### Forum dedication ceremony draws statewide attention

Roy Opochinski Staff Writer

The University dedicated the William E. and Carol G. Simon Forum and Athletic Center Saturday in a gala ceremony that was

highlighted by keynote speeches from United States Senator Bill Bradley and National League President Leonard Coleman.

The warm, windy day opened on a solemn note as a moment of silence was observed for former

President Richard M. Nixon, who had passed away the day before.

President of the Board of Trustees Heath McLendon termed the opening of the Forum "a dream many associated with Drew have

The Simons speak at the Forum and Athletic Center dedication last

Following McLendon was University President Thomas Kean who, with "great pleasure," introduced Bradley as a man who, he said, "is admired greatly by so many people. I am proud of the way he represents me and I am proud of the way he represents the state. He is exemplary of public service.'

Bradley addressed the assembled crowd of 750 people saying that it was a great honor for him to participate in the ceremony. "One part of the journey is com-pleted," Bradley said. "Many places where buildings go up are provided by the government. The Simons lived up to the best of that Scharitable Limpulse in being ben factors." Bradley said he hoped that others will ask themselves "what they owe other human beings." Bradley also praised Kean in his speech, adding that the University was "lucky to have his [Kean's] leadership." He concluded his remarks stating that it was "an extraordinary day."

Kean proceeded to introduce Coleman as a man who did "an exemplary job" in two departments when Kean was New Jersey's gov-

Coleman's remarks, though briefer in length than those of Bradley, were also extremely positive. "The beauty of this structure pales in comparison to what will take place behind these walls," he said. He also spoke about the "spirit of interconnectedness" that occurs when learning and athletics come

At the conclusion of Coleman's remarks, Kean introduced several See FORUM, page 3

# SGA plans changes

The Acorn News Service

The Student Government Association has recently set out to make a great many changes in the way Drew students relate to the University as a whole. The following is a summary of some of these goals.

SGA President sophomore Jason Clark has written a petition to the state legislature to prevent the passing of Governor Christine Todd Whitman's education proposal. There is a separate petition to be circulated among faculty and administration. SGA wants at least 95 percent of Drew students to sign this petition, copies of which will be made available by hall and class senators. The student petition will be presented in Hackensack on May 5, and the faculty and administration petition in Newark on May 23. Clark emphasizes the importance of student support of the petition, which will make Drew's

student voice heard outside the campus. Hopefully, he adds, the petition will prompt a state wide response from other cam-

Clark also spoke with Rick Joseph, the manager of Drew's chapter of daka, about meal planning. The SGA Food Committee will meet with daka to assist in menu decisions. Students who wish to be in on the process may submit suggestions to their senators.

To encourage students to register early for the new smart cards which will replace the Validine system, SGA will hold pizza raffles Monday through Thursday next week. Students will receive tickets in the Commons at lunch and dinner, then have their pictures taken for the cards, which will be processed over the summer. SGA hopes to save daka a crush next year, when incoming first-year students will receive their cards.

# Unidentified vandal spray paints side entrance of the U.C.

**Alison Kinney** Assistant News Editor

An act of vandalism occurred at the University Center either last Saturday night or Sunday morning. Someone-there are no suspects yet-defaced a door with red spray paint.

Junior Janine Walits, who opened the U.C. desk that morning, arrived around 11:45, when she found paint on the left-hand

pointed that the vandalism occurred so soon after the U.C. game room incident; the game room was closed for the weekend of April 15-17, because students were smoking in the room.

"I just don't see Drew students doing that," University Center Director Kim Sweeney said. She added that, because the vandalism happened over the weekend, the perpetrator may have been from off campus. Citing the possible effects of springtime on people's

The U.C. entrance before the paint was removed earlier this week.

glass door at the entrance by the pool tables. As a matter of procedure for opening the U.C., she called Public Safety and reported the event. "I just think it's a shame that people have to resort to these things," Walits said. "It's common property... I think they didn't think of how it would affect everyone else." She is especially disap-

moods, she has decided that "it was just a random act... It was shocking to me just because I wouldn't predict it at Drew." It did not seem to either Walits or Sweeney that the perpetrator was "lashing out," because the graffiti did not consist of words.

Sweeney said she is concerned See VANDALISM, page 3

#### Elie Wiesel to speak on morality

This Wednesday, Elie Wiesel will speak in Baldwin Gym at 8 p.m. Dubbed "one of America's foremost human rights activists," he will speak on "Building a Moral Society." Wiesel is a recipient of the Nobel Peace Prize, the Congressional Gold Medal and the Presidential Medal of Free-

He is a survivor of the Nazi death camps at Auschwitz and Buchenwald, and defends the cause of Jews worldwide. He has defended many groups against oppression, including the Kurds, South African apartheid victims and Cambodian

Show

ASiA and the Office of Student Life will host the "In Unity" fasion show tonight at 8:30 p.m. in Great Hall. The show is a "student-run thing," according to its coordinator senior Soni Pandya. Drew students will be modeling fashions donated by students, faculty and staff.

The program emerged as a collaboration Kuumba, Ariel, ASiA and Women's Concerns. Fashions on display will include hiphop, grunge, Asian, African, retro-1970s, prep, European and Latin American styles.

#### SGA President drafts petition

This week SGA President Jason Clark stepped up his crusade against Governor Christine Todd Whitman's higher education cuts. At the SGA meeting last Sunday, he released a petition opposing the governor's plans. He urged senators to obtain as many signatures as possible, with a goal of 1,300 total.

An excerpt from the petition follows: "We the undersigned ... are genuinely disheartened at [Whitman's] proposal to cut state funding to all private institutions ... Furthermore, we believe downsizing the Equal Opportunity Education Fund will induce a system of further inequity from which New Jersey will not recover."

**Board Members:** Cassie Allen Merrill Belson Jessica Hrabosky Jennifer Lightcap Suzie Matthews Peter S. Pappalardo Debra Pierce Al Valentino Maria Vezos

Elections for Residence Hall Commuter, Continuing Undergraduate Education (CUE) and First-year Senators will take place in early fall.

Note: All SGA election results are still unofficial.

### LEAD EDITORIAL

### The Year In Review

This is our last issue for this school year. So we here at The Acorn have decided to analyze the year we've had at Drew, and we've compiled a list of the things that defined this year-most good, some bad, but all Drew.

#### The Good Stuff:

•The William E. and Carol G. Simon Forum and Athletic Center. It is an impressive facility which not only makes the entire campus more attractive, but adds greatly to the athletic side of the Drew Community. In addition, it gives the campus a terrific new facility in which to host speakers and concerts, of which there have been plenty this semester. And the dedication ceremony last Saturday was first-rate.

•The replacement of the Validine system, coming next year. Adding elements such as declining balance will make everyone's lives easier and, more importantly, make Snapple runs of sizes never before considered possible. • The refurbishment of Haselton Hall adds not only to the campus

in general but also serves as a model for the rest of the residence halls here. It's cool to show on tours, too. •Drew University Student Television became a reality on Channel

21 with the weekly Sunday 10 p.m. newscast, and now DUST has started on the road toward becoming a completely student-run television station. •The computers given to the first-year students this year are the

first set of computers that have enough power to actually process non-Drew supplied programs. •An exceptional spectrum of speakers came to Drew this year.

Many clubs and the Speakers Bureau brought their finest speakers to campus this year and the overall effect was very positive. •The Aspen Lady's replacement is much sexier.

•The new service road around the Forum offers students who don't want to make the pilgrimage a way to get their cars to Tolley-Brown without pounding speedbumps, and reminds juniors and seniors of the way things used to be before that damn gym took all our parking spots.

•The New Jersey Shakespeare Festival's forthcoming investment who have been well screened before their admission to in the renovation of Bowne Theatre.

•The recent explosion of daffodils all over campus. •Madison has become an even more exciting college town then it

used to be. And the cops stopped chasing Roy. •We've kept the lid on the drunken squirrel problem another year.

Just a Few Bad Things, We Promise:

#### MONDAY GRADUATION. Nuff said.

•Baldwin is still closed, even though it could be open (although without renovations) and Welch could all be singles.

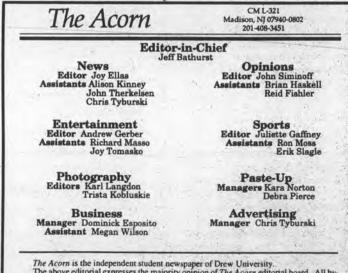

•The scheduling of the Tribe Called Quest/De La Soul could have One student spent a year in Germany just to pass her been just a little worse.

•The Glenwild "Baja 500" Parking lot.

•The crackdown on the controlled and watched campfires

in front of the Suites. Barbecue away, though! •The brilliant expressionist who redecorated the front of the U.C.

Overall, The Acorn feels it has been a good year here at Drew. There have been many different improvements which have seriously enhanced campus life. Our new facilities and both material research is involved and where materials are in a foreign and personnel additions should increase the University's overall value to all of us. We here at The Acorn are very happy to call Drew home. One final note, to all of the departing Class of 1994—We fact, the vast majority of dissertation topics which have students will go through a nightmarish experience which here at the Acorn wish you all the best of luck.

#### Language requirements at Drew difficult, if not impossible

You are to be lauded for your April 15, 1994 article on the graduate language requirement. Your article has fi-nally helped graduate students like myself vent our frustrations at a program fraught with insensitivity, unfairness and inflexibility. This requirement and the manner in which the whole program is being managed has put a blot on an otherwise excellent graduate studies program.

According to your article, Edye Lawler, Chairperson of the Graduate School Language Committee, claims that passing the foreign languages is not a problem for the five percent? Sixty percent? Accepting the latter scenario, imagine an average of forty percent of Drew Graduate students failing their language tests! In any institution of higher learning this type of statistic would be a major scandal. It is also an insult to the intelligence of students Drew and who have proven their skills in successfully completing their course work. The question which begs to swered is that why should even a handful of students fail in these exams when they are supposed to be an aid and not a hindrance to their studies.

For a graduate student at Drew time is a critical component in getting a head start in the job market following completion of their studies. Yet, because of the unrealistic language expectations and requirements, a typical student spends from 1 to 2 years fulfilling the language requirement alone. Several students end up spending more time fulfilling the languages than on their own areas of study. language test at Drew. Small wonder it takes a Drew student a minimum of seven years to complete a Ph.D.—

one of the highest among U.S. universities. If the graduate school considers a foreign language to be that critical, common sense dictates that its desired proficiency in a foreign language be made a requirement prior to admission and not after completion of an entire year of study. In reality, with the exception of Biblical Studies, a foreign language is not critical except where primary language. In reality, a foreign language is supposed to help passed through the Graduate School do not require any could have entirely been avoided. foreign language. A quick browse through the last five year's dissertations completed at Drew would make this point abundantly clear even to a lay person. Also, if a strong command of a foreign language is that critical, why

are all the class texts in the graduate classes in English? Besides, what relevance could German, French or Russian have on a dissertation topic say on British colonial reform in Nigeria? None. Is not the Graduate School doing double harm to students by forcing them to spend valuable time on languages which they may not use ever in their life as well as setting the unrealistic standards which those only with considerable training could pass?

Realizing that a language should be aid and not end in itself, most universities in the United States allow students to take language courses as part of their regular semester majority. What does Lawler mean by a majority? Fifty- curriculum the successful completion of which is considered toward fulfilling a language requirement. Several schools also leave it up to the student and his/her adviser to decide on the type of foreign language or the level of proficiency. Why Drew has to be unlike others baffles the imagination especially when students have aired their complaints to the Graduate School in no uncertain terms.

Graduate School Dean James Pain tries to trivialize the problems by referring to the fact that language tests are from books which are on reserve in the library. No amount of familiarity with these books could be of any potential help if, as it appears, that selection of a foreign language passage is guided more by ego trip than practical considerations Consider the following sentence (Yes, it is just one sentence!) from a passage which recently appeared in a German

Es ist eine Vision wie Daublers "Nordlicht", im Gegensatz zu diesem aber kein hymnischer Gesang, kein trunkenes Weltergreifen, kein Ergriffensen, vielmehr scheinen sich die Impressionen selbst in Worte umzusetzen, und um das zu konnen, benotigen sie eine Palette, so reich, wie sie die impressionistichen Maler besitzen, der Dichter muß die Palette sein, die ganze Sprache, das Universum der Sprache muß er den Impressionen zur Verfugung stellen: er und die Sprache ein vollkommenes Medium der Impressionen.

This passage has been shown to several experts in the German language, including native and non-native scholars. Each and everyone of these people contended that a proper translation of this sentence alone requires years of proficiency in the German language!

Your article has touched just the tip of the iceberg. Hopements for the area of investigation are in that language. In up and get its act together. Till then countless graduate

#### Chemistry students speak out about thier field's benefits

This letter is written in response to Brian Haskell's article, "Sometimes acting without plans yields most gain," printed in the April 22 edition of the Acorn. As Chemistry majors at Drew University, we feel this article unfairly pinpoints chemists as narrow-minded, self-absorbed, and money-oriented individuals. Mr. Haskell says he knows "many Chemistry majors who hate chemistry, hate their classes, hate their schedule, and are basically having a pretty miserable time with the whole college thing." However, out of 15 junior and senior chemistry majors, only one knows Mr. Haskell personally, and this person does not hate chemistry.

way ignorant of other subjects besides chemistry. Chemistry majors graduate with a B.A. degree, as does each student at Drew. We have the same distribution requirements as any other student, and we also vary our classes with those outside the department. In fact, we get tired of just reading those "astoundingly dull science textbooks." It is a weak generalization to classify the subject of meal preparation involves a little bit of Chemistry.

Every student at Drew has experienced a class he or she

does not enjoy, but it is all a part of the "college experience." I guess what we would like to say is that all money-grubbing students do not just exist in Chemistry; they are in all disciplines. Chemists may eventually make a modest salary, but not without years of school and a Ph.D. And even in these circumstances, success is not guaranteed. The success each person finds depends on himself or herself. Some people find joy in discovery and helping others. So it is not fair to say that Chemists do not enjoy their job. Sit in a room with some chemistry majors and see how excited they are to discuss a new theory or laboratory work. But, our discussions are not only science oriented, they encompass literature, mathematics, music; sports, anthropology, and the list Although our department is small, our students are in no goes on. Outside the scope of Drew, there also exists a Nobel prize chemist who is an award-winning poet. In addition, there have been many chemists who have also been great composers, authors, and artists.

Every person is entitled to his or her own opinion and means of enjoyment. All the diversity of this campus and of life itself allows places for people of all interests and values. However, the way Mr. Haskell attacks one discipline at Chemistry as boring. It is an intricate and integral part of Drew is unnecessary. Each person is different and each year each person's daily life. Without it, you might not make it brings diverse people to all of the majors at Drew. So if one through a normal day. You may not realize that even your person feels making money is the most important goal in their life, this does not translate to all people. It is also unfair See CHEMISTRY, page 5

### Sting disappoints Chilean audience

David Haiman Foreign Correspondent

Chile is at the same time as the not to belabor the obvious but, cross country season and I had to Sting's not with the Police any- everything's right there-your find another program and go on my own. As a result, I don't have "Roxanne," "King of Pain," much of a life here, yet.

So when a friend from my program said she was going to Santiago to meet another group of American students to see the Sting concert and did I want to go, I didn't exactly have to check my social calendar. On Sunday morning we

After creatively spending the afternoon eating in a cafe, we met up with everyone and headed out to the stadium. It's never a good show and the majority of the people self included, with a couple of inare walking the other way. The show was supposed to start at 8p.m., in the middle of nowhere in Chile. Ari Niggam definitely have. Not a good start.

Eleven o'clock, no music. By this point they're sending out round after round of semi-talented stagehands to try and appease the crowd. The crowd was none too pleased. You know all those rumors you hear about riots in soccer stadiums in other countries? They all came rushing into my mind as I thought

I was about to be caught in one. Finally, about midnight or twelve thirty, the opening act comes on. At this point canceling the opening act probably would have been a good idea, but it was James Taylor, and it was his first time in Chile, so they let him play. I will keep my comments about him brief.

I used to like James Taylor, I really did. But he's old and all his songs sound the same. And he did two encores. Let me assure you that the audience wasn't exactly psyched for the second one. As a matter of a fact, I thought James had some type of death wish for coming out onto the stage the second time. Despite any language problems, I still may be having, there are certain gestures that do

He opened up with "If I Ever Lose My Faith In You," and at this point, I had some hope of redemption. However, that faded quickly.

The thing is, seeing Sting in a Greatest Hits live, something I as- father—if he doesn't give you ex-

# Muppets reruns break stress

**Andrew Gerber** Entertainment Editor

**ENTERTAINMENT** 

College is such a strange thing. It must be a lot easier than the future in many ways. Most students are in a position to let other people take care of their basic needs. If you live on campus, room, your classes, your friends, your food (which is probably already cooked for you).

The drawback with this situation is that there's no escape from these things. College is not so easy. so many people are involved with so many activities, in addition to However, to be fair, Sting diddo schoolwork and a possible job, that I'm-so-stressed-that-I'm-likely-tostrangle-the-crap-out-of-the-nextperson-I-see feeling comes along now and then.

Responsibility is an ugly word. No one wants to think about it. So don't. At least for half an hour.

Nickelodeon is showing reruns of The Muppet Show. My dad used but came up short. I've played bet- to watch the original-run episodes with my big sister Michelle and me. We all knew that most of the jokes and gags were stupid, but were performed with such innocence, that we laughed at the same time that we were groaning.

My dad worked hard. He commuted from East Brunswick, (near Rutgers) to Trenton and back. That's a long way. He would be tired, and often a little tense at the cence of The Muppet Show had a relaxing effect on him.

Space" lunch box. Of all the recur- whose entire vocabulary consisted can't laugh, you're dead.

attempt to hide its stupidity. Cap- an experiment that would result in tain Link Hogfrog and Dr. Julius Strangepork would run around frantically at the slightest sight of possible danger while First Mate Miss Piggy would scream at them to calm down. Admittedly, it's a fairly limited concept. When I was in third grade, I heard two bigger boys talk about my lunch box. When one questioned its maturity, the other pointed out that the acknowledged smartest kid in school

liked "Pigs in Space." Michelle would explain to me about the Muppets' inner characters. Kermit and Miss Piggy were really in love with each other, even though they could never get together, partially because one of them was usually hitting on the guest star. Fozzie and Gonzo's performances were just an attempt to get love. My sister did not need to explain anything about Animal. He's just Animal.

The Muppets were more than just innocence, however. Kermit's little nephew Robin would occasionally be eaten by one of his bigger co-stars. An orchestra of babies was conducted by an escaped criminal. The Swedish Chef chased chickens around with a very large knife. And off in the balcony, the curmudgeonous pair of Statler and Waldorf would heckle everyone, especially Fozzie, who was insecure enough as it was.

The most sadistic running gag involved the way that the harmless-looking Dr. Bunsen Honey-My mom bought me a "Pigs in dew treated his assistant Beaker,

ring skits on *The Muppet Show*, of "Me, me, me..." Honeydew "Pigs in Space" made the least would force Beaker to take part in physical and emotional trauma. One time, the experiment backfired and cloned Beaker. After taking their revenge against Honeydew, the Beakers caused much havoc and became involved in many funny sight gags.

> seem out of place. One guest star who certainly was not out of place was Marty Feldman. Feldman's ridiculous bug eyes, pointy nose, goofy smile and cheerfully silly attitude made him seem like a typically well-crafted muppet. Feldman played the beautiful Arabian princess who told the Sultan (played by the Swedish Chef) the four tales of the Arabian Nights-Sinbad the Sailor (who led the frogs in singing "Surfin' U.S.A."), Aladdin and the Magic Lamp (starring Gonzo), The Wright Brothers at Kittyhawk, and Ali Baba and the Three Bears (featuring some of Kermit's old Sesame Street pals).

The Wright Brothers at Kittyhawk was the funniest segment. Sam the Eagle, that hopelessly somber bird, played a patent officer. Feldman came on in a silly pilot's uniform and called himself Orville and Wilbur. "My mother wanted twins," he explained. The "brothers" made many ridiculous jokes about being two people, driving Sam crazy, and led four Muppets dressed as policemen in

# **Bidding You A Fond And Inexpensive Farewell**

As part of a combined effort by the Residence Life and Facilities Operations staffs to make the end of the year go as smoothly as possible, we are providing several informational and preventive steps through which each student will be better informed and more prepared for room check-out. Through this advertisement, as well as fliers posted around residence hall floors and bathrooms, we will provide you with information about these programs and what they can do for you.

Your RA will be holding final floor meetings to discuss the check-out process and how it can be made easier. Included at this meeting will be a discussion of building charges for common room damages up to May 1. Also, a Hot Line (x3235) has been set up to answer any questions students may have about closing and check-out procedures. Most importantly, all Resident Directors will be available, by appointment, to do a preliminary check of student rooms and to advise residents on what to expect during the final inspection as well as answer any specific questions at the time.

#### STEPS FOR CHECKING OUT:

- . Make an appointment (24 hours in advance) with your Resident Assistant or Resident Director to inspect your room.
- Remove everything from the walls, drawers, closets, and wardrobes. Take up your carpet and remove any non-Drew
- 3. Remove everything from your room and broom clean.
- 4. Be present as your RA or RD performs a complete check of your room. Review and sign the form.
- Return your keys to your hall staff.

#### IF YOU SHARE YOUR ROOM:

Please note that both roommates must be present at the time the first person checks out to determine joint charges. If roommates are not present, each roommate loses the right to ascribe damages to their roommate. Charges will not be finalized until the Resident Director performs a final check of the room once everyone has left.

# Women's lax ends challenging year

**Ron Moss** Assistant Sports Editor

The women's lacrosse season comes to a close tomorrow in a tough matchup against Franklin & Marshall College, which is currently ranked in the top 10 nationally. Franklin & Marshall will be the third nationally-ranked top 10 team Drew has faced this season. The game marks the end of the careers of senior Kelly Ahearn and senior co-captain Carrie Reilly.

This past week was a tough one for the Rangers, as they dropped games at both Gettysburg College and East Stroudsburg University. EAST STROUDSBURG 10-

Drew met up with a strong division II East Stroudsburg team and played them tough, but could not come out with a win. The Rangers played well in the first half. Junior co-captain Heather Tyndall scored two goals, and Reilly and juniors Sarah Marcus and Cara Williams each added goals in the first half as well. Drew was only down by one at the half, 6-5. However, the Rangers were only able to add goals by Tyndall and Marcus in the second half and dropped a close decision. Marcus continued on her torrid

son total to a team-leading 37 goals and 46 points. Marcus has had a tremendous season, more than doubling her career goal output. Also leading the Ranger offense this season has been Tyndall, who

offensive pace, increasing her sea-

now has 31 goals for the season.

GETTYSBURG 14—DREW 3 Drew quickly found itself overmatched by a strong Gettysburg team. Gettysburg led 9-2 at the half and cruised to a 14-3 win. Nicole Kelly on our defensive end. They Moree had five goals and three are both strong defensive players,

Sophomore Carson Colmore plays tight defense in a recent game.

assists for Gettysburg. Marcus, sophomore Carson said Colmore and first-year player Allison Lovejoy scored for the Rangers. Lovejoy's goal was the first of her career.

The women are looking to end the season with a strong showing tomorrow. Overall, the Rangers have played well this year, despite their low expectations going into the season. "We had a very young team this year," Marcus said. "Expectations grew as the season went on. Next year we will improve even greater."

"The team bonded together really well. Things came together for us at the end of the season. The people that hadn't played before improved incredibly. I give them a lot of credit. We would not have had a successful season without them," Marcus added.

Saturday's game versus Franklin & Marshall marks the end of the careers of Reilly and Ahearn. "We are going to miss both Carrie and and they will be missed," Marcus

"Carrie leads our defense," Williams said. "She will be missed. She is the core of the defense, as well as being a team leader." Both Reilly and Ahearn are four-

year players and provided important leadership on such a young team. "Kelly Ahearn has done a phenomenal job this season defending crease rolls and the arch,' Williams said.

Reilly said she has enjoyed playing with this team. "This is my favorite team out of the four years I've played," Reilly said. "The season is ending too soon ... We'd like to finish on a strong note [Satur-

"We surprised a lot of people Too many people underestimated us," Ahearn said. "It's been a long" season. We've stepped up and proved ourselves."

Ahearn said she too will miss this team. "I'm going to miss them ... There is a lot more camaraderie

### Softball misses MAC

Bill Bogardus Staff Writer

The women's softball team it went 4-3, 3-3 in six MAC

SCRANTON 11—DREW7 Drew got hit hard by the strong attack of the University of Scranton Royals on Saturday. The Royals downed the Drew squad in the first game by 10. In the second game, Drew came out ready to play and gave Scranton all they could handle. However, in the fifth inning Drew gave up six runs and was unable to recover, losing 11-7.

DREW 12—UPSALA 2 DREW 20—UPSALA 2 If Saturday was a low, Mon-

day was a high, as the Rangers crushed Upsala. In the second game, the team set a record for the most runs scored in a game with 20. They also set records for runs scored in an inning with 13 in the fourth. Sophomore pitcher Tracy Chailles picked up both victories for the Rang-

DREW 8-MANHAT-TANVILLE 3

Riding high on the Upsala victory, the team played a strong game against Manhattanville. The defense played particularly well to hold Manhattanville to only three runs.

DREW 4—KING'S 2

KING'S 4—DREW 3 Drew had two hard-fought games against the King's College Monarchs on Wednesday. In the first game, Drew gave up two runs early. However, in the top of the seventh, the Rangers showed their true grit, coming up with four runs and the victory. This was the tenth victory this season for Chailles, which is a school record. In the second game, Drew was again behind early, but first year student Alyson Eberhardt hit a home run to tie the game and send it to women's softball team should

and lost the hard-fought game.

The past week's games make the softball team's record 10-8, had a week of highs and lows as 5-7 in the MAC. The MAC playoffs are out of reach but the ECAC playoffs are still a possi-SCRANTON 12-DREW2 bility. If the Rangers can win their last three games, their record will be 13-8. This should be good enough for them to

make the ECAC's. The season so far has been one of an incredible turnaround for the Rangers. They have continued to win and are now looking to another winning season and possibly a playoff berth.

"The team has pulled together, taken responsibility, and played well. The coaching has also been very supportive," Chailles said.

As the season winds down, it has been apparent just how important the contributions of the seniors has been. Seniors Alma Molato, Samantha Hajjar, Becky Lish, Elisa Velazquez and Angela Savino have all been four-year starters. They are the nucleus of one of Drew's most successful programs the past four years. It will be tough to replace their talent and will to

that she will definitely miss softball. "I will miss the competitiveness because once it is over, I'm done," Lish said.

"I will be a little sad when it ends, since it will probably be the last time I play a competitive sport," catcher Molato said. "Since we were freshmen we were the first varsity softball team at Drew, it also makes it

special and nice." The women's softball team will have big shoes to fill next season. Many underclassmen must step up and improve their improve in the off-season, as extra innings. In the bottom of be able to continue its success.

# Men's tennis storms past King's to MAC title

Erik Robert Slagle Assistant Sports Editor

six-hour match flooded with con- Drew, Scranton and King's. troversy Wednesday afternoon official committee reviewed the morning, they received the news: out on the courts in the first-seed champs. It marked the first time in four years that Drew was able to get past King's and into the play-

DREW 6-KING'S 3

The weather matched the tennis played on Wednesday. The match began outside, but was moved in-doors due to thunderstorms. The conference title came down to the last two matches of the day. Drew held a 4-3 lead, but due to a division technicality, needed a 6-3 win to claim the crown.

Senior co-captain Tim Morita and first-year student Andy Yenawine, paired up at second doubles, took the first set of their match 6-2, lost the second set 1-6 and battled back to a 7-5 victory in

The King's coach protested several of the Rangers' line calls but declined an offer to invite his own judge, continuing to loudly complain along with his players.

In a must-win match, Milbank made a last minute lineup change, teaming first-year student Haim Dubitzky with junior James Orefice at third doubles. It was a combination that had played together just once before and had lost. They dropped the first set 3-6, came back with a strong 6-2 win in the second

# Baseball team's MAC playoff hopes dashed in doubleheader

Erin Garofano Staff Writer

The baseball team was hoping to continue their season at least another week with post-season play, but this past week of play has put that out of reach. The Rangers and the five graduating seniors on the squad will face Delaware Valley College in their final conference games of the season this week-

#### WILKES 4—DREW 2

As the Rangers traveled to Wilkes-Barre, PA last Saturday, thoughts of a Middle Atlantic Conference playoff championship were on their minds.

However, because of the pitching of Wilkes College ace Bill Noone, the Rangers were cut short of their intentions. Junior Pete Arthur, senior Chris Waack and junior Neil Manning collected the only hits for Drew. Manning belted a triple in the second to score Waack, but the rest of the Drew lineup remained silent. Wilkes picked up three runs in the first and one in the fifth en route to their seventh win in the MAC

#### WILKES 12—DREW 4

Manning stayed hot, going two for three with two singles to lead the Rangers at the plate in the second game of the doubleheader. Sophomores Dave Yorke and Dan Pierce, Arthur and senior John Simpson each supplied an RBI in the Rangers' effort.

The loss dropped Drew to 6-4 in the MAC.

#### DREW 12—ALBRIGHT 11

The Rangers were down 8-2 by the fourth inning, and 10-5 at the end of the fifth. In the top of the sixth, the Rangers answered with six runs to Albright's one, tying the score at 11. Drew then col-

lected one more run in the seventh to win the game. Yorke hit three times in six at bats, including a double and his first career home run, for five RBI. Pierce also had a fine day for the Rangers, going four for five and almost hitting for the cycle, missing it by a home run. Manning also hit his first roundtripper of the season. Junior Eric Bossdorf picked up his first win of the season giving him a 1-2 record, with Arthur earning the save.

#### MANHATTANVILLE 12-

As the Rangers were downed by Manhattanville College, Pierce, Waack and junior Joe Quinty all put on fine performances at the plate and on the basepaths for Drew. Pierce went two for three, while Quinty smacked two doubles. Waack came up big with a seventh inning four-bagger for three RBI. Pierce and Waack also ended up with a stolen base, coming on a double steal, with Waack scoring on the play.

Pierce has come out of an early season slump and is boasting the team's fourth-highest batting average, at .321.

"I feel comfortable now. I'm seeing the ball better. [Senior] Jason [Kroll] helped me out and told me to relax and not grip the bat so tightly. I think his advice has helped not only physically, but mentally as well," Pierce said.

#### TRENTON STATE 10-DREW 1

Team captain Kroll smacked a solo home run in the bottom of the first to put Drew ahead of nationally seventh-ranked Trenton State College. Waack also collected two hits in this outing. The Rangers fell to 11-16 with the loss.

"Despite our record, this is a very good team, as we've shown through our great run at a MAC playoff position," Waack said.

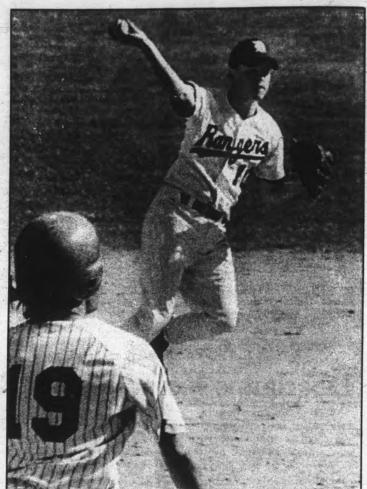

The Rangers next face Bloomfield College at home today at 3:30 p.m. The Rangers are looking to avenge the beating Bloomfield imposed on them late last season. Tomorrow, Delaware Valley comes to Drew for a 12:30 matchup for the final conference games of the season.

At this point in the season, with three games left to go, Kroll is ending his final year at Drew atop the Rangers statistics. Kroll is hitting .367 this season, ending his career at Drew with a .313 average, 103 hits (tying him for third on the all-time hits list) and 61

After starting at third base during his first two seasons at Drew, Kroll moved behind the plate to fill a gap in the Ranger lineup. He proved to be a true team leader and an excellent player. Kroll transferred to Drew from St. Joseph's University in Philadelphia in time for his second semester. As a sophomore, Kroll was elected MVP of the team.

Simpson also turned in a fine performance in the outfield for the Rangers. Considered one of the finest centerfielders in the MAC. Simpson overcame a recurring shoulder injury this season to put in quality time and get excellent results for Drew over the past four years. He has played without an error in 55 consecutive games over 3 seasons. Simpson ends his career at Drew batting .270, with a .984 fielding percentage and 21 stolen

He is positive about the future of the baseball team after his graduation. "I know that the younger guys coming up are going to be winners because they are hard-nosed ball

Sophomore Paul Flannery makes a defensive play against NJIT recently. The Rangers still have three gamesleft in the regular season.

players and a great bunch of guys," Simpson said.

Senior Chapman Sharp will also be leaving the Ranger outfield due to graduation. The left fielder turned in his finest season performance as a junior during the 1993 season, hitting .341 and sending 18 runners across the plate. Sharp concludes his final season with a .967 fielding percentage.

"I've had a great four years on and off the baseball field at Drew. I've really enjoyed playing with this group of seniors," Sharp said. "I was really disappointed with my final season, but was very pleased with my output during my junior

Waack leaves second base this season yielding a .944 fielding percentage with 54 assists and 63 putouts to his credit. Waack's career ends with 38 hits and 19 RBI.

"I've really had a great time with the [other four] seniors on the team," Waack said. "It will be tough to replace athletics in my life and I'll always have fond memories of Drew.'

Waack is possibly heading off to Sweden this summer to join ex-teammate Rob Denkin (C'93)

See BASEBALL, page 14

#### Men's lax wins MAC, looks to champs

Juliette Gaffney

Sports Editor

Heading into the ECAC playoffs, the men's lacrosse team is feeling a touch of deja vu. Last year they entered the tournament as the second seed, as they will be doing this year. Last year they went on to upset first-ranked Kean College. This year's squad is hoping to do the same thing to first-ranked Montclair State.

#### DREW 15-FDU-MADI-SON 3

Travelling down the road to their cross-town rivals, FDU-Madison, Drew faced a team that is still ahead in their overall series 7-4. Wednesday the Rangers made it 7-5. Ending their season with a win of such a large margin has its advantages. It also has its disadvan-

"The team knows when they play well," head coach Tom Leanos said. "I judge it on the number of assists there are." A game consisting of 12-13 goals is generally considered well-played, he said. However, Leanos does stress that each year the team must set new goals.

After a 45-minute rain delay, the teams took the field and the Rangers went into action, making quick work of FDU. Shutting the Jersey Devils out of the scoring for the first period, senior Dave Newman began the scoring at 11:44, assisted by senior Brian Fernandez. He was followed by

Amos Blinder at 9:02. At 5:07, sophomore Pablo Galesi scored from sophomore Chris Blewett and 11 seconds later, Blewett turned around to score his own goal, assisted by senior Mike Clark. Rounding out the quarter was senior Alex Previdi, scoring unassisted at :27.

The Rangers continued to keep the ball at FDU's end of the field for the rest of the game, allowing only three goals to pass into their goal during the entire game.

In the second period the scoring was even, with Previdi scoring one from Loos and FDU scoring one, both early in the period, with no other scoring. In the third period the Rangers opened up the scoring again with Previdi. FDU then scored, but was answered by five Drew goals. Scoring for Drew were Blinder with three, Previdi and Newman. FDU finished the quarter with one last goal, which was also their last goal of the game.

First-year student Greg Colonna

came in for the final quarter in goal and recorded the first shutout period of his career. Scoring the final period for the Rangers were Fernandez and sophomore Josh Elboim from first-year student Michael Barstis.

The game was "emotionally up and down," Leanos said. "We started slow," but players were able to respond and pick up the pace of the game and put the pressure of their opponents.

With the win over FDU, Drew

rounded up their regular season of play with a 4-0 record in the Middle Atlantic Conference Freedom League, bringing home the championship.

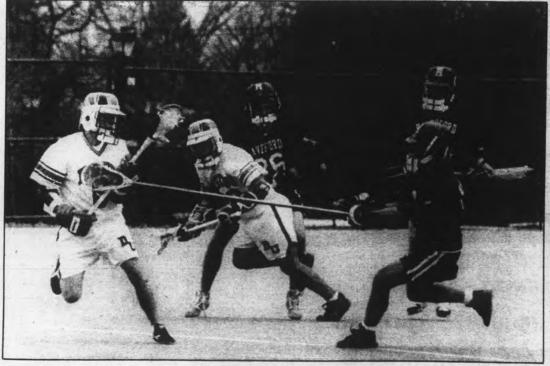

#### **DREW 8 - SCRANTON 7**

Drew travelled to the University of Scranton last Saturday knowing they would be facing a tough opponent, so when they jumped out to a 6-2 lead at the end of the first half the team only hoped that the second half would be so easy. Unfortunately for the Rangers it was the Scranton team that woke up and got back into the game, winning the third and fourth quarers and sending the overtime.

Even though it was Drew who dominated the scoreboard for the first two quarters, the first quarter only saw one goal. That one was made by Newman, assisted by Clark at 5:39.

The seniors, wanting to make a mark in their final two games, dominated the second period, outscoring Scranton 5-2. Fernandez began the quarter at 13:52 with an unassisted goal, followed less than 20 seconds later by Newman from sophomore Don Cabana at 13:36. Following Scranton's two goals, Drew put three more past the opposing goalie. Loos, Previdi from Fernandez, and Fernandez from Blinder all scored respectively.

In the third period the Rangers experienced something new. They See MEN'S LAX, page 15
