

Mount Tabor Record

VOLUME II. NUMBER 1.

Dover, N. J., Thursday, August 15th, 1878.

JOHN S. GIBSON, Editor.

Thos. Walsh,
THE
One-Price Clothier,
BLACKWELL ST.,
DOVER,
PROPOSES TO DISPOSE OF HIS
SUMMER STOCK
AT COST,
AND WILL MAKE YOU A
Fall or Winter Suit
in better style and for less money than you
have ever known before in this section.
EVERY PROMISE FULFILLED
AT
Roderer & Heagan's!
Our own manufacture always in stock.
WE PROMISE
A man's French Calf boot back and front for
five dollars.
WE PROMISE
A man's Chicago Kip, full double sole and tap
for four dollars and twenty-five cents.
WE PROMISE
A man's Chicago Kip, single sole and tap for
four dollars.
WE PROMISE
A man's heavy wax upper double sole and tap
boot for three dollars and seventy-five cents.
WE PROMISE
A full line of gents' French calf button con-
gress and English walking shoes in all widths
from \$4.00 to \$5.00
WE PROMISE
A Chicago Kip Brogan for two dollars.
These goods are all manufactured by our
own workmen and every pair warranted.
We also keep the largest stock of sale work
at lower prices than any establishment in the
county.
RODERER & HEAGAN,
OPP. R. R. DEPOT,
DOVER, N. J.
IF YOU WANT GOOD HONEST
Bread, Cake,
Pies, Pastry,
or anything else in the baker's line at the
lowest prices, or fine
CONFECTIONERY
CALL ON
C. B. NIXON,

OPP. DEPOT, DOVER, N. J.

VOUGHT & KILLGORE'S COLUMN.
XX COUGH SYRUP.
Have you a Cold?
Have you a Cough?
Have you the Asthma?
Have you Bronchitis?
Have you Tickling in Throat?
Get the best remedy you can find at once. It may lead to something serious. **XX COUGH SYRUP** has cured thousands. It will cure you 25 and 50 cents per bottle.
Vought & Killgore, Prop'rs, Dover, N. J.
Depot in New York at Ditman's Astor House Pharmacy.
Depot in Newark at Smith's, Broad Street.
SUN CHOLERA MIXTURE
A valuable remedy for Diarrhoea, Dysentery, Cholera Morbus. The Sun Cholera Mixture was the successful remedy used in checking the great Cholera epidemic in New York 40 years ago. See that each bottle bears the name of "Killgore's Sun Cholera Mixture." Twenty-five cents a bottle. Prepared by
VOUGHT & KILLGORE, DOVER.
XX Camphor Cream!
Will Cure
Rheumatism.
Chilblains or Frosted Feet 99 in 100.
Sore Throat, sure.
Stiff Neck, cant be beat.
Sprains, never fails.
Blisters, in all cases.
Stiff Joints, it beats all.
Bites and Stings At all times.
Lame back, infallible. Cuts or wounds, good. Pimples on the face, it has no equal. Burns, safe and sure. For all Pains, absolute; try it. 25 and 50 cts. per bottle.
Vought & Killgore, Prop'rs.
THE WORLD PAUSES TO
Among the Useful Toilet Articles
We notice a much-liked preparation for the hair, possessed of properties so remarkable that no one who cares to own a clean and healthy scalp with beautiful hair should pass it untried. Its properties are cleansing, invigorating and healing, and after a few applications the hair ceases to fall, dandruff and humors disappear, and the hair grows clean, soft and silky. It keeps the head cool and comfortable and, in a few days restores the hair if gray or faded to its natural and life-like color, beautiful to look upon. It is **PARKER'S HAIR BALSAM** that has won such popular appreciation by its many excellent and healthful properties. We notice dealers are selling it at 50 cents and \$1.00 per bottle.
ADMIRE THE BEAUTIFUL
PARENTS,
Delays are dangerous. The lives of our little ones are dear to us, and it is the wish and hope to see them look bright, cheerful and happy.
We advise you not to give them any of the dangerous worm syrups or liquids of any kind or name. They are not only bad to use and really dangerous to take, but the stomach often rejects them and are used with peril to those little ones who look to us for care and protection. Van Densen's Worm Confections are pure, white and are made from the purest vegetable medicines. They are the only safe and sure worm medicine ever discovered. They have become a household remedy and are now sold in every store.
Van Densen's Worm Confections Are sure protection. They bring to terms Intestine worms; Cures every child; Are tasteless, mild. Your pets may live, If these you give.
Ask for Van Densen's Worm Confections. Sold at every store. 25 cents a box. Merchants can get them at wholesale drug stores. Van Densen Brothers, Kingston, N. Y.
The above Remedies are for sale on the Camp Ground by J. Arndt.

MOUNT TABOR.
THE ATTRACTIONS OF THE CITY IN THE WOODS.
In our first number last year was a very full and complete history of this beautiful place, together with a description of its many attractions. We do not deem it advisable to enter into such detail at this time, and therefore will pass more hastily over these particulars to newer and fresher reading.
ITS HISTORY
is not an ancient one. At the Annual Newark M. E. Conference, held in Washington, in March, 1866, it was deemed expedient to hold a Conference Camp meeting, and a Board of Managers was appointed to designate the time and place of holding such meeting, the result of which was that Conference camp meetings were held that year, and for two years thereafter, in a beautiful grove at Speedwell Lake, in the suburbs of Morristown. These meetings increased in interest so much that at the last meeting held there, in 1868, the advantages to accrue from having a permanent place of meeting, were clearly foreshadowed. At a meeting held upon these grounds on the 31st of August in that year, over which the late Hon. Peter Smith presided, a Committee consisting of Rev. Dr. J. T. Crane, Rev. C. S. Coit, and Hon. Peter Smith, was appointed to consider the subject still further. This Committee devised a plan for the purchase of grounds, providing that moneys for this purpose be raised by subscription, and that the payment of \$20 or upwards entitled each subscriber to the possession of a lot. A Committee was also appointed to perfect a permanent organization and \$9 shares were taken.
On the 1st of September the Association adopted as its title, "The Camp Meeting Association of the Newark M. E. Conference." Messrs. Cobb, Tuttle and Searing were appointed to select a site, and Messrs. Crane, Tuttle and Cobb to secure an act of incorporation.
The site was selected on the 21st of October, 1868, when was chosen the grounds of the Messrs. Dickerson, near Denville. On the 26th of March, 1869, a purchase was effected of the main tract of about 30 acres, of Messrs. W. H. and Nathaniel Dickerson. At the same time the following Managers were selected: Joseph Gatchell, M. T. King, Amos Hoagland, C. S. Coit, Peter Smith, I. Searing, J. T. Crane, H. A. Buttz, George T. Cobb, J. V. Bentley, J. B. Bassenger and J. M. Tuttle—the first quartette to hold office one year, the second two years, and the third three years. These organized as follows: President, Hon. Geo. T. Cobb; Secretary, J. V. Bentley; Treasurer, J. M. Tuttle.
The work of laying out the grounds and preparing for the first meeting began April 2d, 1869, and continued till the 23d of August, when the first camp meeting was opened under the direction of Rev. John S. Porter, D. D. The meeting proved a grand success, although there was then but one building upon the grounds—the Tabernacle. It was also a very encouraging season financially, the receipts from the sale of lots and other sources aggregating \$9,601.48.
The meeting of 1870 was marked by an innovation—the erection of two frame cottages, by Hon. Peter Smith, of Waterloo, and J. Tommasselli, of Elizabeth. These pioneers of the city of cottages that has since grown up about them, were justly considered real curiosities at that time, but they have since proven the mutability of earthly fame, by becoming plain, if not insignificant, among the grander fellows that have grown up about them.
The death of Hon. Geo. T. Cobb, the President of the Association, which occurred August 6th, 1870, was announced at this meeting, and an appropriate memorial service held. He was succeeded by Ichabod Searing, Esq., of Morristown, who also died in office, Feb. 9th, 1873. David Campbell, Esq., of Newark, was next called to the position, and the wisdom of the selection has ever since been practically demonstrated by the energy and enterprise he has exerted in the administration of the office.
From 1870 till 1875 Mount Tabor grew with a rapidity that was astonishing. New avenues were constantly being opened, and cottages sprang up in every direction. From the latter date the effects of the panic began to be felt upon it, but yet the management have abated none of their characteristic energy, and the growth, although not as rapid as formerly, has been steady and easily perceptible.
In May, 1872, the possessions of the Association were considerably enlarged and greatly enhanced in value by the purchase, at a cost of \$10,000, of the adjoining farm

of 100 acres. The same year a donation of \$1,000 was received from the D., L. & W. Railroad Company.
From the first the annual meetings have grown in interest, and have been productive of a vast amount of good. The Superintendents of them has been as follows:
1869. Rev. John S. Porter, D. D.
1870. The Presiding Elders; viz: J. T. Crane, A. L. Brice, James Ayars, M. E. Ellison, N. Vansant.
1871. The Presiding Elders; the same.
1872. A. L. Brice—Associate, M. E. Ellison.
1873. L. R. Dunn, C. S. Coit, J. R. Bryan.
1874. A. L. Brice, N. Vansant.
1875. A. L. Brice, N. Vansant.
1876. R. L. Dashiell, D. W. Bartine.
1877. R. L. Dashiell, R. Vanhorne.
1878. R. Vanhorne, A. L. Brice.
THE LOCATION
of Mount Tabor was fixed with a view to the many advantages it now possesses. It is within one mile of the junction of the main line of the D., L. & W. Railroad and the Morris & Essex branch of the same, at Denville—giving the very best of railroad facilities at any time, and particularly during the camp meeting season, when all trains stop at the station a few hundred yards from the grounds, and even extra trains are provided.
The site also possesses many natural advantages. It is elevated high above the sea level, meeting a rarified atmosphere, which, with the densely growing chestnuts, makes the city in the woods a deliciously cool retreat even when the mercury hovers about the century numerals. This delicious atmosphere is not only healthy and invigorating, but it is too pure for the mosquitoes and other insects that often haunt heavily wooded localities, and they are seldom met with here. The soil is a solid, gravelly formation, and the rains when they fall pass very quickly down the slope upon which the little city is built, leaving no mud behind it, enabling the dwellers to venture out and services to be held immediately after the rain has ceased to fall.
THE COTTAGES
last year just reached the number of one hundred, and several have been erected since. All are neat structures, are well designed for Summer residence, and many of them are models of architectural elegance and family convenience. Of course most of the first cottages erected were built very plainly, but even most of these have since been remodelled, to be to some extent in keeping with their more elegant neighbors. The ornamentation of the grounds about the cottages is one of the most pleasant attractions of Mount Tabor. In many instances elegantly sodded lawns have been constructed and flower beds of splendid proportions have been laid out, while none have been too indolent to avail themselves of the stumps, rocks, ferns and moss which abound in the vicinity, in order to decorate the surroundings of their Summer domiciles.
THE AVENUES
are laid out in a picturesque manner, are well graded, and in the naming of them a tribute of respect has been paid to Wesley, Embury, Asbury, James, Morris, and many others who have been monuments marking the history of Methodism from its inception to the present time.
THE TABERNACLE,
or preaching stand, was built in 1869. In front of it is a covered portico, and stretching out beyond is a vast circle gradually rising to the rear, studded with stately chestnuts, in the shade of which seats are prepared for the accommodation of thousands of people. Surrounding the circle and facing it are some of the finest cottages to be seen upon the grounds, although these find some very pretentious rivals in the cottages erected on the summit of the hill. On the sides are two large pavilions for holding extra services, appropriately named "Ebenezer" and "Bethel." On the ends of the Tabernacle are the offices of the Superintendents and Secretary and Treasurer. The upper floor of the building is a dormitory for the accommodation of preachers, which has facilities for about fifty persons. The lower part is the residence of Mr. E. B. Earles, the Steward of the grounds.
THE MOUNT TABOR HOUSE
is a very fine structure erected by the Association for the accommodation of the general public, and is kept by Mr. Isaac Parcells, of Morristown. Meals are served in the regular way, or on the European plan, and all the viands are well prepared and nicely served. The upper floor is furnished with sleeping apartments for about forty persons.
The wants of the inner man are also well provided for at the cottages and boarding tent of A. Lyon on the same avenue a little farther south.
Next to the Mount Tabor House, on the North, is a very complete confectionery and

refreshment tent, occupied by Day, the well-known Morristown caterer, than whom there is none better. Those in want of ice cream, soda water, or any of the good things of the season, will find his place a very good one to visit.
Adjoining is the store, kept by John Arndt, of Dover, who has been its popular proprietor for several years. Although he enjoys a monopoly of the trade here, he deals with all so impartially and justly that all are satisfied that he is the right man in the right place. Over the store is a dormitory that will accommodate sixteen persons, and underneath a butcher shop conducted by Klotz & Son, of Hackettstown, who treat their customers to excellent steaks, roasts and joints, at very reasonable rates.
In the immediate vicinity are also a furniture tent and barber shop, each well kept, the former by John R. Sutton, and the latter by Wm. Becker, Jr., of Morristown.
THE WATER
with which the grounds are supplied is very pure, and the facilities for dispensing it are first-class. From a very large and never-failing spring at the base of the hill on the opposite side it is forced to two large reservoirs on the summit, from which it flows by pipes to the residences and all parts of the grounds.
OTHER FACILITIES.
Gas is also supplied in every direction from a large house in the lower part of the grounds.
There is also a building occupied as a post office and police station, with cells underneath for any refractory individuals who might visit the grounds. We are glad to say, however, that these are seldom, if ever, used. Mr. Ransom, of Jersey City, has charge of the postal arrangements, and Mr. Abram Klotz, of Hackettstown, is the Chief of Police, and very pleasantly and very efficiently enforces good order. A telegraph office was also formerly located in this building, but it has been removed this year to the depot.
IMPROVEMENTS MADE THIS YEAR.
Notwithstanding the terrible depression of business the present year has witnessed a number of improvements that have greatly enhanced the appearance of Mt. Tabor, and the general well being of its residents. The most important of these is a new reservoir constructed in the centre of St. James Park, on the hill—it having been demonstrated that the old reservoir was rather inadequate to supply fully all portions of the grounds. It is ninety feet in circumference and twelve feet deep, neatly sodded about the sides and covered by a roof. From this point one of the grandest views in Morris County can be had, and it is not unreasonable to hope that at some time in the future a tower will surmount the massive foundations of this reservoir.
The Tabernacle has also undergone some very important improvements. A sitting room has been furnished for the preachers, neat cots have been provided for the dormitory, and the apartments of Mr. Earles have been considerably improved.
The number of cottages has been increased by four new structures, erected as follows: By O. Fairchild, of New Vernon, on Fletcher Place; Francis A. Day, of Morristown, on Morris Avenue; Rev. R. S. Arndt, of Elizabeth, on Whitefield Place, and Mr. Cameron, of Jersey City, opposite the Mount Tabor House, all of which are very fine buildings.
Quite a number of the old residents have been engaged in enlarging, repainting or repairing their places, and marked improvements may be observed about the cottages of Dr. Perkins, David Campbell, Esq., Rev. J. M. Tuttle, Mr. Wm. Hixon and others.
Besides these a very gratifying improvement may be noted in the lighting facilities about the circle.
OFFICERS.
The Trustees at present are David Campbell, President; J. N. Fitz Ferald, Secretary; J. M. Bonsall, Treasurer; R. Vanhorne, J. M. Tuttle, A. L. Brice, J. R. Bryan, A. Klotz, George W. Labaw, S. B. Ransom, J. S. Richardson and Wm. Hixon. Chairmen of Standing Committees: Executive, D. Campbell; Finance, R. Vanhorne; Transportation, J. M. Tuttle; Lodging, R. Vanhorne; Tents, A. L. Brice; Police, J. S. Richardson, Abram Klotz, Chief.
THE SUPERINTENDENTS
appointed by Conference to conduct the coming meeting are Revs. R. Vanhorne and A. L. Brice, D. D. Each has had previous experience in the conduct of these meetings and both are men of energy and experience. We believe that under their administration we shall a very successful meeting on Mount Tabor this year, and that all who attend it in the right spirit will go away profited. Somote it be.

Mount Tabor Record

JOHN S. GIBSON, Editor.

Published every morning at the office of THE IRON EXA, DOVER, N. J.

Our Second Coming.

Again we make a very humble bow to the people at Mount Tabor and wherever the Record extends. We had hoped when we again appeared to our readers to present a paper considerably larger, and made an honest effort to do so; but although our circulation promises to meet our best expectations, the dearth of business that prevails all over the country has tended to make advertisers less willing than we expected, and hence our inability to present as large a paper as we would like to. All the matters of interest, and the sermons and services at this meeting shall be given in detail and our advertisers allowed the full space for which they contracted. To do this will require a large outlay of money and a great deal of labor. But as we believe the publication of such a paper will afford to each reader a pleasant hour every day in its perusal, and that it will to some extent at least enhance the interests of Mount Tabor, we enter upon the work with the confident hope that the people will not let it fail for lack of support.

We also enter upon the task with a full knowledge of our imperfections, but if the earnest effort we shall make results in winning the commendation of our many readers it will more than compensate us for the criticisms of the few upon our journalistic failings.

THE SUNDAY SCHOOL CONGRESS.

The Sunday School Congress which was held upon these grounds from the 24th to the 31st of July last, was an event of great interest, the details of which we regret we have not room to publish, and must content ourselves with the following summary, copied from one of our exchanges:

The Congress was copied after the great Chautauqua Assembly organized by Rev. J. H. Vincent D. D. Its object as set forth in the prospectus was four-fold. First: To awaken a deeper interest in the Sunday School work. Secondly: To impart clear ideas of what the Sunday School is and what it proposes to do. Thirdly: To teach teachers what and how to teach. Fourthly: To seek the benefit that comes from contact with men of varied thought and culture.

The congress was not denominational. The various churches were represented in the teachers and lecturers.

Rev. J. L. Hurlbut of Hoboken, N. J., the chief manager, won golden opinions for the marked ability with which he conducted the congress.

Phillip Phillips, Esq., led the singing and on several occasions gave song services which were remarkable for spiritual power.

Little peoples' meetings were led each day by Rev. C. R. Barnes. Primary Teachers Conferences were held daily, conducted by one of the most successful Infant Class teachers in the country, Mrs. S. W. Clark of Newark. These Conferences are described by those who are interested in the work of the infant department as interesting and instructive.

One of the best features of the congress was a daily normal class, which consisted of a series of lessons and conferences on the Sunday School; its definition; relations to home and church; organization; management; officers' and teachers' duties, etc. These lessons were taught in the conversational method, yet in such a way as to present the results of the best thought on the various subjects. They were conducted chiefly by Rev. William Harris, President of N. J. S. S. Association, and Prof. S. W. Clark.

Lectures were given each day on various items, by some of the best lecturers in the country. Among them were Rev. H. M. Sanders, Rev. C. Y. Swan, Rev. C. N. Sims D. D., Rev. C. D. Foss, D. D., Rev. S. H. Tyng, Jr. D. D., Rev. J. P. Newman D. D. Character lectures were given by Frank Beard, Esq., which furnished much amusement, combined with instruction. Among the most profitable entertainments of the week, were two evening lectures, illustrated with stereopticon pictures on a canvass twenty feet square. They were given by Prof. James Strong, S. T. D., of Drew Seminary. He gave his hearers two delightful journeys, one up the Nile among the remains of Egyptian antiquity; the other over the route of Moses and the hosts of Israel through the Sinaitic peninsula.

A rare treat to S. S. Teachers was a museum of the Orient, prepared by A. D. Van Lennep, Esq., a native of Stryrna. Mr. Van Lennep also gave several costume lectures on the manners and customs of Bible lands and times.

Anxiety is the poison of life; the parents of many sins and of more miseries. Why, then, allow it, when we know that all the future is guided by a Father's hand?—Blair.

Camp Ground Notes.

A telephone connects the Mount Tabor House with the depot.

We shall begin to-morrow the report of sermons and services and pen sketches.

A question that disturbs the minds of the people at Mount Tabor is whether crow-K is O. K.

Send the Mount Tabor Record to your friends and thus let them know what you are enjoying.

One of the newest and best inventions for business men is the Stylograph. See advertisement.

Tuesday was observed on Mount Tabor as a day of fasting and prayer for the success of the meeting.

You can all help to make the Record interesting. If you know of an item please inform the editor.

Of course every rain that may occur during the next twelve days will be attributed to the camp meeting.

The Young People's Literary and Musical Union, recently organized, gave an entertainment on Monday evening.

Rev. A. H. Tuttle, of Hackettstown, is expected to preach the sermon at the first service of the meeting, this morning.

The well-known Mt. Hope and Rockaway choir will conduct the singing at the present meeting. This will be gratifying news to all.

The clothing house of Babbitt & Troxell at Morristown is one of the largest and best establishments of the kind in Northern New Jersey.

The Trustees have resolved to rescind their resolution to charge a fee for tying teams on the grounds, and teams will be admitted free to the tying places.

A good way to make Mount Tabor a most formidable rival to Round Lake would be to flood the meadows adjoining the grounds. That is, if the plan is feasible.

Subscribe for the Record before it is too late to secure the first numbers. Last year a great number of people wanted complete files when it was too late to secure them.

The Power of Prayer.

A fire once broke out in a small village in South Germany, which threatened to devour all the neighboring houses. Out of one little cottage close at hand, in imminent danger, the poor parents had just rescued their two children and their very scanty store of goods, and were hurrying them out of the reach of the fire. But as the flames flashed up from all the other houses around, and their own cottage was about to catch, the two children came back and cried out, "Dear Saviour, leave us our little house! We cannot get another, and winter is coming!" As they were so uttering their sorrow, a God-fearing man passed by and heard their crying. Touched with it he stood still, and looked up to heaven, and spoke: "Lord, if I were Thou, and could command the elements, I would leave the children their little house!" And, behold, the little house was left unhurt. It was as if a wind had surrounded it for defense, and drove away the flames on all sides.

Good-bye is a hard word to say sometimes. Let us restore it in our thoughts to its old meaning. When we have to say with our lips, Good-bye, let us say in our hearts, God be with you. I may not be with you, but may a greater, a better, a more loving than I be with you—may God be with you. I can speak to you and hear you no more; but may God cheer you, and guide you, and keep you, and bless you with his very presence. So let us turn our Good-bye into a prayer. It will be easier to say then. I do not say that our parting will have no pain in it, but our Good-bye will pour a healing balm upon the wound. And can we pray a better prayer? If God be with us, who can be against us? Surely this is our best fare-well. We only really fare well when God is with us. We are happiest, holiest, safest, when we are walking with God; for then, though our best loved ones may be far away from us, we are walking with love itself, for God is love.—Rev. J. E. Samson.

It is rough work that polishes. Look at the pebbles on the sea shore! Far inland, where some arm of the sea thrust itself deep into the bosom of the land, and expanding into a salt loch, lies girdled by the mountains, sheltered from the storms that agitate the deep: the pebbles on the beach are rough, not beautiful; angular not rounded. It is where long white lines of breakers roar, and the rattling shingle is rolled along the strand that its pebbles are rounded and polished. As in nature, so in art, so in grace; it is rough treatment that gives souls, as well as stones, their lustre. The more the diamond is cut the brighter it sparkles; and in what seems hard dealing, there God has no end in view but to perfect his people.—Dr. Guthrie.

If we are faithful to the duties of the present, God will provide for the future.—Bedell.

The Mount Tabor Literary and Musical Union had a fine evening for their entertainment, which was a complete success. The parts were all well rendered before a large and appreciative audience. The society therefore starts out under the most favorable circumstances, and since it is composed of young people of talent and ability, it will doubtless become a powerful instrument of good in furnishing innocent amusement and harmless pleasure for the residents of Mount Tabor.

One of the noticeable and praiseworthy features of the entertainment was that no admission fee was charged nor any collection taken up.

Blessed are they who live above the world while they are living in it, anticipating heaven by receiving its spirit before they breathe its air.

Mount Tabor Time Table.

Trains will leave for the CAMP GROUNDS as follows:

| | |
|---------------|--|
| New York | 7.00, 7.20, 9.10, 10.10, 11.20 A. M. |
| Hoboken | 7.15, 7.35, 9.25, 10.25, 11.35, A. M. |
| Newark | 7.53, 9.43, 10.43, 11.53 A. M.; 12.34, 3.08, 4.03, 4.53, 5.53, 8.23 P. M. |
| Orange | 8.05, 9.57, 10.57, A. M.; 12.07, 3.17, 5.17 P. M. |

DOVER, N. J.

NEXT DOOR TO D. A. DERRY'S STORE.

NOTICE!

None but pure Drugs

and Medicines sold

for which a reasonable price will be charged.

Pure Wines and Liquors

Proprietary Articles.

The subscriber is sole manufacturer of the following Proprietary or Patent Medicines, (all of which will sometimes fail to effect a cure,) but as a guarantee of their superiority, I agree to cheerfully refund the money to every purchaser who, after using half the contents of the bottle or package, is not perfectly satisfied; believing this course more honorable than advertising them as infallible, and publishing certificates which can always be obtained with but little trouble.

GOODALE'S IODINE LINIMENT,
EXPECTORATIVE SYRUP,
SANTONINE WORM CONFECTIONS,

GOODALE'S ROSE GLYCERINE LOTION,
GOODALE'S CANADIAN OINTMENT,

Goodale's White Rose Toilet Powder, for improving the Complexion and removing Tan, Freckles, Moth Patches, &c. Price 50 cts.

Manufacturer of Extracts of VANILLA and LEMON, for flavoring—UNSUPERPASSED BY NONE OTHER.

CAMPHOR CREAM, at 10 cents per bottle or 50 cents per pint. Warranted equal to any other preparation of the same kind which is being made from the formula published in the "DRUGGISTS' CIRCULAR."

Most of the foregoing preparations have been sold for the last twenty-seven years in Morris and Sussex counties, and in nearly all cases have given entire satisfaction.

Jas. A. Goodale,

Registered Pharmacist.

SAVE MONEY!

By Buying of the Manufacturer.

J. G. ROCKEFELLER,

having commenced the manufacture of

Rubber Valve Chain Pumps,

is now prepared to furnish these very useful articles at reduced prices. Thirty days' trial given on all pumps, and no charges made for placing them in position. This pump will not freeze even in the coldest climate. It draws water directly from the bottom of the well, so that it is always pure and fresh.

Groceries

AND

Provisions!

Our large established trade in this department is always proof of the fact that we keep only the best goods and sell as low as the lowest.

Important to Farmers

We have taken the agency for the celebrated

Wiard Plows,

which embrace many improvements never before introduced, and are the most durable and most satisfactory working Plows yet put upon the market.

These Plows are made in various sizes and styles and every farmer should examine them before commencing his Fall work. We take great pleasure in showing them, feeling that their merit will quickly establish them.
