

Salutatory.

We make our best bow, and proceed at once to say that the object of this little paper is twofold:

FIRST.—To give information concerning the beautiful summer resort and camp meeting grounds, "Mount Tabor," nestled on the mountain near Morristown, N. J. Its pure spring water, fine groves, splendid drives, boating and fishing on the lake, and the choice families of the place, occupying one hundred and fifty cottages, make it one of the most desirable and restful summer resorts to be found anywhere. Read the description of the place found on the first page.

SECOND.—To give notice and suggestions about the camp meeting, which begins on Thursday, Aug. 17th. And also to give some items of interest of the Christian's Ladies' Meeting which takes place at the close of the camp meeting, Aug. 29th.

THIRD.—To say that we are found in good company. Look at the goodly array of our advertisers. We do most heartily commend them to our friends. We thank them for their favors, and hope that they may have increased patronage.

Ten thousand copies of this paper are issued for gratuitous circulation. Will our ministers and friends who receive this paper, please circulate it freely among the members of their churches and thereby help on the good work the Camp Meeting Association is engaged in.

Our Camp Meeting.

We rely upon the many friends of Mount Tabor to aid us in making the Camp Meeting, Aug. 17-28, a success. How may this assistance be rendered?

FIRST.—Let us remember the meeting especially in our secret devotions and at the home altar. Pray that God will be pleased to direct the management in all things.

SECOND.—Let us, as far as possible, lay aside our earthly cares, and give as much time to the meeting as may be consistent with our ordinary engagements.

THIRD.—Let us avoid unnecessary criticism, by which so often the preaching and exhortation lose their effect upon ourselves and others.

FOURTH.—Let each Christian seek the welfare of other souls. "He that winneth souls is wise."

It is expected that the attendance of ministers this year will be unusually large. Mount Tabor is steadily growing, not alone in material prosperity, but there is a deepening religious life manifested. We feel that none can well afford to miss the soul inspiring discourses of these annual gatherings. This year it is proposed to institute a serious of doctrinal sermons, which we trust will prove of lasting benefit to all who may listen to them. Among the eminent ministers who have signified their intention to be with us are Rev. Bishop Andrews, Rev. Dr. C. H. Payne, President of Ohio Wesleyan University; Rev. Prof. Miley, Chaplin C. C. McCabe, and that chosen apostle of modern times, Rev. Wm. Taylor. Prof. Strong, of Drew Seminary, is expected to speak on the inspiration of the Scriptures at some time during the meeting. In addition to the above, other ministers of Evangelical power will unfold the precious word of life.

The camp meeting will open as last year with the Sacrament of the Lord's Supper. This holy service will occur on Wednesday evening, Aug. 16th. Rev. Bishop Andrews will preach the introductory sermon at 10:30 A. M. the following day. The special meeting before the stand at 8:30 A. M., the evening service, under the direction of Rev. D. R. Lowrie, and the daily meeting in Mrs. Fitzgerald's cottage will all be continued as in former years. Oh, that this gathering of the hosts of Israel may be memorable on account of God's display of his power to save. The years are rapidly passing. Some who worshipped with us in other days are gone. Their work on earth is accomplished. We should be preparing to follow them. May God help us so to improve this gracious opportunity that we shall make sure of that rest.

Musical Department.

An especial feature of the camp meeting will be the presence of a large and well organized choir. The members of the choir are among the finest singers within the bounds of our conference. They will be under the leadership of Prof. C. M. Fisher, of New York. Prof. Fisher is considered one of the very finest cornet players of sacred music. Dr. S. Tyng, Jr., was so well pleased with his ability that after a year's engagement he presented Prof. Fisher with an elegant silver cornet as a token of appreciation.

The members of the large choir are worthy of all commendation for their services in the past. They give their time and talents free of all charge, and

by their devotion to the department of sacred song add very much to the interest and success of the camp meeting. All honor to our choir. Dr. Stickle is the efficient chairman of the music committee.

M. S. Allison.

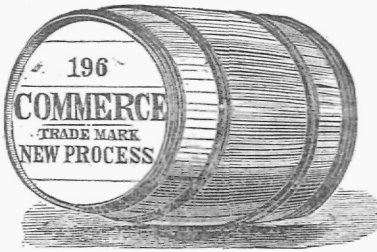

How much we missed the genial face of Brother M. S. Allison last summer on Mount Tabor. He was one of the first to buy and settle on Trinity Park. From the very first he was deeply interested in the prosperity of the Camp Meeting Association. This was shown in a very practical way the year before last in his contributing over \$1,500 toward paying off a part of the debt on the grounds of the Association. We could say much in his praise for we knew him well, he was our special friend, and not only was he our friend but also the friend of many of our ministers who knew him, but to admire his noble qualities, and to enjoy his wise counsels. We can say of Brother M. S. Allison that he was a model as a husband, father, business man, citizen and Christian.

He found victory in death and went sweeping through the gates washed in the precious blood.

May it be ours to meet again where the shadow and parting never comes. Many of the best friends of our camp ground have passed away since its organization. We, too, are passing.

Our friends will notice that during the year improvements have been made at the entrance to the grounds, a stone wall four feet high being laid for nearly 600 feet, with heavy stone pillars for gates at the entrance, and a large urn placed on each pillar. A new semi-circle walk with park in centre is being constructed, and the entire front entrance is to be made into a handsome park, with numerous beds of flowers. When completed the entrance to Mount Tabor will present a very handsome appearance.

One of the comforts of Mount Tabor is the abundant supply of pure spring water, containing medicinal properties, and always clear and cold.

FAC-SIMILE OF THE GENUINE. INTERESTING FACTS ABOUT **COMMERCE FLOUR!** We have a large number of testimonials like the following:

FREEHOLD, N. J., August, 1880. J. J. PETTIT, Esq.: DEAR SIR:—I am very much pleased with the flour purchased from you, branded Commerce. It bakes a splendid white loaf of bread, and we find it well adapted for all the requirements of a fine family flour.

HON. JOEL PARKER Ex Gov. PARSONAGE, 25 Franklin St., Newark, April 28, 1880. Messrs. Wilkinson, Gaddis & Co., Newark, N. J.: I have used the COMMERCE FLOUR, from the Orville Milling Co., with entire satisfaction. It makes a light sponge, and produces a nutritious, sweet, white bread. We wish to use no other in our family. Yours truly, A. L. BRICE, D. D.

Messrs. Wilkinson, Gaddis & Co., Newark, N. J.: GENTLEMEN—Your Commerce brand of flour has been used in my family with most satisfactory results. We get more loaves from the same quantity of flour, and whiter and more nutritious bread than from most other varieties. Yours, &c., F. B. MANDEVILLE, M. D., 940 Broad St.

DR. LOWREE'S ASTRINGENT MIXTURE FOR **DYSENTERY & DIARRHEA.**

To this inestimable preparation Dr. Lowree mainly owes his remarkable success in the treatment of Diarrhea and Dysentery. Prepared and sold only by the Proprietor,

E. D. LOWREE. BOTANIC DRUGGIST, 912 BROAD STREET, NEWARK, N. J.

N. TIBBALS & SONS, 124 Nassau St., New York, Booksellers and Stationers,

Oriental & American Stove Works!

M. V. PERKINS,

NEWARK AGENCY.

256 Market St., Bet. Mulberry and Lawrence.

THE **BRUNSWICK RANGE**

15,000 in use.

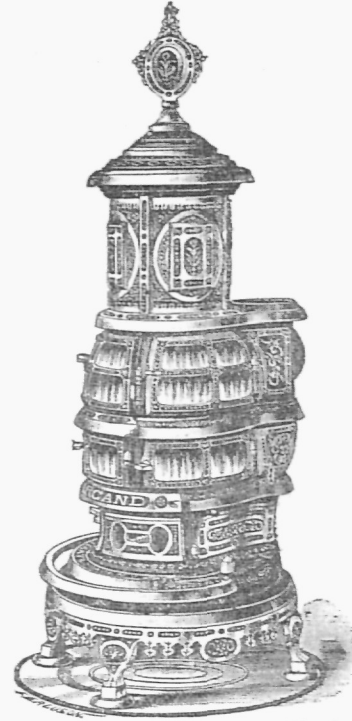

High and Low Warming Closets with Water Tank Couplings if desired.

This splendid COOKING RANGE has already gained a wide popularity. It is of beautiful and attractive design. The castings, fittings and mountings unsurpassed, and its operation unequalled. Embodied in the Brunswick for 1882 are the following special improvements:

Automatic Shelf, Clinkerless Grate, Illuminating Front, Nickel-Plated Name Plate, Nickel-plated Knobs, Ornamental Hinges, Improved Flues, Burnished Edges, Reservoir Attachment and the Top Boiling Arrangement. We guarantee the following:

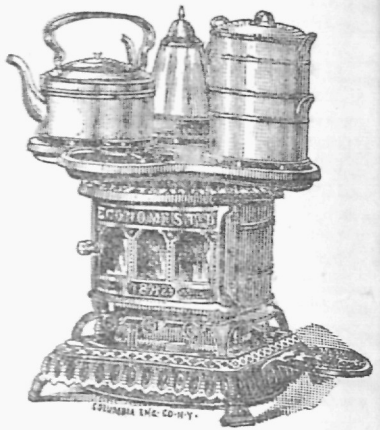

A sure baking oven, economy in the consumption of fuel, a durable structure and an effective Hot Water Reservoir.

THE **The Argand Base Burner.** 1882. A Magnificent Stove, surpassing in beauty any former construction.

The Nickel Panels that ornament the Argand are purely original in style and cannot fail to command general admiration. Every piece is so adapted as to permit the passage of a current of air between it and the case, thus protecting the nickel from the effect of the heat. The beautifully ornamented frames provided for the support of the stove, we feel confident will be greatly admired, and found more secure and convenient in use than the old-fashioned legs.

THE **ECONOMIST OIL STOVE.**

Is especially adapted for Camp Meeting use. They are absolutely safe, being constructed with the Patent Evaporating and Air Circulating Plate, which prevents the gases from being confined, and which keeps the oil in the reservoir cool. An indicator is also provided to show when the supply of oil is exhausted, and also when the reservoir is full. These stoves are constructed of cast and sheet iron, and have no soldered joints; they are made in sections, which can easily be separated for cleaning and repairs.

Baker's and Confectioners' Utensils, Ice Cream Freezers, Ice Cream Tubs, Ice Cream Bricks, Etc., Etc. Full Line of Stoves, Tin and Hollow Ware, PLUMBING, STEAM AND GAS FITTING.

 Single subscription, 40 cents.
 Clubs of five, 30 cents.
 Additional subscription given with
 each Club of ten.
 The next issue of Vol. VI. of the Record will be
 published Aug. 18th, 1882. It will be handsomely illustra-
 ted and will contain all the news of the year.
 Entered as second class (mail) matter
 at the Post Office, Morristown, N. J.
 MORRISTOWN, N. J., June 23, 1882.

Mount Tabor Notes.

Next year it is hoped there will be a
 hotel erected on the hill.
 Mr. Thos. James is domiciled in his
 cottage on the hill for the summer.
 Mr. F. A. Wilkinson has sold one of
 his cottages during the year.
 For pure mountain air, good water,
 and excellent health go to Mount Ta-
 bor.
 Rev. D. R. Lowrie expects to occupy
 his "cottage tent," on the circle, about
 the first of July.
 The post office and telegraph office
 will open at an earlier date than usual
 this year.
 About forty families are now located
 on Mount Tabor, and others are arriv-
 ing daily.
 From July 8 to Sept 13 last year
 nearly 6,000 letters were mailed from
 Mount Tabor.
 Wood, coal and ice can be purchased
 on the grounds at low rates from the
 depot.
 The season at Mount Tabor this year
 will commence early, and close about
 September 15th.
 Parties who may lose any articles
 of value while on the grounds, may
 report them at the office.
 Residents arrived earlier this year
 than heretofore notwithstanding the
 heat of the Spring.
 The depot is a lively place during the
 height of the season, when friends go
 to welcome their visitors.
 The Police Committee propose to
 look sharply after the "small boy,"
 who is always making trouble.
 The pure spring water at Mount Ta-
 bor, while it is "not as rich as Passaic
 water," is far more beneficial in its ef-
 fects.
 Next year it is expected that a row
 of fine shade trees will be planted
 along the road from the depot to the
 entrance to the grounds.
 Mr. David Wiggins, of Bethlehem,
 Pa., is building a new cottage on
 Fletcher Place and Simpson avenue.
 Mr. Mattox is the builder.
 The new cottage of Mr. F. W. Cool-
 idge, on Boehm avenue and Shaw
 place, is very handsome and an im-
 provement to that vicinity.
 The Treasurer's report read at the
 meeting of the trustees, held on June
 15th, presented a very satisfactory condi-
 tion of the finances of Mount Tabor.
 During the camp meeting services
 of last year, nearly three thousand per-
 sons were on the grounds each day,
 and on the Sabbaths over five thou-
 sand.
 A literary and musical festival will be
 held on the grounds by the Young
 People's Association, commencing
 three days before the regular camp
 meeting services.
 Parties who may desire to obtain
 information in reference to purchas-
 ing lots should write to the Presi-
 dent or Secretary, or see them at their
 cottages on the grounds.
 Mr. J. H. Hahn, the proprietor of a
 large market in Newark, has rented the
 lot at Market at Mount Tabor, and will
 supply those on the ground during the
 season with fresh meats at low prices.
 The Mount Tabor House this season
 is kept by Mr. George A. Blanchard,
 of Dover, N. J., formerly proprie-
 tor of the Stickle House, who fully un-
 derstands how to "keep a hotel." The
 house will be low.
 Mr. J. M. Tuttle, one of the original
 trustees of Mount Tabor, and a veteran
 of the camp meetings, is on the grounds.
 He is also one of the most highly es-
 teemed members of the Newark Con-
 ference, and is enjoying his old age.
 Mr. Henry E. Amelung, of the well-
 known grocery firm of Amelung Bros.,
 of Brooklyn, has rented the store at
 Mount Tabor, which he has already
 supplied with a large stock of groceries.
 The milk can also be purchased at the
 depot.
 Mr. S. M. Mattox, of Rockaway,
 whose card appears in another column,
 has built a large number of cottages at
 Mount Tabor. In every instance the
 work has been satisfactory, and we can
 heartily recommend him to those con-
 sidering building.
 The new market site, which has been
 located on Simpson avenue, near the
 depot entrance to the grounds, affords
 a sufficient room for the neighbor-
 ing farmers to bring in their fresh pro-
 duce, and the residents a suitable place
 to purchase their marketing.

**THE NEW YORK
 Life Insurance Co.,**
 346 and 348 Broadway,
 NEW YORK.
 MORRIS FRANKLIN, President.
 WILLIAM H. BEERS, Vice-President.
 1845. 1882.

**37 Year's Business Experience
 Purely Mutual!
 Annual Dividends!**

ASSETS, Jan. 1st, 1882, \$47,000,000 00
 SURPLUS, " " " " 10,000,000 00

Paul says, "The parents ought to lay up
 for the children." He makes it a moral duty,
 he puts an ought in it. Now, some men can
 lay up but little—not enough to provide for
 the children long, if they themselves should
 be taken away before the children are able to
 provide for themselves. But the same consid-
 eration that makes it a man's duty to lay up
 money for his children at all, makes it his duty
 to lay it up in such way as will make it most
 beneficial to them. That is the reason why so
 many men ought to get their lives insured—
 why it is a matter of duty. They have not
 enough property to make their families comfort-
 able were they to die now; were they to die
 any time before their children are grown they
 would not have enough; but by putting a part
 of what they can save every year into life in-
 surance, they can be sure of leaving them com-
 fortable.

The New York Life Insurance Company has
 paid over twenty-four million dollars in death
 claims.

I know of two beautiful things: the starry
 heavens above my head, and the sense of duty
 within my heart.—Immanuel Kant.

Most men fail to observe, when solicited to
 insure their lives, how prodigiously a premium
 multiplies itself in case of death within a short
 time after insuring. And it is to be noticed
 that this multiplying power is largest at the
 end when it is most needed. For the young
 man, who has not had time to accumulate a
 fortune, nor to build up a business yielding a
 large income, the rates are low, and if he will
 put into life insurance every year a small pro-
 portion of what his family would need in case
 of his death, the life company will guarantee
 the payment of the whole sum in case it is
 needed. And so the man himself is relieved of
 all anxiety regarding it from the moment he in-
 sures.

If there be fuel prepared, it is hard to tell
 when the spark shall come that shall set it
 on fire.—Francis Bacon.

In addition to the death claims paid averag-
 ing over one hundred and fifty thousand dol-
 lars per month, the New York Life pays
 about fifty thousand dollars per month in ma-
 tured endowments. These policies after giv-
 ing the holders the protection of insurance for
 a chosen term of years, are no longer returning
 to them all they cost in most cases, and in many
 a handsome profit besides. Endowment in-
 surance protects the family, the estate, and the in-
 surer. It is good if a man dies; it is good if
 he lives.

An old bachelor at a wedding feast had the
 heartlessness to offer the following toast:
 "Marriage—The gate through which the
 happy lover leaves his enchanted regions and
 returns to earth."

The New York Life's Ten Year
 Period Tontine Investment Policies issued in
 1872 are now maturing, and the results are
 calling forth the warmest commendation of
 policy-holders. Not only are surplus accumu-
 lations large, but the options offered by the
 Company for the disposition of the policy are
 found to be of great value. The cash cost of
 insurance on the Ordinary Life Table for
 young men is less than \$2 per annum for
 \$1,000, while policies on the other tables are
 returning more than their cost after an insur-
 ance of ten years. They are proving the most
 profitable policies ever written.

Domestic gardening for ladies: Make your
 bed in the morning, sew buttons on your
 husband's shirt, do not rake any grievance,
 protect the young and tender branches of the
 family, plant a smile of good temper on your
 face, carefully root out all angry feelings, and
 expect a good crop of happiness.

"I am going to insure sometime when I have
 more leisure."
 All the considerations which urge a man to
 insure his life likewise urge him to insure at
 once. Imperative duties, sudden illness or in-
 jury, may make it impossible, or even end life
 itself. The man who is insurable and intends
 to insure, ought to beware how he puts his
 crown and scepter into the hands of to-
 morrow.

When the fool has made up his mind, the
 market has gone by.—Spanish Proverb

It is natural to some to postpone or neglect
 things, the need of which seems far away.
 They prepare for other things when the neces-
 sity for them becomes apparent—why not for
 death? but death sends no notice of his inten-
 tions: he seems to delight in surprises. When
 men say, peace and safety—time enough yet—
 lo, he is at the door!

In selecting a life insurance company three
 things are to be considered: First, the ade-
 quacy of its resources or surplus capital.
 Second, its ability to stand in the midst of
 fierce competition, as proved by continual ex-
 istence for a period of years; and Third, the
 carefulness of its business management, as
 shown by the steady growth in the number of
 insured, combined with an equally steady in-
 crease in the amount of assets over liabilities.
 In all these particulars the NEW YORK LIFE
 INSURANCE COMPANY makes a flattering exhibit.

I would call special attention to the
 Tontine Investment policy and it will afford
 me pleasure to furnish documents and all in-
 formation to those contemplating Life Insur-
 ance.

 751 BROAD STREET, NEWARK, N. J.

Warwick Natural Mineral Springs.
 NATURE'S OWN REMEDY. KNOWING THAT HEALTH IS WEALTH
 We desire to call the attention of the public to
THE WONDERFUL WARWICK WATER

which has been demonstrated by chemical tests and the experience of numbers of invalids who have been cured by its use, to be one of the
 most effectual remedies that has ever been discovered for the diseases which it is claimed to be a specific. It has proved itself to be
AN UNSURPASSED REMEDY FOR
 Dyspepsia, Kidney, Liver and Urinary Complaints, Scrofula, Rheumatism, Constipation
 of the bowels, Nervous and General Debility, Eruptions of the skin, Piles,
 Dropsy and other chronic diseases requiring a purifi-
 cation of the Blood.

IN FACT IT IS A WONDERFUL
Chalybeate and Saline Spring.

While it is not claimed that the water of this spring is a universal remedy, it is really remarkable to
 what a variety of cases it applies. No chemical analysis will probably ever fully reveal the secret of its
 curative power. But when it is considered that it contains those mineral compounds essential for the for-
 mation of the human structure, it becomes evident that one of the most important functions is to purify and
 enrich the blood, and thus equalize the circulation, and throw of the burden of disease.

We invite persons suffering from any of the above diseases, or who are enervated or broken down by
 the waste of the vital forces to carefully examine the analysis of Professor Chandler, of New York, and also
 the accompanying certificate of Professor Silliman, of Yale College.

COLUMBIA COLLEGE, CORNER 49th STREET AND 4th AVENUE, }
 NEW YORK, July 7th, 1870. }

CERTIFICATE OF ANALYSIS.
 SIR:—The sample of Mineral Water from Newark, marked Warwick Spring, submitted to me for
 examination, contains in one wine gallon of 231 cubic inches.

Chloride of Sodium	13,407 grains.
Chloride Potassium	5,400 "
Bromide of Sodium	a trace.
Bicarbonate of Soda	11,264 "
Bicarbonate of Ammonia	18,431 "
Bicarbonate of Magnesia	18,093 "
Bicarbonate of Lime	41,822 "
Bicarbonate of Iron	2,722 "
Phosphate of Soda	0,094 "
Nitrate of Potassa	a trace.
Alumina	0,700 "
Silica	0,816 "
Organic Matter	a trace.
Total	112,749 grains.

Carbonic Acid Gas, 101,028 cubic inches.
 Respectfully your obedient servant,
 C. F. CHANDLER, Ph. D., Professor of Analytical and Applied Chemistry.

Read the following certificate from Prof. Silliman, of Yale College.
 NEW HAVEN, August 3d, 1870.
 I have tried the Warwick Mineral Water, so called, of Mr. Pekrose, of Newark, N. J. Its chemical constitution is clearly
 established by Prof. Chandler's analysis to be a chalybeate and saline water of very remarkable and unusual character. Under
 proper advice it must prove a valuable remedial agent in a large class of cases.
 B. SILLIMAN,
 Professor of Chemistry, Yale College.

The Warwick Co. having recently purchased one of Mathew's Patent Carbonaters, now prepare the
 water FOR TABLE USE, and claim for it a superiority over the imported waters now in such extensive
 use in this country, and to this fact they ask but a fair trial.

PRICES: In Pint Bottles \$1 per dozen, Quarts \$1 50 per dozen.
 SEND YOUR ORDERS AT ONCE. Address,

Warwick Mineral Spring Company.

Mount Tabor Notes.

For "rest," go to Mount Tabor.
 The New York daily papers arrive at
 the grounds every morning at 9 A.M.
 Beautiful "Mount Tabor." This can
 be said without the shadow of dis-
 count.
 Mount Tabor is within one hour and
 forty minutes of New York, by D. L.
 & W. Railroad.
 The Trustees are having the grounds
 put in order, and all the old leaves and
 rubbish gathered up.
 If you have the chills, and desire to
 be permanently cured, spend a few
 weeks at Mount Tabor.
 The average resident population at
 Mount Tabor, from July to September
 is about fifteen hundred.
 Those who suffer from any affection
 of the throat or lungs find much bene-
 fit from a short stay at Mount Tabor.
 Some of the cottages erected during
 the past year, have been provided with
 hot and cold water, and bath room.
 Nearly an acre of ground on the hill
 has been laid out by the trustees for
 the purpose of archery, croquet, lawn
 tennis and quoits.
 During the camp meeting services, a
 daily paper, the MOUNT TABOR
 RECORD, is published, giving full re-
 ports of all sermons and services.
 The Young Peoples Park, set apart
 for lawn-tennis, croquet, archery, quoits,
 &c., is looking very fine. Two hun-
 dred shade and ornamental trees, have
 been set out and are doing well. Walks
 and flower beds will be laid out in due
 time, making it one of the most lovely
 spots for recreation.
 The Mount Tabor Daily Record this
 year will be the best ever issued, each
 number containing a handsome picture
 of some cottage or view on Mt. Tabor,
 pen pictures of prominent ministers
 and laymen of the Newark Conference,
 stenographic reports of sermons, and a
 "record" of daily events on the
 grounds. Every Methodist in this Con-
 ference will this year be particularly
 interested in the Record, as besides pre-
 serving within its leaves the most val-
 uable lessons in the various services, it
 will present to the outside world an
 idea of the neat and elaborate improve-
 ments that the years have wrought on
 Mount Tabor by a series of beautiful
 illustrations.

For tents and floors apply to the
 Tent Committee.
 The railroad company have improved
 the grounds in the vicinity of the de-
 pot.
 Several cottages have been improved
 by a coat of paint, giving them a fresh
 and neat appearance.
 If you desire your children to spend
 the summer away from evil influences,
 bring them to Mount Tabor.
 Mount Tabor is becoming more pop-
 ular every year as a summer home,
 free from malaria, chills and fever, and
 many other evils that human flesh is
 heir to.
 One of our residents has been enjoying Mount Tabor
 since early in April.
 Mr. Edward Allison and family of Jersey City, are
 "at home" for the season in their cottage.
 Mr. J. S. Richardson and family, of Jersey City, re-
 moved to their cottage on June 16th.
 Mr. George White, a builder of Paterson, N. J., is
 erecting a neat cottage on St. John's avenue.
 Mr. Archibald A. Campbell, of Jersey City, has
 plans out for a fine cottage on St. John's avenue.
 Mr. D. P. Johnson and family, of Newark, have been
 occupying their cottage on Shaw Place since the latter
 part of May.
 The conductors of the D. L. & W. Railroad, as a
 rule are men of real merit. They are prompt, courte-
 ous and obliging.
 Do you know Tom Kenan, the shouting but steady,
 faithful engineer? He has a face like the full moon as
 he goes flying by shouting the battle cry of freedom.
 Last year the railroad company built a handsome new
 depot at Mount Tabor, with a covered platform several
 hundred feet long to accommodate the increased travel.
 To parties who have never visited Mount Tabor, we
 can only say, come and spend a day on the grounds
 and see if the place is not all we have represented, and
 even more.
 Much of the success of Mount Tabor is due to the
 hearty co-operation of Mr. Andrew Reasoner, the
 kind and friendly superintendent of the railroad, who
 has at all times shown an interest in the efforts of the
 Trustees, to make Mount Tabor what it is.
 In addition to the improvements at the depot, Super-
 intendent Reasoner proposes to further beautify and im-
 prove the vicinity of the station by planting a row of
 shade trees on either side of the entire length of the
 platform. Mr. Reasoner has also made a suggestion
 which the Trustees will probably carry out, to widen
 the roadway from the depot to the entrance of the
 ground to 100 feet, with a suitable walk on each side
 and a park in the centre, to be filled with shade trees

MOUNT TABOR LITERARY AND MUSICAL UNION—
 Officers, 1881-2.—President, Dr. J. W. Stickle; First
 Vice-President, S. M. Long; Second Vice President,
 Miss Carrie Stevens; Third Vice President, Miss Sarah
 Hawks; Recording Secretary, H. L. Coit; Corre-
 sponding Secretary, Miss Carrie Cosade; Treasurer,
 Thomas James; Executive Committee, H. L. Coit, D.
 Nicholas Lathrop, William H. Brown, Miss Lizzie
 Richardson, Miss Emma Gwinnell, and officers of the
 Society.
