

# DR. WOOLLEY'S

## COMPOUND

# Anti-Bilious or Liver

**TO PATIENTS:**—I have found that in most cases affected by the Whisky Habit, there is a deranged condition of the Stomach, Liver and requiring other medicines than my Antidote to act more directly on these organs, Liver, etc. It is difficult for the family physician to prescribe for these troubles intelligently for patients using my Remedy, not knowing its contents. I have prepared the above Pill, which all of my patients can use with impunity—one box of which I send with the first supply of Antidote free of charge. It will be well for you to keep a supply of them on hand, as the cost will be but little, and you will derive much benefit from them.

These Pills are purely vegetable, contain no opium, but act well upon the liver. Will give relief to diseases caused by engorged or torpid Liver, Constipated Bowels, Indigestion, etc., such as Headaches, Jaundice, Chills and Fever, Biliousness, and many forms of Neuralgia and Rheumatism. In many cases of scant or painful menstruation, they give great relief by aiding nature in its work. They are a superior Family Medicine, and can be taken by any one in from ONE TO THREE PILLS at a dose, as may be required to move the bowels freely. Ordinarily they will act best by taking two at night, and if they do not move the bowels after eating breakfast, take one more. After a healthy action take only one at night before going to bed until you are relieved. Price, 25c. a box. Liberal discount to the trade.
