form a Polish Students' Organization. His anger at the lack not come away from it with a certain percentage of the of Polish representation on campus is legitimate; the Polish heritage is indeed important and valuable, and the Polish some sort of reward or prize? Was mass suffering on an experience in the Holocaust must not be forgotten. Such an unprecedented scale somehow designed for nothing other organization should understand, however, that it is possible than the furthering of our modern-day "causes?" If those to inform the public about the Polish experience without who perished at the hands of the Nazis could speak to us, insulting and demeaning every other group who suffered.

#### Response to E-mail message not intended to insult student

To sophomores who read E-mail or have friends who read E-mail - as you know, I send out a monthly information letter on the happenings of the S.G.A. (Student Government Organization). In the most recent letter (the one sent out on 10/18/93) I placed quotes taken from a letter I received from Tracy Challies, a sophomore. I want to deeply apologize to anyone who had taken offense to me using her first and last name. I am not apologizing to Tracy herself, for the letter she wrote was simply rude; I am saying that I am sorry to anyone out there questioning my lism in placing her name with her quote. No one should be afraid to send me comments in the future for fear that I will embarrass them if they don't see eye to eye with my views-believe me, I listen to everyone's opinions, good and bad, and write most of them back person

ally, but when the factor of pure and utter rudeness comes into play—anything is game. Most of you have been sending out these E-mail messages. This tells me that most of you are

happy with the job I am doing as representative. I appreciate that, I really do. I am not writing this letter because I have to, or to stay in favor with all of you. I am writing this because I feel bad for everyone who thinks I have let them down or I can't be trusted to conduct my mail ethically. I realize now that I should have been the bigger person and just answered the girl's message with a thank you. So to Tracy, I do not relinquish my sword and shield; but to all else I have offended, I bow my head to you and ask for partial forgiveness.

**NEWS** 

Benita Jain Assistant News Editor

Last night Chinese dissident Shen Tong gave the keynote speech for Spotlight: A.S.i.A. month to an audience of over 150 people in S.W. Bowne. Between the humor of jokes involving Chinese leaders Mao Zedong and Deng Xiaoping as characters, Tong spoke of the very serious issues of the human rights atrocities being committed in his home country, the democratic movement, and the tragedy at Tiananmen Square and its significance to the rest of the world.

Twenty-five-year old Tong was a leader of the student democracy movement in China and in one students from a wing of his dormi- dormitory at Beijing University. tory at Beijing University during the Tiananmen Square massacre in 1989. #### Correction

The jump from last week's front page article on Director of Financial Aid Fran Andrea by David Cennimo was inadvertantly omitted. The last portion of the article reads as follows:

Perhaps Francine Andrea's legacy is best summed up by a student employee in the Financial Aid office, Kristin Curry. "I will miss Fran a lot. She was always good to her student workers, giving us real tasks, not just filing papers. She was more like a friend than a boss. She gave a lot of motherly advice and did the best that she could for the students," Curry, a senior, said.

### The truth comes out...

After abstaining from Drew food for seven days, two hours, and fifteen minutes, we were able to detoxicate our systems and make the following observation-Drew appears to be a mixture of your average Gap/wearing, grunge/ listening, incestuous students, but the truth is much darker. We strongly suspect a mental unit.

that we're all living in We ventured into the

only place that could hold the answers—the Methodist Archives. After a near-death experience, we managed to get past the steel doors which dropped from the ceiling and found out this shocking thing about our "University:" Drew really is a

loony bin. How do they do it? 1. Shock treatment is given through faulty electrical features. 2. The constant blinking of smoke detectors appears to be. Has any-

is used to induce catatonic states. 3. Semesters abroad are reserved for students in dire need of severe medical attention (lo-

botomy). 4. White uniformed "daka" employees gladly give us medication at meals and in coffee. Take note of the Nurse Ratchet uniforms.

5. Writing 1 is really reprogramming and conditioning. 6. Drew TV is a 1984-style

telescreen used to observe patients in their own environment. 7. All other medication is received via Snapple. 8. The Other End controls

us through subliminal messages in cheesy folk music and bad cappuccino.

9. The vendors in the U.C. are actually visiting

social scientists doing fieldwork in the form of case studies. 10. All mail is delayed and

The Methodist Archives is not really what it

one ever ventured into the headquarters of those who control our minds?

pointer or how monstrous a slam dunk they deliver, beneath all that they too are only human beings.

Can the New Jersey Nets ever catch a break? Finally on the verge of being one of the top NBA teams, tragedy and greed have struck again. The list of Nets who have short, is long-Micheal Ray Richardson, Orlando Woolridge, Joe Barry Carroll, Chris Dudley, Coleman, around whom the Nets have rebuilt the franchise, decided Nets'70 million dollar contract agent market. The fans at Turnpike exit 16W will not take to Coleman's rejection of the Nets very well, especially if Coleman's leaving results in the Nets also who will definitely leave if his main player bolts. Derrick, take some advice, stay in Jersey.

### Strong intramural competition continues

Jennifer Pierce

Intramural competition continues to heat up. In tennis, bowling, and flag football, the competition is strong.

Rain delays continue to hamper the tennis competition. Women's singles and mixed loubles were unable to play this past week, so senior Sharon Dawso remains in the lead in women's singles and seniors · Vanessa Donadio and Sujit Chawla remain in the lead in mixed doubles.

Men's singles was unable to nove into the quarter finals, but they have continued play. Senior Sujit Chawla has moved into the lead over sopho-more Greg Mattson. Both have 13 wins, but Chawlahas played and staff member Katie more games, thus making hima Mandigo, with 19 points and

Chawla and Mattson split their sets (6-4 and 7-5), proving that the competition will be

Right behind Chawla and Mattson are senior Chris Klein of 578 pins per game.

This week's star of the Paley. Klein and Paley each have six wins, with Klein playing more games, thus making him the higher seed.

Klein lost to Paley (0-6, 4-6), making the competition in-teresting, especially because Klein split sets with Chawla (7-6 [7-4] and, 6-3). Men's doubles competition

is just as strong as men's singles. In the lead are seniors Chawla and Klein with seven wins, fol- (20-12).

### Soccer stumbles on road to NCAA playoffs

**SPORTS** 

David Krajacic
Staff Writer

It is often said that through defeat you can gain courage, wisdom, and character. Therefore, you can win even if you lose. Following this ideology, the men's soccer team had a winning week. The Rangers executed a stunning 1-0 shutout over Wilkes on Saturday. Unfortunately, the team wasn't able to put it together again for a win over Muhlenburg and lost 5-

DREW 1 - WILKES 0

Saturday saw the turf play host to a rematch of last season's conference title game against Wilkes College. The Rangers were pumped for this game, and since the team consists of mostly upperclassmen, revenge for last year's loss was on their minds.

"I wasn't working on revenge like some players, I just played my best," first-year student Andy Yenawine said.

Sophomore Dave Ciccoricco had a different approach to the

"I was waiting for this game it was like a vendetta for me," he

The Rangers took the field with a better record than Wilkes, 9-2-3 to 6-6-3. They were also prepared for a physical game since they knew Wilkes' style of play, as

The loss put them in an awkward position for a playoff spot. They need two more wins to even gain a chance at postseason play.

well as their height advantage.

"We were prepared for a lot of passes—we even termed the team 'Air Wilkes.'" head coach Mummert said.

Although the first half was scoreless, it was an exciting 45 minutes, with both teams playing aggressively. Drew consecutively drove the ball towards the goal, making many unsuccessful attempts. Wilkes attempted to play a passing game, but it was unsuccessful due to the Ranger's preparation. Wilkes' few attempts were foiled by excellent skills in the Ranger net by sophomore Brian

Heinemann.

The second half provided more great soccer. The Rangers continued their aggressive play, this time with success. On an attack from the back right, first-year student Andy Yenawine passed to first-year student Bryan Kean, who got the assist and then set up Ciccoricco for a goal. Drew held back the attacks from Wilkes to end the game with a 1-0 win.

MUHLENBERG 5 — DREW 1

Wednesday, the Rangers took on the Muhlenberg Mules in possibly the worst conditions Drew has played. When the clock began its ten minute pregame countdown there was a light mist in the air. By the time the game started it had turned into a heavy downpour. The skills of these two teams promised an exciting game. The Mules had a record of 9-5, and were ranked eighth in the Mid-Atlantic Conference. The Rangers had a record of 10-2-3, with a MAC ranking of six.

An injury at Drew's goal within the first ten minutes set the tone for the game. A Muhlenberg's player tripped over Heinemann as they both went for the ball and had to be carried of the field. Both teams played sporadically, and Muhlenberg seemed to have more attempts on goal, but Heinemann didn't slip up. About 30 minutes into the half, Muhlenberg scored on a header from a free kick. This allowed the Mules to take a 1-0 lead. The Rangers did attempt to score with five minutes left in the half, but the ball was bobbled at the goal. The attempt was unsuccessful and the score remained 1-0 Muhlenberg at halftime.

The Rangers fired back in the second half. They seemed to play more focused and methodologically. They were able to dominate the half, only allowing Muhlenberg a few shots at goal. This new determination drove the Rangers to tie. On a crosskick from junior Ramsey

Salameh, senior Andy Scaer scored. This brought him up to eight goals for the season. Neither team was able to score again, and the game went into overtime.

Although they had already played for ninety minutes, the Rangers start the third period with enormous energy. From the start they drove and passed the ball well. Muhlenberg managed to capitalize on an opening and at the three-minute mark Muhlenberg dribbled up the right side of the field and scored. The Rangers didn't give up and continued to attack the goal. At the nine-minute mark, the Mules dribbled up the right side and scored.

Drew dominated the period, but neither team was playing to peak performance. With about six minutes left, Muhlenberg scored on a foul kick. Four minutes later the Mules struck again on a corner kick, and the game ended 5-1 in Muhlenberg's favor.

RANGERS NOTES: This loss snaps a 17-game Wednesday night, unbeaten streak. Up until this loss the Rangers were 14-0-3 at their home games on Wednesday. This record went all the way back to September 25, 1991.

The Rangers will be at home tomorrow, playing Lycoming College. Drew will next host Stevens Institute of Technology October 26.

### Cross country looks forward to MAC playoffs

Keith Morgen Assistant Sports Editor

The cross country team got a sneak peak at next month's MAC tournament Saturday, when they met some of their toughest rivals at the Allentown College Invitational.

The men's squad placed 18 out of 24 schools, against teams such as Rowan College, Haverford College, and Franklin and Marshall College.

The women finished 15 out of 21 schools, running against rivals Gettysburg College and Trenton State College.

Coach Lennie Parham was satisfied with what he saw. Despite the damp day and slick, hilly course, he felt confident his team would fare well next month at the MAC tournament.

"We're ready to run," Parham said. "We have a good opportunity in the MAC championships next

month. Today, I saw what I expected. We finished at about the middle of the road."

Leading the men in the 4.9 mile course was junior Gordon Kenny, who placed 32nd overall at 27:33.8.

Also placing high for the men were first-year students Jay Zampini, who finished 84th at 29:40.5, and Jim Robbins who placed 91st at 29:59.9.

Robbins, who ran the scattered hill course very strong, considered

the Invitational a good practice run for the MAC contest November 6.

"I felt like I was going on a good pace," Robbins said. "It was like courses I ran back home, so I felt really strong on the hills. Now that I'm more familiar with the course, it should make my time at the MAC's better next month."

Senior Lee Slaughterran a much slower time than usual, finishing at 31:20.9

Co-captain Slaughter, nursing a sprained ankle and having only three days of practice, was fast to praise his fellow Rangers.

"We've all been improving and we should keep improving up till the MAC's," Slaughter said.

"Many of us had personal best times today."

Junior Alison Smith was the first Ranger to finish the 3.1 mile course for the women, in 57th at 22:22.3.

Sophomore Marie Aufiero placed 81st with a time of 23:21.8,

placed 81st with a time of 23:21.8, while sophomore Michelle runners to st Aufiero finished seconds behind at 23:35.5, in 88th place.

The Accent Fix Photo Tax Photo Can Slow Cross of Can Slow

Michelle Aufiero feels the squad handled the difficult course well.

"Everyone ran a solid race," Aufiero said. "I was pleased with how quickly we all ran the hills."

For many first-year runners, Allentown is the toughest course of the year, especially the first time it is run, due to the intense hills throughout the course and top competition they face at Allentown.

Despite their success both the men's and women's squads are suffering from injuries. The women continue to run without top five runner sophomore Lauren Marasia, out with tendonitis, while the men are questioning the possibility of an injured Robbins.

Junior David Haiman also continues to battle back from both a broken left leg and foot and is still not at 100 percent.

"I'm competitive in the group of runners I am running with, but I should be up higher in the standings," Haiman said.

Parham realizes others will have

to step forward if Drew is going to have a shot at a solid finish in the MAC competition next month.

"To pose a challenge we need Lee [Slaughter] to stepup,"Parham said. "I would like to see Gordon [Kenny] place in the top twenty or twenty-five."

The strength of both teams has allowed other

runners to step into the positions of the injured runners without skipping a beat.

This is vital if the Rangers hope to continue their success which has been achieved with such a young team. The women are without any seniors, while the men have just three.

Strong recruiting efforts by Parham promise to only strengthen the already strong base that the current team and coach have built.

### SHOWDOWN SATURDAY

Women's Tennis

Drew (8-2, 4-1 MAC FL) vs. Scranton (10-2, 5-0)

If the Rangers win 6-3 or better, they win the MAC Freedom League.
