

Mt. Tabor as a Summer Resort.

Mount Tabor is nestled in the mountainous district of Northern New Jersey, about thirty-five miles from New York, on the Delaware, Lackawanna, and Western R. R. The elevation which provides summer homes for about one hundred and fifty families, is itself surrounded by blue ranges of mountains. It is six hundred feet above the sea level, and the altitude of the mountain, at the foot of which stands the depot, is eight hundred feet. The area of land owned by the corporation covers one hundred and twenty-eight acres. The natural scenery is such as commands the admiration of all who are stirred by the beauties of nature. The moment the place is reached and one is shut out from the furor of the busy world, there comes an inward feeling of repose, magically produced by the outward visible repose. As this quality is instinctively felt and seen when looking upon a work of art, so also we find that this spot of earth received some master-strokes from the hand of the Great Sculptor of worlds. We take our ideas of fearfulness and sublimity alternately from the mountains and the sea. The sea-wave is devouring and terrible, but the silent wave of the blue mountains is lifted toward heaven in perpetual mercy. It is from the fact that Mount Tabor is in the midst of mountains that we claim its healthfulness. It is well known that mountains maintain a constant change in the currents of the air, and wherever we find an abundance of trees, as there are in the forests of this district, the physical troubles met with in malarial lowlands are not found. If there be a chance influence of this order, it is soon destroyed by the strong air, which is overcharged with oxygen constantly exhaled by the trees through their myriads of leaves.

These are considerations which are not of a secondary nature. The statement that sea-air is more invigorating because it is stronger, is a fallacy. A distinguished physician of Europe has recently made a comparative study of this matter, and after a protracted scientific investigation, concludes in favor of the mountain, claiming that convalescents gain strength more rapidly and surely than upon the ocean shore.

The natural advantages of the place led the Newark Conference at first to select it for their Annual Camp Meeting; and subsequently the many families to select it as their summer home. The rapidity with which the cottages have multiplied during the last seven years, shows that the place offers advantages not to be found elsewhere. Upon a farm belonging to the Association, about half a mile distant, a spring pours forth an inexhaustible supply of pure water, which is conducted through iron pipes into a large reservoir at the top of the hill, upon the slope of which rests the little city in the woods. From the reservoir the water is distributed over the grounds through iron pipes, and finds its way into many of the cottages. The chestnut grove, through which the principal streets are laid, is young in growth, and each succeeding year shows a marked increase in development and luxuriance. Around the reservoir a park has been laid out. This is rapidly becoming the most popular and desirable part of the grounds. A number of residents have purchased lots a short distance from their homes, and have provided accommodations for their horses and carriages. The fine drives which are to be found in the vicinity are sufficiently tempting to induce many to keep their horses here.

Probably the most attractive feature of the place is the society. The culture and refinement found here are such that the most fastidious may be suited, some of the best families in the State being represented. The young people who are not few in number, with their sociability and genial manners, are always ready to make newcomers feel free in the society of the place and at home.

In 1878, an organization was effected by the young people, with the purpose of more easily accomplishing the foregoing result, and furthermore to provide, during the Summer, occasional entertainment and sociables. These diversions have thus far proved popular as well as successful. The resources of musical and literary talent have not as yet been exhausted, and are not likely to be. In speaking of the society of Mount Tabor, we would not overlook the fact that there are many delightful old people here.

Many channels of pleasure are to be found. A few there are who wander off in solitude, choosing rather to be alone with nature than to mingle in social intercourse. Some will study the flora of the mountain, while others manifest their taste for entomology by returning home laden with insectivorous life. Others still form themselves into archery clubs and croquet parties, attracting many to witness their skillful performances on the playgrounds.

Thus the picture of Mount Tabor has presented itself to the writer. It is not necessary to multiply words further upon its desirability as a Summer resort. Each succeeding year shows a marked increase in the population. Those who once come are sure to return; and considering, finally, that the cost of living is reduced to the minimum, we do not hesitate to advise all to "escape to the mountains."

Work in the Various Districts.

PATERSON DISTRICT.
The present Conference year opens well in the Paterson District. A new and beautiful parsonage has been purchased at Stanhope, of the Furnace Co. It is located on the main street. The building and lot originally cost \$5,000. It will be fitted up for the present pastor, Rev. S. R. Doolittle, and will make a comfortable home for the pastor and his successors.

The new church at Mountain-View, dedicated in February last, has already been blessed with a revival. At the last accounts some fifteen persons had professed religion.
The new church at Hainsburg, near Delaware Water Gap, is enclosed and the spire raised. It will be a perfect gem of church architecture, with a basement above ground. It will be ready for dedication some time this summer.
Thus far there has been a slight increase in the salaries of the preachers and everything indicates a year of great prosperity.

JERSEY CITY DISTRICT.
The Convention held in Jersey City on May 14th and 15th, was pronounced the most enjoyable and profitable affair of the kind ever held on the District. Ministers from all sections were in attendance and the various papers read and discussions entered into were prolific of thought and interest. Our excellent Presiding elder, Rev. Alexander Craig, has shown rare executive ability in his Quarterly Conferences and his arranging for such Conventions as the one recently held in Jersey City is very much appreciated by the ministers on his district. A marked improvement has taken place in many charges. The benevolent collections are being well looked after and many of the churches are making advances this year in the salaries of the pastors. Quite a number are engaged in new building enterprises—notably Centenary, Lafayette and Grace churches in Jersey City. The former under the pastorate of Rev. C. Barnes have improved their edifice at an outlay of some \$10,000; Lafayette are contemplating building a new church and have already \$13,000 pledged. They are asking for about \$5,000 more; as soon as this is secured the work will go on. Their energetic pastor Rev. Jno. A. Munroe has entered upon his third year and we would recommend this church to hurry matters a little in order that their excellent pastor may have the satisfaction of completing this work before leaving them. Grace Church have commenced to build their new church in the slightly location on Tonelle Avenue, just at the point of intersection where the new boulevard is expected to cross that avenue. They have bought and paid for four lots and have more than half the money already in hand towards the new church. The edifice will be one of the prettiest in the city and will be dedicated free of debt. They also intend to build a parsonage. Trinity Church under the pastorate of Dr. Spellmeyer is fruitful of good works and this mother church of Methodism in Jersey City sets an example that her children may well strive to emulate. A very nice new church has been erected at Stony Point during the pastorate of Rev. E. V. King and improvements are going on in many other places at all of which the energetic Presiding Elder is keeping a watchful eye, not only insisting upon provision being made to pay for these things but in many cases taking an active part in helping the weaker ones to raise the money. We are glad to learn that a large number of the preachers with their families are intending to make their home at Mount Tabor this summer. They will be welcome and it is to be hoped they will be strengthened in body and spirit and impart unto others while here some of the spirit and enterprise they are manifesting at home.

There was an increase during the year of some \$3,000 in the benevolent collections, and the financial support of the Church generally was also gratifying. A very large number were also added to the church by the blessing of God.

The Architects of Mt. Tabor.
The immense work done upon Mt. Tabor by the various Boards of Trustees is purely a labor of love, wrought with Christian zeal and done in the Master's service—without fee or reward of any sort. It is the joint labor of the clergy and laity of the Newark Conference, and through it many hundreds of souls have been blessed and the cause of Christ strengthened throughout the Church.
But how wonderfully have their responsibilities multiplied! Originally detailed by the Conference to conduct a mid-summer Camp Meeting of a few days in some convenient grove, our efficient and esteemed President suddenly finds himself the "Mayor" of a large and thriving City, and his associates of the Board of Trustees the active and faithful "Aldermen" who with singleness of purpose aim to provide the greatest good to the great number who congregate on Tabor, a willing "constituency."
Instead of conducting the affairs of a Camp ground, they legislate for a gem of a City, whose streets are lined with superb cottages that are supplied with the purest of spring water by a perfect

aqueduct system, and, whose occupants from April to November throw open their doors and windows to the light that streams through forest trees. It of course necessitates the presence of the Trustees on the grounds from early in the season to late in the fall, and during the winter months they must see to the gathering of an immense harvest of ice besides securing other necessary supplies. Then in the spring and fall the greater part of the surface improvements, grading, laying out and constructing new avenues, the excavations incident to re-placing small aqueduct pipes with those of larger capacity where the increased growth of the town demands it, maintaining a fine system of underground and surface drainage, and a hundred and one matters incident to the comfort of cottagers all increase the responsibility and augment the labors of these unselfish gentlemen to whom we owe so much.

Miss Frances E. Willard of Chicago, one of the most able, brilliant and effective female orators of the country, Miss Downs of Ocean Grove, Mrs. Ellis of Flemington, and several other popular speakers are expected at the Temperance Convention to be held at Mount Tabor just prior to the regular Camp Meeting.

OFFICE AND RESIDENCE:
No. 6 West Park Street,
Newark, N. J.

Dentistry in all its Branches.
GAS ADMINISTERED.
Beautiful Sets of Artificial Teeth mounted on all known bases and at as reasonable rates as first-class work can be produced.

Solid Facts About

1st. We have used it for twelve years.
2nd. It is a higher grade and giving better satisfaction to day than ever before.
3rd. No other brand has stood this test.
4th. We are connected directly with the Mill and control one third of the product.
5th. The capacity of the Mill is 550 barrels per day.

THE RESULT IS:
1st. We do not have to get out new brands because the old one gets "played out."
2d. We are prepared to risk our reputation on the statement that we have the finest and most uniform flour on the market for the price and we still call its name "COMMERCE."
3rd. Being connected with the Mill we are determined to sell it at such a price as will make it popular, and while the grade will be high the price will be low.
Try it and be convinced. Satisfaction guaranteed or money refunded.

TO THE LADIES.
Goodale's White Rose Toilet powder contains nothing but that which is beneficial to the skin, and acts like magic in removing Tan, Freckles, warts, Patches and curing Eruptions of the Skin without injuring the most delicate complexion. It is perfectly harmless, and while it greatly beautifies the complexion, unlike all others, its use cannot be detected when used according to the directions accompanying each box. The subscriber, a Druggist of long experience, confidently presents it to the public as the best and only Toilet Powder the use of which cannot be detected, while it is superior to all others as a Beautifier of the Complexion. Read what a French Physician and Chemist says:
DOVER, N. J., October 1st, 1878.
Having tested Goodale's Rose Toilet Powder, I find it contains no lead or other poisonous substance.

An additional subscription given with each Club of ten, (\$3.00). Address all communications: "BANNER" OFFICE, Morristown, N. J. Entered as second class (mail) matter at the Post Office, Morristown, N. J. Morristown, N. J., June 1, 1883.

Mount Tabor is 709 feet above sea level! The figures are according to the Geological Survey of this State.

The New York morning papers are delivered upon Mount Tabor early—by 9 o'clock.

Miss Josephine Burnet, of Denville, will be the operator in the Telegraph office this year.

There is a great deal of inquiry for cottages to rent and the best are in great demand.

The Young People's Association of Mt. Tabor expect to hold several public entertainments during the season.

Mt. Tabor knows no such trouble as "Malarial fever." Pure water, pure air and a pure society are its attractions.

Have you the chills, and do you wish to "shake" them? Go to Mt. Tabor and a season of its pure air will effect a permanent cure.

While Mt. Tabor affords pure mountain air it is not too strong for the invalid with weak lungs. Its effect is soothing and grateful.

The Treasurer's report read at the meeting of the trustees, held on May 16, presented a very satisfactory condition of the finances of Mount Tabor.

The Young People's meeting every afternoon at 6 P. M. have always been a prominent feature at Mount Tabor. As heretofore, Rev. D. R. Lowrie will lead them.

Parties who may desire to obtain any information in reference to purchasing lots should write to the President or Secretary, or see them at their cottages on the grounds.

The annual meeting of the lot owners for the election of four Trustees to take the place of the four whose terms expire, will be held on the grounds August 13th at 1 P. M.

The religious services this season will be in charge of the committee appointed by the Conference, Rev. J. H. Knowles, Presiding Elder of Newark District, and Rev. D. R. Lowrie, of Bloomfield, N. J.

The store at Mt. Tabor was opened this year by Mr. Henry E. Amelung on the first of May with a well assorted stock of fine groceries. It will be kept open for a month or two later in the season than heretofore.

Mt. Tabor is a perfect asylum for children. Here they may romp in the open air the livelong day, gathering wildwood flowers and mosses free from street dangers or the diseases that foul air, bad water and dangerous associates engender.

Much of the success of Mount Tabor is due to the hearty co-operation of Mr. Andrew Reasoner, the kind and friendly superintendent of the railroad, who has at all times shown an interest in the efforts of the Trustees, to make Mount Tabor what it is.

While there is an abundance of shade on Mount Tabor it is not so dense that the ground is wet and unhealthy. By the judicious removal of some of the trees those that remain are given more room to spread out at the top and the "woods" are thus formed into a "grove."

The Bible readings of Rev. Mrs. J. H. Knowles last year were most precious seasons to the students of God's Word. Mrs. Knowles has kindly consented to hold a daily Bible reading during the coming camp meeting. Bring your Bibles to Mount Tabor, and enjoy the blessed hours of Bible study.

The residents of Mount Tabor are not driven to their verandas or heavily shaded rooms for protection from the summer sun, but a favorite manner of passing the warmer parts of the day and evening is by swinging beneath the trees in the cool and graceful hammock or "camping out" in the comfortable veranda chair or "old fashioned rocker."

The young people's park, laid out into Tennis courts, archery fields, croquet and quoit grounds is a favorite resort of the young and will rapidly grow in favor. The sights there witnessed will not vie with the royal events that occurred on the "Field of the Cloth of Gold," but for health-giving exercise and pure and unalloyed pleasure secured to the young of both sexes the park does excellent duty. Several hundred shade trees have been set out in the park and its immediate neighborhood during the years past and now neat walks and tasteful flower beds are projected. It will in time make one of the loveliest spots on the Mt. as well as being its "sanitarium."

The building at the head of the grounds, formerly used as the Post Office Building, is to be taken for the Treasurer's office and baggage express room. The Post office will be removed to the book store opposite. The Post office is open the year around, Mr. E. B. Earle being Post-master, and his daughter Carrie, assistant. Four mails are received daily, two East and two West.

Mails arrive from New York and intermediate stations at 9:15 A. M. and 5:15 P. M. From Easton and intermediate stations at 8:15 A. M. and 3:15 P. M. Mails close for New York and all points East at 7:45 A. M. and 2:45 P. M., and for all points West of Tabor at 8:45 A. M. and 4:45 P. M.

The telegraph office will be open from the middle of June to the middle of September. All mail matter should be addressed to Tabor, Morris County, N. J., (that being the name by which it is known to the Post Office Department), and telegrams should be addressed to Mount Tabor.

Musical Department.

An especial feature of the camp meeting will be the presence of a large and well organized choir. The members of the choir are among the finest singers within the bounds of our conference. They will be under the leadership of Prof. C. M. Fisher of New York. Prof. Fisher is considered one of the very finest cornet players of sacred music.

The members of the large choir are worthy of all commendation for their services in the past. They give their time and talents free of all charge, and for their devotion to the department of sacred song add very much to the interest and success of the camp meeting. All honor to our choir.

Woman's Holiness Camp Meeting.

Will be held as usual at Mount Tabor, N. J., commencing August 21st 1883, and to continue one week; to which all are invited, both women and men, without respect to denominational lines.

Our objects are briefly these:
1st. Motto, Holiness to the Lord.
2d. To encourage the entire consecration of Christian's soul, body and spirit in a perpetual covenant unto the Lord.

3d. To pray for the full endowment of power through the cleansing blood of Christ, and the sanctifying of the Holy Ghost.

4th. To pray and labour for the conversion of sinners who may be on the ground, and for absent ones who may be made special subjects of prayer.

We shall give full recognition of the fact, that love is the bond of perfectness, a bond that excludes all denunciatory utterances in regard to ministers or others, and is inflexible in its opposition to all phases of fanaticism.

Camp Tabor is in New Jersey, situated on the line of the Delaware, Lackawanna and Western Railroad, about thirty miles from N. Y., and twenty from Newark. The ground is accessible from all parts of the country by numerous trains. Board can be had with lodging for six dollars per week, and without lodging for five dollars. Tents will be furnished at the following prices:—14x14 ft. \$10; 12x12 ft. \$8, 10 x 10 ft. \$6. Those desiring to secure tents should apply to Elisha Earl on the ground.

I will give a Superb Building Lot and allow
A CHOICE OUT OF
46 FINE PLOTS!

to any person who will erect upon it a dwelling worth \$3,000.

None of these lots require grading, they lay right OPPOSITE THE MORRIS PLAINS DEPOT, and are first-class in every particular.

Fine Building Lots

FOR SALE.

The tract is regularly laid out, the lots being 50 feet front by about 225 feet deep, and none of them require the expense of grading. They lay on the finest part of Morris Plains—handy to the depot, post office, stores, churches, schools, &c.

These lots embrace five times the number of square feet, or are five times larger than a city lot. They are laid out on an avenue 60 feet wide, and for parties desiring a comfortable home in a healthy locality and at a moderate cost they offer superior advantages. The water is of the best, and there is an abundance of it. Fast trains to New York City and every facility of that sort. All trains stop at Morris Plains.

ING A SPECIALTY, 167 MARKET STREET, NEAR BROAD, NEWARK, N. J.

Building at Mount Tabor.

In the line of building many improvements have been made since our advance issue last year. Some of the latest of which we will notice.

In passing through the various avenues it will be observed that by the great variety of designs and various styles of painting, all monotony is avoided, and the eye is continually attracted by the fine architectural appearance of the buildings on every hand.

Our beautifully shaded avenues permit any style of building desired, while in many places of Summer resort wide balconies or verandahs are a necessity as a shield from the sun, no matter how much they may mar the general appearance.

Mr. Cronham, of Jersey City, has built a neat and attractive cottage on West Hedding Place. This cottage presents in the color of paint and style of trimmings a wide contrast from any here. Still it looks as cool as a cucumber and has been much admired.

The Rev. James Montgomery, of Newark, has a happy blending of convenience and comfort in his new and splendidly located cottage on St. John's Avenue, near St. James' Park. From the wide and lengthy balconies of this cottage a magnificent landscape view may be obtained. The cottage has all of the modern improvements.

One of the finest cottages here has just been finished for Mr. Joseph Bates, of Brooklyn. It has all the modern improvements and the best of material, in fact the contract specified that every thing should be first-class. It is located on St. John's Avenue, corner Straw-bridge, and by its location commands a fine view that can never be obstructed. In architectural appearance it is a perfect beauty.

Another first-class cottage is now being built near the Rev. Mr. Montgomery, on St. John's Avenue, for Mr. D. A. Barnes, of Paterson. Many are impatiently awaiting the completion of this cottage, as it is claimed that it will be one of the very finest here. From the rear balcony as fine a view may be had as it is possible to secure on any portion of the grounds. One of the grandest sights any one need wish, will be to witness a bright moonlight scene from this balcony.

A splendid cottage in design, varying from any of the others, is being built for the Rev. Mr. Thompson, of Grace Church, Brooklyn. It fronts on St. James' Park, and will have a neat tower on the east side from which a view may be had of the same varied landscape scenery to which allusion has already been made.

Dr. Perkins, of Newark, has improved his cottage by the addition of a wing on the south side. Dr. J. W. Stickle, also of Newark, is making various improvements to his cottage on Trinity Park.

A cottage on Asbury Place, corner of West Pass, belonging to Mrs. Harriet Fisher, of Jersey City, has been much improved by the addition of a balcony. It has also been newly painted and looks very neat indeed.

A cottage for Mr. Harper is contracted for but not yet commenced. It is to be completed on St. John's Avenue by the tenth of July.

Many places have been remodeled, and of the new cottages, a much better class, and consequently more expensive ones, are being built each year.

The cottage of Richard Grant, Esq., of Jersey City, has just been re-painted and his grounds about the house are being enclosed by an evergreen hedge.

The carpenters and painters are having busy times here and the demand for them has for some time been greater than the supply.

"Eastward the tide of empire takes its flight"—that is to say to the east side of Mt. Tabor, where just now some of the finest dwellings are being erected. But the builders must go somewhere and as the Circle is about encircled with beautiful cottages, and the lower part of the grounds well filled, St. James Park and the fine avenues in its neighborhood naturally attract attention. Each year witnesses an increase in the size and value of the improvements erected on Mt. Tabor and from the substantial beauty of those about St. John's Avenue and the Park we judge the proprietor's, having "gone East," intend to remain and "grow up with the country." This section embraces the highest ground of Mt. Tabor and by the building of fine roads and avenues it is brought very near to the depot.

While many new cottages are being erected on St. James Park and in that neighborhood the grounds contiguous to Trinity Park are still a favorite location and property there holds its valuation and is increasing from year to year. From its proximity to the places of worship, depot &c.,—in fact from its central location, it is preferred by many, and every year handsome new cottages are built here and improvements to the grounds are made both by enlargements of plots, the erection of neat enclosures, &c.

D., L. & W. Railroad Time Table.

Leave New York	Leave Newark	Arrive Mount Tabor
7:30 A. M.	7:55 A. M.	9:10 A. M.
12:30 P. M.	12:45 P. M.	1:45 P. M.
4:30 P. M.	5:01 P. M.	6:06 P. M.
5:20 P. M.	5:53 P. M.	7:05 P. M.
7:45 P. M.	8:18 P. M.	9:43 P. M.
Leave Mount Tabor	Leave Newark	Arrive New York
7:14 A. M.	8:30 A. M.	9:50 A. M.
11:32 A. M.	12:49 P. M.	1:30 P. M.
3:00 P. M.	4:09 P. M.	4:40 P. M.
8:10 P. M.	7:25 P. M.	7:55 P. M.

In a few days a train will leave Mount Tabor at 7:45 A. M., arriving at New York 9:30 A. M. Additional trains are added as the season advances, and during the Camp Meetings, trains arrive and leave every hour. Excursion and strip tickets are sold at greatly reduced rates at the various depots. Commutation tickets can also be purchased for one or three months, as desired.

Warwick Natural Mineral Springs.

Nature's own remedy. Knowing that health is wealth we desire to call the attention of the public to

THE WONDERFUL WARWICK WATER

which has been demonstrated by chemical tests and the experience of numbers of invalids, who have been cured by its use, to be one of the most effectual remedies that has ever been discovered for the diseases which it is claimed to be a specific. It has proved itself to be AN UNSURPASSED REMEDY for Dyspepsia, Kidney, Liver and Urinary Complaints, Scrophula, Rheumatism, Constipation of the Bowels, Nervous and General Debility, Eruptions of the Skin, Piles, Dropsy and other chronic diseases requiring a purification of the blood. In fact it is a wonderful CHALYBEATE AND SALINE SPRING.

While it is not claimed that the water of this spring is a universal remedy, it is really remarkable to what a variety of cases it applies. No chemical analysis will ever fully reveal the secret of its curative power. But when it is considered that it contained those mineral compounds essential for the formation of the human structure, it becomes evident that one of the most important functions is to purify and enrich the blood, and thus equalize the circulation, and throw off the burden of disease.

We invite persons suffering from any of the above diseases, or who are enervated or broken down by the waste of the vital forces, to carefully examine the analysis of Professor Chandler, of New York, and also the accompanying certificate of Professor Silliman, of Yale College. COLUMBIA COLLEGE, CORNER 49th STREET AND 4th AVENUE, New York, July 7th, 1870.

CERTIFICATE OF ANALYSIS.—Six : The sample of Mineral Water from Newark, marked Warwick Spring, submitted to me for examination, contains in one wine gallon of 231 cubic inches.			
Chloride of Sodium,	13.407 grains.	Chloride Potassium,	5.400 grains.
Bromide of Sodium,	a trace.	Bicarbonate of Soda,	11.364 "
Bicarbonate of Ammonia,	18.431 "	Bicarbonate of Magnesia,	18.060 "
Bicarbonate of Lime,	41.822 "	Bicarbonate of Iron,	2.792 "
Phosphate of Soda,	0.094 "	Nitrate of Potassa,	a trace "
Alumina,	0.709 "	Silica,	0.816 "
Organic Matter,	a trace.		
Total,			112,749 grains

Carbonic Acid Gas, 101.028 cubic inches. Respectfully your obedient servant, C. F. CHANDLER, Ph. D., Professor of Analytical and Applied Chemistry.

Read the following certificate from Prof. Silliman, of Yale College. NEW HAVEN, August 3d, 1870.

I have tried the Warwick Mineral Water, so called, of Mr. Penrose, of Newark, N. J. Its chemical constitution is clearly established by Prof. Chandler's analysis to be a chalybeate and saline water of very remarkable and unusual character. Under proper advice it must prove a valuable remedial agent in a large class of cases. H. SILLIMAN, Professor of Chemistry, Yale College.

The Warwick Co. having recently purchased one of Mathew's Patent Carbonates, now prepare the water FOR TABLE USE, and claim for it a superiority over the imported waters now in such extensive use in this country, and to this fact they ask but a fair trial. PRICES: In Pint Bottles \$1 per dozen, Quarts \$1 50 per dozen. Send your orders at once. Address

Warwick Mineral Spring Company, 36 and 38 Warwick Street, Newark, N. J.

The Illustrated Mount Tabor Daily Record

Will be issued for the 10 days of Camp Meeting, commencing August 9th, and as we have improved upon each volume we trust to make the coming one even better than ever. The engravings are pronounced to be all that skillful artists can accomplish, the pen sketches are from the most prominent men in the ministry and laity, the stenographic reports can be relied upon, and the news items embrace everything of interest. Let each reader of this paper renew his or her subscription, 40 cents, at once, as delay is often caused in getting the names properly arranged on our mailing list in the hurry and bustle of the few days previous to the meetings. With your own name can you not send us four others, the five for \$1.50, or better still get us up a larger club.

SUBSCRIPTIONS.—Single Copy, Postage Free to any Address in the United States, 40 Cents. 5 Copies, 30 cents each, Postage Free to any address in the United States, \$1 50. 10 Copies or more 30 cents each, with an extra copy to each club of ten names, (\$3.00). Send for Sample Copy. Address "BANNER" OFFICE, MORRISTOWN, N. J.

SPEER'S

Communion Wine.

THE UNFERMENTED JUICE OF THE

Oporto Grape,

Preserved in its natural fresh state as it first runs from the wine press. Made expressly for the

Church Communion Table.

The Unfermented Grape Juice.

MR. SPEER, Who has vineyards of the OPORTO GRAPE at Passaic, N. J., from which he makes the celebrated PORT GRAPE WINE, has also been induced by temperance advocates and ministers of the gospel to preserve grape juice in its natural state without the addition of Spirits, and without fermentation, for the special use of such Churches where fermented wine is discarded and for medicinal use in cases where Physicians wish to get the medical properties without stimulation. The juice is preserved by extracting the ferment or yeast principal from it as it runs from the press, thereby destroying the exciter of fermentation. The Juice will keep in any climate.

ALSO, FERMENTED GRAPE JUICE OR THE PORT GRAPE WINE.

This is a Grape Wine made from dead ripe Oporto grapes. Mr. Speer raises the grapes and makes it pure, being nothing but the fermented juice of the Oporto Grape, especially for the use of Churches and Hospitals. This is the wine that is so highly recommended by Chemists, Physicians and members of the Board of Health for its purity and its valuable medicinal properties.
